⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
 - Avoid large screen televisions. Use the smallest television screen available.
 - Avoid prolonged use of the PlayStation®2 system. Take a 15-minute break during each hour of play.
 - Avoid playing when you are tired or need sleep.
-

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

PAUSE MENU

Pause Screen – Displays race type, objective and condition of current race.

Continue – Resume the race.

Restart – Quit the current race and restart.

Exit – Quit race and exit to the race result menu.

DRIVING

Basic Control

Use left analog stick or directional button to steer the car. Use X button to accelerate and Δ button to brake. Use O button to boost.

Drift

In order to drift, release the acceleration and turn sharply in the direction you wish to drift in. Reverse the direction and stabilize the car to complete drifting.

BOOST SYSTEM

There are two types of boost.

The available boost depends on the type of car.

Boosting time and boost fuel quantity is limited.

Standard Boost

Standard boost increases acceleration.

Drift Boost

Drift boost increases acceleration while drifting.

Drift boost consumes more fuel compared to standard boost. The type of boost may be used outside drifting; however the boosting power is reduced.

ITEMS & SKILLS

Items and skills are used to destroy or interfere with opponents.

Skill

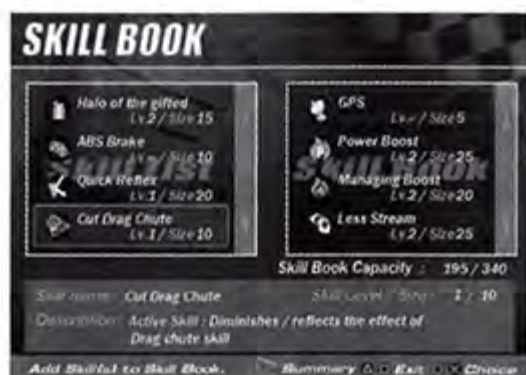

Skills are special abilities the character can use. Skills provide positive effects for the player and negative effects for their opponents.

Skills cost "Skill Energy."

In order to use skills they must be placed in the Skill Book before the race.

There must be enough space in the skill book to equip a skill. The maximum space the skill book has is called "Skill Capacity." The space a skill occupies is "Skill Size."

The total number of the skill sizes equipped in the skill book can't exceed the maximum skill capacity.

Items

Items are obtained by passing through an "Item Gate" located throughout the courses.

According to the type of Item, it can be used to inflict damage or interfere with opponents.

How to use Skills & Items

First, select a skill or item you want to use by pressing L2 button or R2 button. Then press R1 button to use it.

If the skill/item needs a target and you fail to acquire a target, then you can't use it. (If no target is acquired, the item/skill is deactivated and displayed in grey).

Targeting

Basically, if a target is ahead of the player's car and within targeting range, the target is automatically obtained. Some skills and items can be used without a target.

Items which attack from behind don't need targeting. There's a rear target indicator which displays how close a car is behind you. This indicator provides support to plan your attack.

RETIRE FROM THE RACE

A car is retired from the race when it fails to move.

Destroyed – If a car's HP drops to "0" by being attacked or colliding with other cars or objects, the car explodes and can no longer move.

Flipped – If a car is flipped on its top and remains in that condition for a short duration it's retired from the race.
