INTRODUCTION

Open the throttle, pop the clutch, and get ready for intense, no-holds-barred street racing and bare-knuckle combat like never before. In *Road Rash*, hit the streets on a super bike and engage in high-speed motorcycle combat racing for cash bonuses, bike upgrades, and much more. Challenge unforgiving computer-controlled Rashers or race head-to-head against a friend via the Game Link cable for the ultimate bragging rights. Vicious opponents wield an assortment of weapons, including clubs, pipes, and chains. Snatch them and they're yours to use – there's no better feeling than pummeling a Rasher with his own club. You'll have to punch and kick for survival if you plan to make it all the way to the finish line. Rip up the road and smack some skulls – it's time to ride.

ON THE ROAD

Life on the road can be both thrilling and dangerous. Out there, the basic rule is to take out your opponents before they can take out you. Learn the gameplay basics to take command of the streets and survive to rash again.

GAMEPLAY SCREEN

YOUR RASHER

DISTANCE METER

ENERGY INDICATOR

ENERGY INDICATOR/DAMAGE INDICATOR

The Energy Indicator displays your rasher's current health level. When you are at full health, the meter appears green. If your rasher takes damage, the indicator reduces. When the Energy Indicator is completely empty, further damage can result in you being knocked out of the current race.

The Damage Indicator displays your bike's damage level. Each time you hit a moving or stationary object, the Damage Indicator appears and decreases. When the indicator is completely empty, your bike explodes and the race ends.

WEAPONS

Road Rash contains an array of weapons with which to batter your opponents. You start a race without a weapon and must swipe them off of rashers who are trying to take you out. Potential instruments of violence include a club, pipe, or chain.

➤ To attempt to steal a weapon, press the **B** Button as an opposing rasher attacks you.

SINGLE PLAYER MODE

In Single Player mode, you take on fifteen of the baddest rashers on the road in a fight for the finish line. The better you race, the more credits you earn. However, it won't be easy. To make it to the top, you'll have to weave your way through an array of weapon-wielding punks, police officers, and traffic hazards.

Single Player mode consists of five difficulty levels. Each level contains five tracks. To qualify on a track, you must place as one of the top three finishers. Once all tracks in a level have been completed, you advance to the next level. Here, you will face longer tracks and more challenging competition.

➤ To begin Single Player mode, select **START RACE** from the Main menu.

REPAIRS

During a race, any crashes or collisions with road hazards or other vehicles results in damage to your bike. Once all tolerance to damage is exceeded, your bike explodes and the race is over. At this point, the Repair screen appears indicating the amount you must pay to fix your bike. This amount is automatically deducted from your account.

THE FUZZ

Another factor to consider on the road is the presence of the police. They patrol the roads just waiting for you to make a mistake. Once you are busted, your race immediately ends. At this point, the Ticket screen appears informing you of the fine you must pay for your transgression. This amount is automatically deducted from your account.

RESULTS SCREEN

Following each race, the Results screen appears displaying the names and prizes for the top three rashers. Any prize winnings are then added to your account. Use the cash bonuses you earn to buy better motorcycles from the Bike Shop.

➤ To advance to the Main menu, press any button.

2 PLAYER LINK MODE

In 2 Player Link mode, use a Game Link cable to hook together two Game Boys and challenge a friend.

To begin a 2 Player Link mode match:

1. Select LINK VS RACING from the Main menu. The Waiting For Link screen appears.
 - To return to the Main menu, press the **B** Button.
2. The second player must also select LINK VS RACING from their Main menu. The Level Select screen appears on Player Two's screen.
3. At this point, Player One must purchase a bike in the Bike Shop, then select a weapon from the Weapon Select screen. The Waiting For Link screen appears.
4. Player Two must select a play level, a track to race on, a bike, and a weapon. After all selections have been made, the linked race begins!

PASSWORD SCREEN

The Password screen allows you to continue a Single Player mode race. After each race in Single Player mode, a new password appears on the Options screen.

To enter a password:

1. Select PASSWORD from the Options screen. The Password screen appears.
2. Control Pad $\leftrightarrow$ to highlight a letter/number, then Control Pad $\updownarrow$ to cycle the letter/number you want.
3. When the correct password is entered, press the A Button. Your game data loads.
