INFOGRAMES™

WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – **IMMEDIATELY** discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

Set up your PlayStation®2 computer entertainment system according to the instructions in its instruction manual. Make sure the MAIN POWER switch (located on the back of the console) is turned on. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the Dragon Ball Z® Budokai™ disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

Insert a memory card (8MB) (for PlayStation®2) in MEMORY CARD slot 1 if you wish to load a saved game, create a new game or save a game. Dragon Ball Z® Budokai™ requires 45KB of free space to save your progress in the game.

If you insert an unformatted memory card after the initial memory card check, you can still format the memory card by selecting Options from the Main Menu. Select Save/Load, then select Save Game Data.

To copy a saved game from one memory card to another, you must use the PlayStation®2 Browser, which you can access by removing the game disc from the disc tray and pressing the RESET button. Place the memory card that you want to copy saved game data from in one MEMORY CARD slot, and place the memory card that you want to copy data to in the other MEMORY CARD slot.

Select Browser and press the **X** button, then select the memory card with saved game data on it and press the **X** button. Select the Dragon Ball Z® Budokai™ saved game and press the **X** button, then select Copy and press the **X** button to copy the saved game data.

CONTROLS

DUALSHOCK®2 analog controller

MENU CONTROLS

directional buttons / left analog stick: Highlight a menu item / change the settings

X button: Select menu item

▲ button: Cancel

START button: Skip movie

BATTLE CONTROLS

directional buttons / left analog stick: Move character

X button: Guard

▲ button: Kick

● button: Ki Blast Wave

■ button: Punch

R1 button: Punch + Kick (simultaneous)

R2 button: Punch + Guard (simultaneous)

L1 button: Not used

L2 button: Not used

START button: Pause menu

Note: You may customize any battle command button in the Options menu, including the L1 button and L2 button, which are blank by default. See "Options" on page 7.

ADVANCED CONTROLS

You can do some very impressive moves by combining basic punches, kicks, blocks and movements. Learn the special combos in order to become a stronger, more able warrior.

Advanced Kick / Punch: If you press the left or right directional buttons toward or away from your opponent while pressing Punch (■ button) or Kick (▲ button), you will unleash a new, more powerful attack. You can even tie combination attacks together.

Gather Ki: Press and hold Guard (✖ button) and double-tap and hold the left or right directional button (away from your opponent) to generate Ki. You also generate Ki by landing attacks on your opponent.

Deflect / Return: If you press Guard (✖ button) right before you are hit by a Ki Blast Wave, you can deflect it aside. If you time it just right, you can deflect it right back at your opponent!

Dodge: Tap Guard (✖ button) plus the up or down directional button to move in a circle around your opponent. This is especially helpful for getting away from the edge of the ring.

MASTER ROSHI® SAYS

Take control of the situation.

Battles take place at such lightning speeds, that a single missed button can sometimes cause your demise. I recommend customizing the controls right away to suit your fighting style. (See "Options" on page 7.)

Dash: Double-tap the left or right directional button (toward your opponent) to dash toward him at increased speed.

Transform: You can increase your strength (for example, Goku® can transform into Super Saiyan) by pressing Punch (■ button), Kick (▲ button) and Guard (✖ button) all at the same time, once you've met the skill conditions. You can customize your controller so that you can perform this move with a single button (see "Options" on page 7).

Grapple: Press Punch (■ button) and Guard (✖ button) at the same time to grapple your opponent. Every normal character has a special move tied in with this command.

Energy Punch: Press Punch (■ button) and Kick (▲ button) at the same time to unleash an unblockable Energy Punch. The longer you hold down the buttons, the stronger your punch will be (up to a point). Press the left or right directional button at the same time for Energy Punch variations.

HERCULE™ STRATEGY TIP

Think Fast!

When things go just right in a battle, and both fighters simultaneously connect with an Energy Punch, you enter the Burst Zone. You will know you are there by the speed at which both warriors are attacking and blocking. Spin the left analog stick as quickly as you can. If you are fastest, you will deliver a powerful knock-back attack on your opponent upon exiting the Burst Zone.

Power Kick: Press Kick (▲ button) and Guard (× button) simultaneously to perform a powerful kick combination. This move varies according to the character you are using. With some characters, you can press the left or right directional button at the same time for additional Power Kick variations.

Taunt: Press all four battle buttons (■ + ▲ + ● + ×) simultaneously to give your opponent a little something extra to think about, and possibly cause him to jump backwards.

