⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
 - Avoid large screen televisions. Use the smallest television screen available.
 - Avoid prolonged use of the PlayStation®2 system. Take a 15-minute break during each hour of play.
 - Avoid playing when you are tired or need sleep.
-

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

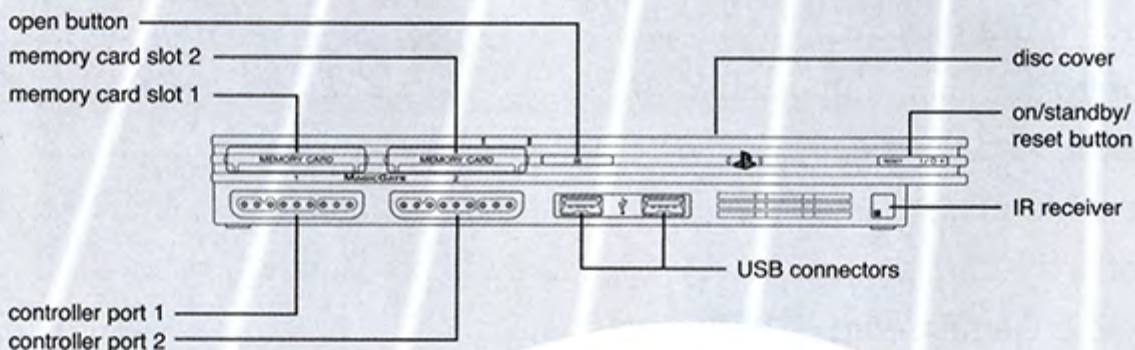

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.

IN GAME

PAUSE MENU

The pause menu contains the following options: Continue, Call Timeout, Camera, Team Lineup, Options, Team Stats, Player Stats and Quit Game.

PLAYBOOK VIEW

The Playbook screen has everything you need to know about the current game: The current score for both teams, the current quarter, time remaining in the quarter, the number of timeouts each team has,

the number of power moves each team has and all applicable play related information.

First, choose a play formation using the **directional buttons** or **left analog stick**. Some formations are better for running plays, others are better for passing, and some are for special situations, like a field goal or punt. Press the **X button** to choose the selected formation.

Each formation has several plays associated with it — shown three at a time labeled with button icons (■, ●, and ⊗). You can scroll through all the available plays in a formation by using the **directional buttons** or the **left analog stick**. To select a play, press the **■ button**, **● button**, or **⊗ button**. Press the **▲ button** to go back to the Formations page.

Other Playbook controls include:

- Chuck's Pick: **L1 button**
- Flip the plays: **R1 button** (Offense Only)
- Sort plays by type or formation: **L2 button**

Offensive Playbook

The yellow and orange arrows represent the pass receivers in the play. The orange arrow represents the primary receiver. The button control for passing to a particular player is

shown at the base of each arrow. The blue arrow represents a run play and the exact route the running back will attempt to take.

Defensive Playbook

The white squares indicate the defensive linemen while the white circles indicate the linebackers, cornerbacks and safeties.

The orange circles represent the “zone” that a particular defensive player will cover and not leave during the play.

The red arrows represent a blitz assignment for a defensive player, which means they will rush the quarterback on a passing play and pursue the ball carrier on a running play.

The yellow lines represent man coverage for a defensive player, which means they will cover their assigned receiver anywhere on the field.

RUNNING A PLAY

Once you have chosen a play, your team will line up in the formation you have chosen. Press the **X button** to hike the ball. If you chose a pass play, use the **left stick** to move your quarterback and press the button (**■ button**, **● button** or **⊗ button**) that corresponds with the receiver to which you want to pass.

Press and hold the **L2 button** to switch to Run mode with your quarterback. This turns him into a ball carrier, changing the passing controls to run controls. Release the **L2 button** to revert to Pass mode.

If you chose a running play, your quarterback will automatically hand the ball off to your running back. While running, press and hold the **R1 button** to make your player sprint. Your runner can also make special moves like juke, dive and spin (see the chart on page 4 for a complete list of runner controls).

DEFENDING A PLAY

Once you have chosen a play, your team will line up in the formation you have chosen and you'll have control of one player. Before the offense hikes the ball, you can switch players with the **○ button** or **⊗ button** and move your player with the **left analog stick**. Once the offense hikes the ball, use the **left analog stick** to move your player and press and hold the **R1 button** to make your player sprint. Tackle ball carriers by pressing the **⊗ button** when you collide with them or you can attempt a dive tackle by pressing the **■ button**. Press the **○ button** to switch to the player closest to the ball. If the offense attempts a pass, press the **△ button** when the ball is within range to attempt to intercept the pass. ★★

KICK METER

When attempting a field goal or punt, a football-shaped meter will appear in the bottom-left corner of the screen. There is a yellow line that moves up and down across the meter. This line will continue to oscillate until you press the **⊗ button** to stop it. Stop the line in the middle for the strongest kick.

