Warning:

Read Before Using Your PlayStation®2 Computer Entertainment System.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

Warning to Owners of Projection Televisions:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

Use of Unauthorized Product:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

Handling Your PlayStation 2 Format Disc:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON.

Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the CRASH 'N' BURN™ disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close.

Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

MEMORY CARD (8MB)(FOR PLAYSTATION®2)

To save your game data, insert a memory card (8MB)(for PlayStation®2) into MEMORY CARD slot 1 of your console. (This game supports MEMORY CARD slot 1 only.)

- The memory card must have at least 120KB of free space in order to save game data.
- This game uses an Autosave feature. Make sure a memory card is inserted at game startup. Inserting a memory card after startup may cause your data to be overwritten.
- If the memory card already contains saved CRASH 'N' BURN game data at startup, the save will be loaded automatically.

GAME CONTROLS

DUALSHOCK®2 ANALOG CONTROLLER CONFIGURATIONS

- Connect the DUALSHOCK®2 analog controller to controller port 1 before starting play.
- When the vibration function is ON, the controller vibrates in response to game events. You can turn the vibration function ON/OFF in the Options Mode.

SURVIVAL OF THE FASTEST!

Quick reactions are essential in racing games. Flick the wheel, slide around the corner, tap the brakes and keep a tight hold on the best line. CRASH 'N' BURN has the same principles - but you'll need even faster reactions to dodge a barrage of explosions, oil slicks, fuel dumps and wreckage.

CRASH 'N' BURN is about racing. But it's also about staying alive in the face of adversity. About keeping a cool head when all around are losing theirs. About dodging debris, escaping explosions and sliding wide through slick, thick oil spills...

Sound like fun? Thought so.

GETTING INTO THE GAME

PROFILES

CRASH 'N' BURN requires you to set up a profile in order to play. This is where all your game info is stored, including your garage full of cars, game settings and online profiles. You can have up to five profiles, each able to house up to 40 cars. Create a profile by selecting **CREATE PROFILE**, key in your name using the keypad provided, select **DONE** and boom - you're in the Home screen.

SAVING

CRASH 'N' BURN's Autosave feature relieves you from the pain of forgetting to save that vital victory

that clinched a championship. To save manually, select **SAVE GAME** on the Home screen.

HOME

This is the main screen for all your in-game info. Want to enter a championship? Tweak your engine, polish your rims? Buy upgrades, parts and paintwork? It all starts here...

You'll also find access to replays of all the tire shredding crashes you've survived and records of all the blistering lap times you've been laying down...

You can also adjust game options, save game progress, sign in to play online and roll the credits of all those who worked on this game.

RACE EVENTS

The Race Events option offers you championship events and the option to create your own events with the levels and modes you've unlocked.

You can play through the preset championships in order to build experience and progress through the game, or you can create custom events and deepen your experience by competing online. There are loads of different modes to play, both arena based and track based.

GARAGE

Selecting GARAGE rolls back the metal shutter on the area where you can enhance your vehicles.

When you begin the game, you'll find in the Garage a duo of shiny new cars, a compact and a pickup truck. You won't be able to buy anything for your vehicles just yet, as you haven't dived into the game and bagged yourself cash to spend in the shop. But you can begin to personalize your cars by running them through the Paint Shop.

Click on a car and opt to change its appearance. Scroll down to PAINT SHOP and tinker with the color scheme. You can change the color of the whole car or pick a different color for each component.

At the start of the game you'll also find some choice components in the Garage that you can use to make your car that much sweeter.

Once you collect money you can buy components from the Shop and come to the Garage to fit them on. New hoods, fenders, rims, spoilers and

much more are available. Selecting the component you want to change allows you to preview what it will look like on your machine. Like it? Keep it on there and let's go racing.

Assuming you've been to the Shop and purchased upgrades, the Garage is the place to go to install them. You can tweak the grip, top speed, acceleration and nitrous to ensure that your car is the most highly tuned ride on the circuit.

Build up enough experience points and you'll unlock faster cars. But keep saving cash, as you'll need even more funds to customize those rides to their most spectacular and outlandish incarnations...

SHOP

The Shop is where you pick up all your car components, performance enhancers and paintwork to tune your car into your own rocking ride.

Competing in events and building up experience unlocks new components that you can buy with the money you've gleaned from racing. There are six interchangeable parts to each car as well as loads of decals and patterns to collect.

Keep an eye on your cash. You won't want to run out of money right before a super spoiler gets unveiled.

GAME MODES

CRASH 'N' BURN has a full ticket of modes for you to play. But first, a quick word on Emergent Tracks.

The game has nine racing environments and four arenas waiting to be unlocked. You'll notice these start off fairly simple, straight ovals or basic figure eights, building up to more technical twisting circuits. But in reality, none of these circuits are simple.

Racing around, you'll soon see cars exploding, leaving wrecked shells on the track, firewalls ripping round blind corners and oil slicks slewed across your path. You'll also notice that the next time you play this track those things will crop up in completely different places - because the crashes all happen according to how you and your opponents drive.

This is what we call Emergent Track Design. What initially seems very simple becomes increasingly complex as the race goes on. Better remember where that oil slick is next time around or you'll find yourself slamming into the wall and losing that pole position you just grabbed...

RACING

Race around the circuits trying to hit pole position at the checkered flag. With 15 other cars to do battle with, it's cramped between the barriers. Keep out of the way of the other cars and watch out for wrecks that hide behind flaming walls...

KAMIKAZE

Banzai! Eight of you barrel around the circuit clockwise, while the other eight careen around counter-clockwise. With each car hitting speeds of over 150 mph, the results are, well, inevitable. Fast reactions required.