SAVING AND LOADING

Once you start a new game, all progress — including unlocked story chapters and skills — is saved automatically. You must have a memory card (8MB) (for PlayStation®2) with 45KB of free space in MEMORY CARD slot 1 in order to start a new game. **Note:** You can only save one game per memory card. If you have a memory card in MEMORY CARD slot 1 and you select New Game, the old game data will be overwritten.

Note: You cannot save your game progress onto a newly inserted memory card if you remove the original memory card from the console.

You can save your current progress to a memory card in MEMORY CARD slot 1 by selecting Options at the Main Menu, then selecting Save / Load, and then selecting Save Game Data.

To load a saved game, select Load Game at the Load Game / New Game screen, which is displayed after the game starts, and between story chapters. You can also load a previously saved game by selecting Options at the Main Menu, then selecting Save / Load, and then selecting Load Game Data. You must have a memory card with a saved game in MEMORY CARD slot 1 to load a previously saved game.

WELCOME TO DRAGON BALL Z® BUDOKAI™!

Enter Dragon Ball Z® Budokai™ — a spectacular 3D world filled with the fiercest fighters the universe has ever known. Test your skills against the most powerful Dragon Ball Z® heroes and the most sinister villains. Every battle is more intense, more dangerous, and more epic than the one before. Will you be the last warrior standing?

MAIN MENU

After you press the START button at the Title Screen you can start a new game or load a previously saved game. (See "Saving and Loading" on page 5.) You must have a memory card (8MB) (for PlayStation®2) with 45KB of free space in MEMORY CARD slot 1 in order to save your progress. **Warning:** If you start a new game using a memory card that contains a previously saved game, that game data will be erased.

You will then be taken to the Main Menu. Use the directional buttons or left analog stick to highlight an option (listed below), and then press the **X** button to select it.

STORY

Play out the story of Dragon Ball Z®. (See "Story" on page 10.)

DUEL

Choose a fighter — standard or customized — and battle against your friends or a computer (AI) opponent. (See "Duel" on page 11.)

WORLD TOURNAMENT

Select a warrior — standard or customized — and battle to become the champion. If you are the winner or runner-up you will win prize money, which you can spend on new skill capsules! (See "World Tournament" on page 13.)

PRACTICE

Use a character — standard or customized — to practice your fighting moves against a customizable computer opponent. (See "Practice" on page 15)

EDIT SKILLS

After you unlock skills in Story mode, you can use them to customize characters. You can also buy skill capsules using any cash you have won in World Tournament mode. (See "Edit Skills" on page 17.)

OPTIONS

Change a number of game settings, including opponent strength, controller configuration and more. (See "Options" below.)

HERCULE™ STRATEGY TIP

You won't believe this!

I REALLY shouldn't spill the beans here, but this is so cool that I must tell someone! Once you win the World Tournament in Adept level, bring your prize winnings to Mr. Popo's™ Skill Shop and check out his Recommended capsule offerings. There should be a few new things for sale, including a seventh Dragon Ball® for the Main Menu. You didn't think we forgot to count, did you?!

OPTIONS

Choose Options from the Main Menu to adjust various game settings. Use the up and down directional buttons to select an option. Press the **X** button to go to that option sub-menu.

GAME OPTIONS

Game Difficulty: Set the game difficulty, from Very Easy to Very Hard. This determines the difficulty in Story mode.

Com Level: Set the strength of your computer opponents, from Very Weak to Very Strong. This determines how well computer-controlled characters attack and block.

Duel Time: Set the length of duels, from 30 seconds to no time limit.

Quick Start: Turn ON to shorten the World Tournament introductions.

SAVE / LOAD

Save Game Data: Save your current game progress to a memory card in MEMORY CARD slot 1.

Load Game Data: Load a previously saved game from a memory card in MEMORY CARD slot 1.

CONTROLLER CONFIGURATION

Customize the controller by configuring commands your favorite way. First, using the controller that you want to customize, press the left or right directional button to choose one of two preset configurations (A or B), or customize your own buttons (Cust.).

To set a custom configuration, highlight Cust., then press any controller button (except the directional buttons). While holding that button down, use the left and right directional buttons to scroll between different moves. For example, you can assign the command Kick + Punch + Guard (transform, for many characters) to the R2 button by holding down the R2 button and then pressing the directional buttons until the "P + K + G" symbol is displayed.

Use the down directional button to select Vibration, and use the left or right directional button to toggle vibration ON / OFF. Press the SELECT button to reset controls to default. Press the START button to save your settings and return to the Options menu.