Taunt Kicker

Before each kick you have a limited amount of time to press a **directional buttons** combination. If you successfully press the combination, the opponent's kick meter will skip and potentially cause them to make a bad kick. A failed taunt attempt has no effect.

POWER MOVES

As you play well throughout the game, the power gauge will fill up. When it fills completely, you will receive a Power Move that you can execute on either offense or defense, depending on the Power Move you received.

OFFENSIVE POWER MOVES

POWER MOVE	DESCRIPTION
Flash	This sprint power move makes a player move at a high rate of speed for a brief duration.
Front Flip	The ball carrier does a front flip, which makes it impossible to tackle them if the timing is right.
Bull Charge	A super powerful shoulder charge.
Slow Mo	All other players on the field slow down for a brief duration while the ball carrier maintains their speed.
Twister	The ball carrier turns into a whirlwind for a brief time, knocking any defenders in a small radius off their feet.
Stun Arm	This stiff arm knocks down the nearest defenders who might be further from the ball carrier than normal.
Super Dive	This dive power move causes the player to dive a long distance. (Hint: This is good for scoring touchdowns)
Laser Beam Pass	The quarterback throws a high velocity pass that has a 100% chance of being completed.

DEFENSIVE POWER MOVES

POWER MOVE	DESCRIPTION
Big Crush	Knocks the ball carrier backward several feet.
Glue Ball	Prevents the quarterback from throwing a pass for a short time.
Homing Tackle	Allows the selected defender to automatically home in and tackle the ball carrier.
Homing Interception	The selected defender automatically intercepts a pass.
The Hammer	The defender tries to strip the ball from the ball carrier.
Grease Ball	Greatly increases the chance of fumbling the ball.

BACKYARD FOOTBALL LEAGUE RULES

Backyard Football '10 uses rules similar to those used by the National Football League. The objective of the game is to score the most points by advancing the ball into the opposing team's territory and crossing their goal line.

THE KICKOFF

The Away team always kicks the ball to the Home team to begin the first half of the game, and vice versa in the second half.

The kicking team kicks off from its 30-yard line. If the ball is kicked into the other team's end zone and not returned, a touchback is called and the opposing team automatically starts with the ball at the 20-yard line.

The team that has the ball (offensive team) has four chances or "downs" to advance the ball 10 yards. If they succeed, they are given four more downs.

If the offensive team fails to advance 10 yards after four downs, then possession is given to the opposing team at the spot of the ball. However, the offensive team may elect to a) kick a field goal or b) punt (kick) to the defensive team on the fourth down to get the ball as far away from their own goal as possible.

THE PLAYERS

Each team consists of seven players. These are the positions your team members may play on offense:

Center – This person hikes the ball to the quarterback at the beginning of each play.

Quarterback – The quarterback takes the snap from the center and then decides whether to throw it to a receiver, hand it to a running back, or take it down the field him or herself.

Tackle – A tackle's job is to protect the quarterback from being sacked on passing plays and block for the running back on running plays.

Running Back – Running backs are generally the fastest players on the team. Their job is to carry the ball down the field on running plays, avoiding the opposing team's defense.

Receiver – Receivers specialize in catching long passes from the quarterback, and then running to gain as many yards as possible.

TIME

The game is divided into four quarters and each quarter length is set between one and 15 minutes, depending on the settings you have

chosen. The game clock runs after every play except on incomplete passes and in the last two minutes of each half. Each team has three timeouts per half which will stop the game clock.

PASSING

An offensive player can only pass the ball from behind the line of scrimmage (where the ball was hiked) on passing plays. Only one forward pass is permitted per play. All forward passes that touch the ground are considered dead.

TURNOVERS

A turnover can happen in two situations:

Fumble – A fumble occurs when a receiver, running back or quarterback drops the ball while it's still in play. If this happens, the ball is considered "live" and either team can grab it. If the defensive team recovers the ball, it's considered a turnover.

Interception – An interception occurs when a pass made by the quarterback is caught by the other team.

SCORING

Touchdown – Touchdowns are worth 6 points. A team scores a touchdown by running across the opponent's goal line with the ball or catching the ball inside the opponent's end zone.

Point After Touchdown (PAT) – After scoring a touchdown, the team is given the opportunity to add one or two extra points, or "points after touchdown," from their opponent's 2 yard line. A PAT can be scored by kicking an extra point field goal for 1 point, or by running/passing the ball into the end zone for 2 points.

Field Goal – The offensive team can attempt to kick the ball through the goal posts from any point on the field. A successful field goal is worth 3 points. A missed field goal, if it lands in the field of play, can be returned by the defensive team like a punt.

Safety – One safety equals 2 points. Safeties are ruled when an offensive ball carrier is either tackled in his or her own end zone (the one at their end of the field) or if he or she fumbles the ball out of bounds from his or her own end zone. The defense is then awarded a safety, and the offense must kick the ball to the defense.

OVERTIME

If the score is tied at the end of regulation play, the game will go into "sudden death" overtime. Possession starts with the home team, and the first team to score wins the game.
