**⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES**

**READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

**Use and handling of video games to reduce the likelihood of a seizure**

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation 2 system.  
Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**HANDLING YOUR PLAYSTATION 2 FORMAT DISC:**

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

# IN-GAME

## Power-Up Meter

The Power-Up meter is a small meter that is always below each individual team name.

This meter will fill up as you do good things in the game on both the offense and defense. As a reward for playing as good as you can, when you fill the meter all the way, you'll earn a Power-Up to use during gameplay!

## Pitch Locator

The Pitch Locator shows where the ball is going to cross the plate once the pitch has been thrown. The grey area that is around the ball is different for every pitch – some pitchers throw certain pitches better than other pitchers. The smaller the grey area, the better location the pitch will have when you throw it to a specific area.

## Fielding Cursor

The fielding cursor will appear on the field when a ball is hit into the air. This cursor is showing you where you need to stand in order to field the ball.

When the ball is in the air, the Fielding Cursor is white and the icon under your player will be yellow.

When the ball has been caught, the Fielding Cursor will disappear and the icon under your player will be green, indicating you have the ball and you can throw it.

## Pause Menu

The pause menu contains the following options: Continue, Team Lineup, Options, Player Stats and Quit Game.

## TOURNAMENT MODE (1-8 PLAYERS)

In Tournament Mode, up to 8 players can take 8 teams through a playoff-tree style mode to see who is the best player.

To start a Tournament Mode game, press the **left analog stick** left or right to choose the first team you want to play with. press the **left analog stick** up or down to select the other teams and press the **left analog stick** left or right to change those teams.

You can press the **□ button** to get a scouting report on the highlighted team. You can have the computer simulate any game for you if you don't want to play it by highlighting one of the teams in that specific bracket and press the **○ button**.

When you have the team you want to play as highlighted, press the **⊗ button** to continue. Use the left analog stick to choose Home or Away and press the **⊗ button** to continue. Edit the Game Rules, then press the **⊗ button** to continue. Change your team lineup if you'd like, then highlight Done and press the **⊗ button** to continue. Change your batting order if you'd like, then highlight Done and press the **⊗ button** to start the game.

## BACKYARD BASEBALL ALL-STAR™ GAME MODE

In the **All-Star Game** mode, up to 2 players can fight it out to see which League really is the better league! Setting up and playing the Backyard Baseball **All-Star Game** is just like a regular Pick-Up game (see page 7 for Pick-Up game information), except the only two teams you can play as are the **AL** and **NL** All-Stars. The players are automatically picked for you by the computer.

## HOME RUN DERBY® (1-4 PLAYERS)

Play either a 2- or 4-player **Home Run Derby** game to figure out who is the home run master! There are several options you can set before you start the game:

- **Contestants:** Set the number of contestants between 2 or 4 players.
- **Scoring:** Most HRs, Total Distance or Longest HR.
- **Style:** Outs or Pitches.
- **Pitches / Outs:** 3, 5, 10 or 15.
- **Vibration:** On or Off.

# POWER-UPS

As you play throughout the game, the Power-Up meter under the team name will fill up. When it fills completely, you will be rewarded with a Power-Up that you can execute on either offense or defense, depending on which Power-Up you received.

## BATTING POWER-UPS

Power-Up	Description
<b>Free Radical</b>	The ball bounces around a few times, making it really hard to field.
<b>Orbiter</b>	Could the ball be hit any harder? Nope. This is as good as it gets. You're just about guaranteed a homer if you can hit the ball.
<b>Popcorn Bunt</b>	Bunt the ball and confuse the defense when a bunch of other balls appear on the field.
<b>Screaming Liner</b>	The ball is hit so hard it screams. Don't worry, the ball doesn't get hurt.
<b>Slime Ball</b>	The ball gets covered in goop and no one can field it, much less throw it.
<b>Spring Fever</b>	The ball shoots straight up in the air and then comes right back down, but that should give the runner enough time to get to first base safely.
<b>Static Zing</b>	The ball is charged with electricity and the first person to touch the ball will get shocked. Don't worry, it doesn't hurt.
<b>Teleporter</b>	The ball teleports around the field several times before stopping somewhere on the field.

## DEFENSIVE POWER-UPS

Power-Up	Description
<b>Elevator</b>	The ball drops way down, then shoots straight up! Timing is everything when trying to hit this pitch.
<b>Freezer</b>	If there was one pitch that would completely throw off a batter, it's this one. The ball is thrown and then gets frozen inside a block of ice! Watch your timing or you might swing at nothing but air!
<b>Juice Box</b>	The only way to regain your stamina when pitching is to drink your juice box. This will completely fill your stamina meter, so don't use it until you absolutely need it.
<b>Kitchen Sink</b>	Everything you've got, including the kitchen sink, is thrown with this pitch. It goes up, then the bottom falls and the ball drops down.

Power-Up	Description
<b>Meteor Ball</b>	The ball is thrown so fast you barely have time to see it. Be on the lookout!
<b>Split Ball</b>	One ball turns into two! Which one is the real ball? Watch carefully!
<b>Vaporizer</b>	Now you see it, now you don't! Where'd it go?
<b>Zig-Zagger</b>	It zigs! It zags! It goes all over the place! Can you even hit it?

## Good Day / Bad Day

When the game starts, both lineups appear on the screen with faces next to each individual player on each team. This shows what kind of day the player is having.

The player is having a Good Day.

The player is having an OK day.

The player is having a Bad Day.

Each player has certain things that can affect their performance on the field, like what position they're playing, who they're playing with (or against) and even the team or field that the player is on can affect how they play.