SCREEN SETTINGS

Brightness Control: Press the ✖ button to go to the Brightness Control screen. Use the left or right directional button to adjust the monitor brightness.

Screen Adjust: Press the ✖ button to go to the Screen Adjust screen. Press and hold the ▲ button and use the directional buttons to move the top information panel. Press and hold the ✖ button and use the directional buttons to adjust the positioning of the entire screen. Press and hold the ■ button and use the directional buttons to move the lower left (P1) information panel. Press and hold the ● button and use the directional buttons to move the lower right (P2) information panel. Press the SELECT button to reset to defaults. Press the START button to save your changes and return to the Options menu.

SOUND SETTINGS

Speaker: Press the left or right directional button to switch between Stereo and Mono.

Music Volume: Press the left or right directional button to adjust the music volume.

Voice / SFX Volume: Press the left or right directional button to adjust the volume of the in-game voices and sound effects.

THE BATTLE SCREEN

Most of Dragon Ball Z® Budokai™ takes place on the battlefield. The following information is displayed on screen during a fight:

WINS (DUEL MODE ONLY)

This shows the number of duels a character has won since you entered Duel Mode from the Main Menu.

HEALTH GAUGE

This is the character's current health. As a character suffers damage, the gauge will turn from green to yellow to orange, and then red. When the red bar disappears, that character is knocked out (K.O.) and loses the battle.

KI GAUGE

This gauge builds up as you successfully land punches, kicks and special attacks on opponents. You can also build up Ki by pressing and holding Guard and double-tapping the left or right directional button (away from your opponent). Using some special attacks and Ki Blast Waves depletes your Ki supply. Blocking and using certain skills can also drain your Ki.

CAPSULES

These are the skills that the character possesses. You can select skills from the Edit Skills screen (see page 17).

TIME

This is the battle's time limit. When the time reaches zero the battle will end, and the character with the most health wins. You can modify the time limit for Duel and World Tournament battles in Game Options (see page 7).

STORY

When you select *Story* from the Main Menu, the game will begin, and you will become a participant as the *Dragon Ball Z*® story unfolds — from the arrival of *Raditz*™ on Earth on through the infamous and brutal *Cell*™ Games. As the story progresses, you must win battles to unlock new chapters, skills and characters.

HERCULE™ STRATEGY TIP

Be prepared!

An event occurs in each chapter. These events include battles where you must defeat enemies, or perform a difficult task. Be sure to read the advice that appears before entering each battle!

No battle's too hard for me. What about you?

The story is broken into three main sagas:

SAIYAN SAGA

Goku® has finally defeated *Piccolo*™ at the World Match. After this hard-fought battle, he returns to the Kame House to be reunited with his friends and to introduce them to his son *Gohan*®. Just as *Goku*® thinks that he can settle down with his family and live in peace, a mysterious alien calling himself *Raditz*™ appears, claiming to be *Goku*'s® elder brother. *Raditz*™ defeats *Goku*® with his incredible power and then kidnaps *Gohan*®. *Goku*® vows to find the alien and set things straight.

NAMEKIAN SAGA

Goku® and his friends have managed to stop *Vegeta*'s® invasion. *Krillin*® heads off to Planet Namek in place of the injured *Goku*®, in order to use the *Namek Dragon Balls*™ to bring back his friends. In the meantime, *Goku*® eats a *Senzu Bean* and recovers from his injuries. He then boards a spaceship that *Bulma*'s™ father built for him and heads for Planet Namek, where *Krillin*® and *Gohan*® await. Can you stop the invasion of Namek and prevent *Frieza*® from taking over the universe?

ANDROID SAGA

Trunks® claims to have come from the future, and states, "Goku® will die of heart disease one year from now, and in three years androids will appear and destroy the earth." He gives Goku® some heart medicine and returns to the future. Three years later, the androids appear just as Trunks® predicted, and proceed to destroy everything in sight. But the worst is yet to come.

Your progress is saved after each chapter. After you complete a saga, you are returned to the Load Game / New Game screen. Select New Game to start a new game. Select Load Game to load a saved game from a memory card in MEMORY CARD slot 1. Select Continue to return to the Main Menu. At the Main Menu you can select Story again to continue with the next chapter.

MASTER ROSHI® SAYS

There are (at least) two sides to every story...

I really shouldn't need to tell you this, but just because it seems to end, doesn't mean it's over. With persistence you can uncover hidden secrets and elements and become the ultimate warrior.