LAST MAN STANDING

Put 16 cars in an arena and watch them duke it out gladiator-style. Avoid taking hits as long as you can, then go in for the kill. The more cars you wreck without getting mashed, the more points you'll collect.

BOMB TAG

Drive around an arena trying to avoid whichever of the 16 cars has the bomb. If you collide, you get the bomb! Now you must pass it on before time's up or you'll be picking up the pieces. Outlive all the others, and you're the winner. Just to spice things up...choose how many bombs there are in each Bomb Tag event!

RUNNING MAN

There's you in the arena. And there are 15 other cars out to get you. Stay alive as the Running Man and scoop the points. A timer counts down remaining time. Be warned: if you take a knock from another car he becomes the Running Man and you'll have to grab that clock back.

'N' BURN

TEAM EVENTS

While the single player events focus on you defeating the other 15 opponents in the game, CRASH 'N' BURN also encourages drivers to work in teams. Find out if you can handle the pressure...

ASSASSINATION

For this event the 16 opponents are divided into two teams. One driver on each team is elected the King. Now the other team players have to kill the opposing King, at the same time making sure their King isn't left unguarded with 30 tons of metal bearing down on them...

TEAM RACE

Race around the tracks. The team that gets the most cars across the line and secures the highest number of finishing points takes the win.

TEAM LAST MAN STANDING

Instead of being one against many, battling it out vs 15 cars, you're in a team fighting a gang war against eight opposing cars. The last team to still have drivers cruising for action chalks up a win on the leaderboard.

TEAM KAMIKAZE

Much the same as Kamikaze mode, but instead of all players battling to take the checkered flag, the first team to get the most players across the finish line with the highest positions takes the trophy.

ONLINE PLAY

The online portion of this game is subject to the terms and conditions under the User Agreement located within the game. A full copy of the User Agreement is available at www.us.playstation.com/support/useragreements.

YOUR NETWORK CONFIGURATION FILE

CRASH 'N' BURN is compatible with Your Network Configuration file created with other PlayStation®2 online games.

- To play this game online, you need to have Your Network Configuration file saved to the memory card.
- You can use the Network Adaptor Start-Up Disc included with your network adaptor (for PlayStation®2) to set up your network connection. Refer to the instructions that came with your Network Adaptor Start-Up Disc.

SETTING UP

With the ability to compete against 16 other players, the online element of CRASH 'N' BURN is multiplayer mayhem. In order to play online, you'll need:

- Memory card (8MB) (for PlayStation®2)
- Network Adaptor (Ethernet) (for PlayStation®2)
- Broadband connection
- Network configuration set up using your Network Adaptor Start-Up Disc (see above)

SIGNING ON

Once you're set up to go online, select SIGN ON on the Home screen. You'll go to the Network Selection screen where you'll find a list of your network connections. Click on your preferred connection and wait briefly while your network is verified and you are logged in.

You'll then be asked if you want to use an existing GameSpy® account or create a new one. Select your response and fill in your nickname, email address and password (case sensitive) with the keypad provided. Press the **X** button to select a character and the **○** button to delete the last character entered. If you haven't set up a GameSpy account before, your nickname is the name by which you'll be known online.

'N' BURN

PLAY ONLINE

Once you've signed in, it's back to the Home screen. Select an event and **MULTIPLAYER** to begin. Available options are explained below.

HOST EVENT

Create and host a game online. You can select the type of game you'll play, the environment you'll race in and the standard of players you'll race against. Hosting an event takes you to the Lobby screen where other players can join you.

QUICK MATCH

Search for a game. The first game your console finds is the game you'll play. Or just sit back and watch. Selecting this option takes you to the Lobby screen.

SEARCH MATCH

Choose your preferred game mode in the environment of your choice and look for games that fit the bill.

SCOREBOARDS

Check out how you stack up against other people's best online times.

FRIENDS

CRASH 'N' BURN online allows you to add the people you play with online to your Friends List so you can hook up with them again when you come back to the game.

Through **FRIENDS** you can:

- **SEND INVITE TO FRIENDS** - Invite friends to join in a game.
- **JOIN GAME** - Accept invitations to join other games.
- **REMOVE FRIEND** - Kick 'em off your Friends List.

You can also use the Friends List to find out which of your friends are currently on and offline.

LOBBY OPTIONS

In the Lobby, you can change your cars, teams, and game options. You can also access the Player List to view and add players to your Friends List or mute players' voices.

If you are hosting a game, you can choose to kick players out and change the circuit you want to play.

VOICE COMM

Voice communication works in the Lobby instead of in-game. It may not work with certain networks - a firewall or NAT device may prevent incoming comms from reaching your console.

TROUBLESHOOTING

FIREWALLS

In order to join or host a CRASH 'N' BURN game from behind a router with NAT (Network Address Translation), or firewall, you may need to enable **PORT FORWARDING**. You will need to route, or forward, all data on port UDP 9103 to the IP address assigned to your PlayStation 2 console.

NOTE: Users using DHCP must ensure that their PlayStation 2 console is always assigned the IP address specified in the **PORT FORWARDING** setup; under these circumstances you may need to change your PlayStation 2 from **AUTO DETECT (DHCP)** to a **STATIC IP** address using the Network Adaptor Start-Up Disc to ensure that forwarded data always gets to your PlayStation 2 console.

If you are still having trouble connecting to other players, try bypassing the router or firewall by connecting your PlayStation 2 console directly to your DSL modem, cable modem, or other broadband device.

STATUS

You can check the status of the game servers and read news about CRASH 'N' BURN by visiting www.eidos.com.

USB HEADSET

During gameplay, if your USB headset is plugged into your PlayStation 2 console but you are not able to chat with your opponent:

- Your opponent may not have a USB headset connected to the PlayStation 2 console.
- You and your opponent may have a low quality connection to each other.