DUEL

Select your favorite character and go head-to-head against your rival on any battle stage. The best part about Duel mode is that you can face off against your friends! (It's also fun to watch two computer opponents battle it out!) Select Duel mode from the Main Menu, then choose one of the following:

1P vs. 2P – Human vs. Human: Each player must use a separate controller.

1P vs. Com – Human vs. Computer: Human player must use the controller plugged into controller port 1.

Com vs. 2P – Human vs. Computer: Human player must use the controller plugged into controller port 2.

Com vs. Com – Computer vs. Computer: Select two fighters and watch them battle it out.

CHARACTER SELECTION

Next, use the directional buttons to highlight a character portrait and then press the **X** button to choose that character. Choose Random to let the game choose a character for you.

After you select a character, use the up or down directional button to toggle between Normal and Custom. Choose Normal to use the standard character. Choose Custom to use a character that you have created using the Edit Skills feature (see "Edit Skills" on page 17). Press the **X** button to confirm your character selection.

Note: If you select a character by pressing the **O** button or the **□** button, that character will wear an alternate costume in battle.

If you are dueling against a computer opponent, choose the computer-controlled character you wish to fight and press the **X** button to proceed to the Stage Selection screen. If you are dueling against a human opponent, you will proceed to the Stage Selection screen after each player has chosen a character.

At the Stage Selection screen, use the left or right directional button to highlight a stage. Press the **X** button to select the stage you wish to fight

on and proceed to the Battle screen. You can use the up or down directional button to select Random, and the game will choose a stage for you.

DUEL PAUSE MENU

Press the START button while in Duel mode to display the Pause Menu. Your choices are:

Continue Battle – Close the Pause Menu and return to the duel in progress. Pressing the START button or the **▲** button will also Continue Battle.

Refer to Skills – Display a list of your character's attack and transformation skills, and the button combinations required to perform these skills.

Reselect Character – Return to the Character Selection screen.

Main Menu – Return to the Main Menu.

Note: You cannot Refer to Skills during a Com vs. Com duel.

WORLD TOURNAMENT

Select World Tournament from the Main Menu to enter a 3-, 4- or 5-round competition against the finest collection of Dragon Ball Z® warriors. Winning a World Tournament, or coming in second place, will earn you money (Zeni), which you can use to buy capsules in Mr. Popo's™ Skill Shop (see "Edit Skills" on page 17).

HERCULE™ STRATEGY TIP

Observe your opponent before a battle.

Want to see what you're up against before you enter the ring at the World Tournament? Go to Options > Game Options and turn Com Level up to Very Strong. Then go to Duel mode and select Com vs. Com. Pick two opponents and watch how they deal with each other.

You can even choose one of your custom characters as a Com competitor, and see how well it performs at high levels.

If you're really tough — like I am! — you won't go back to Options and lower the Com Level after you're done!

There are three World Tournament levels:

Novice — The Novice tournament consists of three battles, and is perfect for getting used to the game. First-place prize money is 10,000 Zeni. 5,000 Zeni is awarded to the runner-up.

Adept — There are four battles in an Adept tournament, and your opponents are stronger and more fierce than in a Novice tournament. First-place prize money is 30,000 Zeni, and the runner-up takes home 15,000.

Advanced — You'll have to fight with everything you've got in this five-battle tourney. Here you'll face the strongest, most advanced fighters — all determined to toss you off the stage. First-place prize money is 50,000 Zeni, and the runner-up gets 25,000.

Note: You must unlock the Adept and Advanced levels by completing the story, winning the previous tournament, and purchasing the proper capsule from Mr. Popo™.

武

道

会

WORLD TOURNAMENT RULES

To play World Tournament, choose it from the Main Menu, then use the left or right directional button to select a tournament level (locked levels will not be available). Then, choose a character just like you would in Duel mode (see page 12).

A tournament tree displays upcoming matches. After you see who your next opponent is, press the **X** button to proceed to the ring. The tournament is played elimination-style, so losing one fight means you're out. If you win, you move up the tournament tree. Battles continue until a fighter is K.O.'d or thrown out of the ring.

HERCULE™ STRATEGY TIP

Use the out-of-bounds area to your advantage!

Even though I'm an active player in the World Tournament, let me pull you aside and give you some secret advice on how to win. Trying to K.O. your opponent is not necessarily the best road to victory. What you can do is force your opponent to the edge of the ring and then dish out a final knock-back blow that will send your opponent flying out of the ring. (The best moves depend on the character you're using.) But, you need to be careful that you don't end up being the one thrown out!

(Not that I have to worry about that!)

WORLD TOURNAMENT PAUSE MENU

Press the **START** button during a World Tournament battle to display the Pause Menu. Your choices are:

Continue Battle – Close the Pause menu and return to the fight. Pressing the **START** button or the **▲** button will also Continue Battle.

Refer to Skills – Display a list of your character's attack and transformation skills, and the button combinations required to perform these skills.

Main Menu – Return to the Main Menu.

MASTER ROSHI® SAYS

Money is just part of the reward for a true champion.

Besides prize money, there are other things to gain from winning a World Tournament. I can make no promises — but you would be wise to check Mr. Popo's™ Skill Shop and re-examine the character roster after you have proven yourself worthy in a World Tournament.

PRACTICE

Here you can battle to your heart's content with the character of your choice, with no worries about Ring-Outs, K.O.s, or, if you so choose, even opponents who fight back. Select a normal or a custom character for yourself (see "Character Selection" on page 12), a computer opponent and a stage, then you're ready to go.

SCREEN DISPLAY

The on-screen display in Practice mode contains a few extra lines of information to help you gauge your most effective attacks and refine your fighting strategies:

Max Hits – Displays the maximum number of successive hits you made in a single attack.

Damage – Displays the damage of the last single attack. (This number only remains on screen briefly.)

Total Damage – Displays the damage of your last combination or special attack. (This number only remains on screen briefly.)

Max Damage – Displays the highest amount of damage you have dealt so far in a combination or special attack.

Attack – Displays the current Attack rating. This rating can be affected by creating a custom character using certain capsules, such as Rage.

Guard – Displays the current Guard rating. This rate can be affected by creating a custom character using certain capsules, such as Old-Style Armor.

PRACTICE PAUSE MENU

At the Battle screen, press the START button to display the Pause Menu. Use the up and down directional buttons to highlight any of the following options:

Continue – Close the Pause Menu and return to the Battle screen. Pressing the START button or the ▲ button will also return you to the Battle screen.

Com Action – Use the left and right directional buttons to set how the computer opponent reacts. Choose Do Nothing to make the opponent simply stand there and take a beating. Choose Guard 1 to make the opponent block everything but unblockable attacks. Guard 2 makes your opponent guard most attacks. Match makes the opponent fight back, as if you were in a regular duel.

Com Level – If you choose Match in Com Action, you can use the left or right directional button to set the opponent's fighting level to Very Weak, Weak, Average, Strong or Very Strong.

Defend Ki Blast Wave – If you choose Do Nothing, Guard 1 or Guard 2 in the Com Action setting, you can use the left or right directional button to set whether the computer opponent will Do Nothing, Deflect, or Deflect Back any Ki Blast Waves thrown at it.

Counterattack – If you choose Do Nothing, Guard 1 or Guard 2 in the Com Action setting, you can use the left or right directional button to turn Counterattack ON or OFF. When Counterattack is ON, an on-screen indicator will display the word "Counter," letting you know that you've broken through your opponent's defenses and can now land combination moves or special attacks.

Break-fall – Use the left or right directional button to turn Break-fall ON or OFF. When Break-fall is ON, your opponent cannot be knocked down.

Display – Use the left or right directional button to change the on-screen display. Nothing shows no extra on-screen information. Status displays data about your attacks and your opponent's attacks. Command displays on-screen button combinations for each character's attacks. Status and Command displays both Status and Command information on screen.

HERCULE™ STRATEGY TIP

Remember the commands!

For those of you who can't remember all the commands, today is your lucky day. The secret to success is to go to Practice Mode and watch the Commands on-screen (see "Practice Pause Menu" on page 15). That way, the commands for the skills you want to learn will be shown on the screen!

Reset Position – Start the practice session over from the initial position and Ki levels.

Skill List – Press the ✖ button to display the list of skills that require button combinations. Use the up or down directional button to highlight a skill and press the ✖ button to practice that skill. This will show the proper button combination in the Commands bar on screen. When you successfully press the proper button combination, "O.K." will appear on screen, and then the skill will take effect.

Character Select – Return to the Practice mode Character Selection screen.

Return to Main Menu – Exit Practice mode and return to the Main Menu.

EDIT SKILLS

Here you can customize characters, buy skills, view your collection of acquired skills and Dragon Balls®, and trade skills between memory cards. **Note:** You must have a memory card in MEMORY CARD slot 1 in order to purchase or organize skills.

Select Edit Skills from the Main Menu. At the first screen, use the left and right directional buttons to edit skills for characters on a memory card in MEMORYCARD slot 1, MEMORYCARD slot 2, or trade skills between two memory cards. Then, press the **X** button to continue.

MASTER ROSHI® SAYS

The educated fighter has the edge.

If you are just starting out, you might be slightly confused about how skills work. If so, my advice is to take time to read the About Skills section of Edit Skills. (This section automatically opens up the first time you enter the Edit Skills area.) Use the left and right directional buttons to page through information about the E.S.S. (Exciting Skills System) and hints about how to use skills.

SKILLS LIST

Select Skills List to view the skills you have unlocked or purchased. The Skills List is sorted into six categories:

Saiyan – These include those warriors with Saiyan blood, such as Goku®, Gohan® and Vegeta®

Human – Few humans are powerful enough to hold their own in the Dragon Ball Z® battlefields. You'll find them here.

Alien – Characters like Piccolo™, Frieza® and Dodoria™ are definitely from somewhere other than Earth.

Android – The evil science genius Dr. Gero™ is responsible for this band of troublemakers.

Dragon Ball® – As you collect capsules, you might be lucky enough to stumble across a Dragon Ball®. When you've collected all seven, return here to collect your prize.

System – These capsules include all of the characters and tournament levels that you have unlocked.

Use the left or right directional button to move between categories. Press the **X** button to select a category. If the category contains characters, then use the up and down directional buttons to highlight a character, and press the **X** button to examine that character's skills. Use the directional buttons to highlight a skill, and press the **□** button to get more detail about a skill. Press the **▲** button to go back one step.

WHAT IS A SKILL?

Skills refer to the special abilities that each character possesses. Skills are found in capsules and can be obtained by finishing a Story chapter or by buying them at Mr. Popo's™ Skill Shop.

There are three types of skills: Special Skills, Physical Skills and Support Skills. Be sure to get a good handle on what each of these types of skills does!

Special Skills: These are found in red capsules and include transformation and death-moves.

Physical Skills: These are found in blue capsules and include successive attack and throwing skills.

Support Skills: These are found in green capsules and include armor, medicines and other supplemental fighting aids.

READING THE SKILL SHEET

The Skill Sheet of a capsule contains information that is useful when deciding how to customize your ultimate warriors.

Rarity – The color bar at the top of the Skill Sheet indicates how rare a capsule is. Basic blue is a common skill, blue with silver is uncommon, blue with gold is rare, and all-gold is ultra-rare.

Skill Name – The name of the skill.

Effects – The skill's effects.

Usage – The conditions required to activate the skill.

SKILL ICONS

Can Increase – Skill increases when set repeatedly. Each successive use of that skill will be more powerful, up to a limit of three.

Can Trade – Indicates that you can trade this skill with other players.

Cannot Trade – Indicates that you cannot trade this skill with other players.

Use Once Only – This skill can only be used once per battle.

Number of Slots – Indicates the number of slots this skill occupies in the Custom Tray (see "Customizing Characters" on the next page).

MASTER ROSHI® SAYS

1 + 1 + 1 = "Ouch!"

When customizing a character, you can use multiple instances (up to three) of certain skill capsules to increase the overall damage. For example, you can give Goku® three Kamehameha skill capsules and, with each successive use of the skill, the damage from that attack will increase dramatically. Look for the "Can Increase" icon on the Skill Sheet to see if you can multiply a skill.

CUSTOMIZING CHARACTERS

Skills come in the form of capsules, which you can use to customize characters. To do this, select Change Caps while in Edit Skills. Then, use the left and right directional buttons to browse available characters. Press the ✕ button to edit a character.

When you first edit a character, that character's Custom Tray will be empty. There are seven empty slots — skills occupy from one to four slots. Some skills require a prerequisite skill before you can use them. For example, in order to add the Kai Fist x10 skill to Goku®, you must already have added Kai Fist x2 and Kai Fist x5.

Press the ✕ button with an empty slot highlighted to add a skill to that slot. This will bring up a window displaying skill capsules that character can use. Use the directional buttons to highlight a capsule. Press the ■ button to show more details about that capsule. Press the ✕ button to add that capsule and return to the Custom Tray. Press the ▲ button to return to the Custom Tray without adding a skill.

To remove a skill from the Custom Tray, use the up and down directional buttons to highlight that skill and then press the ● button. Press the ▲ button when you are finished editing a character. Use the left and right directional buttons to select another character, or press the ▲ button to return to the Edit Skills Menu.

SKILL SHOP

At the Skill Shop, you can purchase many kinds of capsules, sorted into five categories. Each capsule contains one skill.

Special Capsules – These contain transformation and death-moves. These skills are sold at random and have a fixed price of 2,000 Zenie.

Physical Capsules – These contain successive attack and throwing skills. These skills are sold at random and have a fixed price of 2,000 Zenie.

Support Capsules – These are skills that include armor, medicines and other supplemental fighting aids. These skills are sold at random and have a fixed price of 2,000 Zenie.

Gamble Capsules – What comes out is anybody's guess! These skills, obviously, are sold at random, and have a fixed price of 3,000 Zenie.

Recommended Capsules – These are Mr. Popo's™ Recommended capsules and are sold at various prices, depending on rarity. Press the ■ button to display the Skill Sheet for that capsule. The word "New" will appear if you don't yet have that particular skill.

MASTER ROSHI® SAYS

It pays to shop around.

Here's a bit of advice. The Recommended capsules change once you leave Mr. Popo's™ shop. If you don't like what he's selling, leave and come back. Good luck in finding the capsules you're after!

TRADING SKILLS

You can trade skill capsules between two memory cards, each with Dragon Ball Z® Budokai™ game data saved on it. Select Edit Skills at the Main menu, then choose the Trade Skills icon and press the ✖ button to go to the Trading screen.

Use the up and down directional buttons to select a memory card, then press the ✖ button. Choose up to four skills you want to trade from the Skill Case, and then press the ▲ button. Select the other memory card, and choose skills to trade from that card. When you are ready to trade, press the START button. You cannot trade skills that your opponent already has. **Note:** Once you trade a skill capsule, it disappears from your memory card.

TECHNICAL SUPPORT (UNITED STATES & CANADA)

Help Via the Internet

Up-to-the-minute technical information about Infogrames, Inc. products is generally available 24 hours a day, 7 days a week via the Internet at:

<http://www.ina-support.com>

Through this site you'll have access to our **FAQ** (Frequently Asked Questions) documents, our **Hints/Cheat Codes** if they're available, and an E-Mail area where you can get help and ask questions if you do not find your answers within the **FAQ**.

Note: In the event we must send you a Hint Sheet, FAQ document, patch or update disc via E-mail, we may require verifiable consent from a parent or guardian in order to protect children's privacy and safety online. Parental Consent Forms are available at the web site listed above.

Help Via Telephone/Fax or Mail in the United States & Canada

For phone assistance, call Infogrames, Inc. **Tech Support** at **(425) 951-7110**. Our **Interactive Voice Response** and **Faxback** system is generally available 24/7, providing automated support and allowing FAQ documents to be faxed to you immediately.

This console-based product will have automated support which will include information such as gameplay tips, information on Control Keys, possible Cheat Code combination keys, and instructions for finding secret screens and/or additional game levels (if these type items exist and are made available for this particular product).

Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's **Tech Support Access Number** when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's **Tech Support Access Number is 22710**. When prompted by the Automated System, enter the product's Tech Support Access Number.

Live support is generally available Monday through Friday, 8:00 a.m. until 6:00 p.m. (Pacific Time). **Note:** We may be closed on major holidays.

You may also fax your Technical Support questions or problems to: **(425) 806-0480**, or write to the address below.

Product Return Procedures in the United States & Canada

In the event our technicians at (425) 951-7110 determine that you need to forward materials directly to us, please include a brief letter explaining what is enclosed and why. Make sure you include the Return Merchandise Authorization Number (RMA#) supplied to you by the technician, and your telephone number in case we need to call you. Any materials not containing this RMA# will be returned to you unprocessed. Send your materials to the following address:

Infogrames, Inc.
Attn: TS/CS Dept.
13110 NE 177th Place
Suite # B101, Box 180
Woodinville, WA 98072-9965
RMA#:

Warranty Policy in the United States & Canada

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), Infogrames, Inc. will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging. If you do not have the original receipt, or if the warranty period has expired, Infogrames, Inc. will replace the product storage medium for a nominal fee.

NOTES

LICENSE AGREEMENT

INFOGRAMES, INC. ("INFOGRAMES") IS WILLING TO LICENSE THE GAME CONTAINED ON THIS DISC OR CARTRIDGE AND ANY ACCOMPANYING DOCUMENTATION TO YOU ONLY ON THE CONDITION THAT YOU ACCEPT ALL OF THE TERMS IN THIS AGREEMENT.

IF YOU DO NOT AGREE TO THESE TERMS, DO NOT USE THE SOFTWARE AND PROMPTLY RETURN THE DISC OR CARTRIDGE IN ITS ORIGINAL PACKAGING TO THE PLACE OF PURCHASE.

1. Grant of License. The software accompanying this license and related documentation (the "Software") is licensed to you, not sold, by Infogrames, and its use is subject to this license. Infogrames grants to you a limited, personal, non-exclusive right to use the Software in the manner described in the user documentation. If the Software is configured for loading onto a hard drive, you may load the Software only onto the hard drive of a single machine and run the Software from only that hard drive. You may permanently transfer all rights Infogrames grants to you in this license, provided you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials, and any upgrades), and the recipient reads and accepts this license. Infogrames reserves all rights not expressly granted to you by this Agreement.

2. Restrictions. Infogrames or its suppliers own the title, copyright, and other intellectual property rights in the Software. The Software contains copyrighted material, trade secrets and other proprietary material. You may not delete the copyright notices or any other proprietary legends on the original copy of the Software. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software. You may not copy, rent, lease, sublicense or distribute the Software. You may not electronically transmit the Software from one computer, console or other platform to another or over a network. Any attempt to transfer any of the rights, duties or obligations hereunder is void. Infogrames may, in its sole discretion, offer technical support for the Software for a period not exceeding two (2) years following the initial commercial shipment of the Software.

3. Termination. This License is effective until terminated. You may terminate this License at any time by destroying the Software. This License will terminate immediately without notice from Infogrames if you fail to comply with any provision of this license. Upon termination, you must destroy the Software.

4. Disclaimer of Warranty on Software. You are aware and agree that use of the Software and the media on which it is recorded is at your sole risk. The Software and the media are provided "AS IS." Unless otherwise provided by applicable law, Infogrames warrants to the original purchaser of this product that the Software storage medium will be free from defects of materials and workmanship for ninety (90) days from the date of purchase. This warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. INFOGRAMES EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. INFOGRAMES DOES NOT WARRANT THAT THE FUNCTIONS CONTAINED IN THE SOFTWARE WILL MEET YOUR REQUIREMENTS. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY INFOGRAMES OR ANY INFOGRAMES-AUTHORIZED REPRESENTATIVE SHALL CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THIS WARRANTY. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO THE ABOVE EXCLUSIONS MAY NOT APPLY TO YOU.

5. Limitation of Liability. UNDER NO CIRCUMSTANCES, INCLUDING NEGLIGENCE, SHALL INFOGRAMES BE LIABLE FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH THE SOFTWARE, INCLUDING THOSE THAT RESULT FROM THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF INFOGRAMES HAS BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES. IN NO EVENT SHALL INFOGRAMES' TOTAL LIABILITY TO YOU FOR ALL DAMAGES, LOSSES AND CAUSES OF ACTION (WHETHER IN CONTRACT, TORT OR OTHERWISE) EXCEED THE AMOUNT PAID BY YOU FOR THE SOFTWARE. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

6. Editor and End-User Variations. If the Software includes a feature that allows you to modify the Software or to construct new variations for use with it (an "Editor"), you may not sell it or repackage it for sale. If you create modifications or enhancements to the Software using the Editor, including the construction of new levels (collectively, the "Variations"), you are subject to the following restrictions: (i) your Variations must only work with the full, registered copy of the Software; (ii) your Variations must not contain modifications to any executable file; (iii) your Variations must not contain any libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party, or contain any trademarks, copyright-protected work or other property of third parties; (iv) by distributing or permitting the distribution of any of your Variations, you hereby grant back to Infogrames an irrevocable royalty-free right to use and distribute them by any means. The prohibitions and restrictions in this Section apply to anyone in possession of the Software or any of your Variations.

7. Miscellaneous. This license shall be governed by and construed in accordance with the laws of the State of New York, exclusive of its choice of law and/or conflicts of law jurisprudence, and controlling U.S. Federal law; and, in respect of any dispute which may arise hereunder, you consent to the jurisdiction of the federal and state courts of New York County, New York. If any provision of this license is unenforceable, the rest of it shall remain in effect. This license (including any addendum or amendment to this license which is included with the Software) constitutes the entire agreement between you and Infogrames with respect to the use of the Software and the support services (if any) and they supersede all prior or contemporaneous oral or written communications and representations with respect to the Software or any other subject matter covered by this license.
