## INTRODUCTION / NEW FEATURES

### One Shining Moment

It's the same dream every night: the one where you bury the big shot, the one where you wake up with your hands still going through the motions of cutting down the net. You sit up with a smile, knowing that this year will be your school's big chance. Most of the experienced upper-classmen from last year are returning, and the freshman class is the best this state has seen in decades. You know this is your year. Now you turn on ESPN College Hoops and prove it, living each week of an intensely brutal schedule, working through the ups and downs of the season to finally earn a ticket to the Big Dance. It's about time your dream met up with reality.

### This year's new features include:

- ESPN Presentation – Mike Patrick and Jay Bilas call every game. New ESPN Cams follow all the action, both on the court and in the crowd, capturing everything from high-flying cheerleaders to the Cameron crazies.
- IsoMotion – Unleash new offensive moves using your **right analog stick**. Pivots, Jab Steps, Crossovers, Spins, and Step Backs are all at your disposal to break the defender down. On defense, use the manual stealing system to rip the ball out of your opponent's hands.
- Enhanced Legacy Mode with Full Season Recruiting – The first of its kind in any college sports game. Hire assistant coaches to help you in your quest to cut down the nets in San Antonio. Balance your staff's efforts between coaching your team and scouting for potential recruits. Attend high school games to seek out the nation's best players. Customize your schedule with tournaments and additional opponents. Collect all your awards in the new Trophy Room.

## IN-DEPTH CONTROL REFERENCE

### Jump Ball

The referee will initiate the tip-off by tossing the ball in the air. When the ball is near the top of its upward travel, press the **□** button to jump. The winner of the tip-off will start the game with possession of the ball.

## OFFENSE

### Dribbling

- To dribble the ball, move the **left analog stick** in the direction you want to move.
- To get a speed burst, press and hold the **R1** button while moving in any direction. When doing so, you will notice a green bar appear beneath your player indicator. This green bar indicates the amount of speed burst you have left at the moment. When this speed burst indicator bar is depleted, you will be unable to speed burst for a short while.
- While standing still, perform a crossover and switch the ball to the other hand by pressing the **○** button with the **left analog stick** centered (i.e. not pointed in any direction).
- From a standstill, perform a juke or crossover that leads you to the basket by pressing the **○** button and then quickly moving the **left analog stick** to one side or the other.
- While running, perform a crossover or sidestep driving move by moving the **left analog stick** towards one side of the defender and simultaneously pressing the **○** button.
- To perform a spin move while your player is moving, hold the **R1** button for a speed burst, and press the **○** button.
- To perform IsoMotion dribble moves, move the **right analog stick**. There are two sets of offensive IsoMotion moves: the Standing Still Moves and the In Motion Moves.
- Standing Still: When not dribbling, move the **right analog stick** up, down, left, or right to move around on your pivot foot. When dribbling, move the **right analog stick** up or down to jab step straight ahead and left or right to crossover or jab step left or right.

- In Motion: Move the **right analog stick** up, down, left, or right to perform an assortment of stutter-steps, crossovers, and spins.

## Passing

- To pass the ball to the nearest player in front of you, simply press the **X** button.
- To pass the ball to a teammate of your choice, move the **left analog stick** in the direction of the teammate you want to pass to and then press the **X** button.
- A "give-and-go" pass is when a player passes to a teammate, he immediately cuts toward the basket or to an open spot on the floor, and the teammate passes the ball back to him. To perform a give-and-go pass, press and hold the **X** button while moving the **left analog stick** towards the player you want to pass the ball to. Your player will pass the ball, but unlike normal passes, you will remain in control of your original player. Now, move your player towards the basket or an open spot and release the **X** button. Your teammate will pass the ball back to you.
- To pass to the player nearest the basket, press the **R2** button. This passing method is helpful for back door passes as well as for advancing the ball on a fast break.
- Icon passing is the most precise method of passing. To perform an icon pass, first press the **△** button to call up button icons over the heads of your teammates. Then, simply press the corresponding button to immediately send the pass to the teammate of your choice. The **X** button icon corresponds to the Point Guard, the **○** button icon corresponds to the Shooting Guard, the **■** button icon corresponds to the Small Forward, the **▲** button icon corresponds to the Power Forward, and the **R1** button icon corresponds to the Center. The drawback to icon passing is that it takes a little longer to execute.

**ESPN Tip:** By default, you always control the ball-handler on offense. When you pass the ball, you assume control of the recipient of the pass. This is known as "Ball Handler Auto Switch". If you're playing with the Ball Handler Auto Switch option OFF, and you're controlling an offensive player without the ball, the following controls apply:

- ⊗ button . . . . . Switch players
- ⊙ button . . . . . Call for a shot
- ⊠ button . . . . . Rebound
- △ button . . . . . Call for a pass

**ESPN Tip:** Analog passing is the fastest way to pass to an open man. While controlling the ball-handler, move the right analog stick in the direction that you want to pass and your player will automatically pass to a teammate in that direction. Analog passing is a custom controller configuration. To enable it, you must switch your Controller Setup to "Stick Passing" in the Options Menu.

### Shooting

- To shoot a jump shot, press the ⊠ button and release the button at the top of your jump. The closer your release is to the top of your jump, the higher your accuracy will be.
- To fade away from the basket during your jump shot, move and hold the **left analog stick** away from the basket prior to releasing the ⊠ button.
- To attempt a layup or a dunk, dribble close to the basket and then press the ⊠ button with the **left analog stick** pointed towards the basket. Keep in mind that using turbo (R1 button) will increase the range of your lay-ups and dunks.
- To perform a pump fake, quickly tap the ⊠ button. The player will make a quick shooting motion to fake out the defender, but will hold onto the ball.
- To pass out of a shot, press the ⊠ button to shoot and, without letting go of the ⊠ button, quickly press the ⊗ button to pass while in the middle of your jump. Your player will pass while in midair.

## Posting Up

- To post up on a defender, start by pressing and holding the **L1** button. Your ball handler will turn his shoulder to the basket and use his body to protect the ball. Keep holding the **L1** button and move the **left analog stick** towards the defender. As soon as you make contact with the defender, your ball handler will post him up.

## Scoring with the Post Up

- One way to score from the post is by shooting a jumper. To shoot a jumper, press and hold the **L1** button, then, while holding the **L1** button, move the **left analog stick** to the right (to spin right), left (to spin left), or down (to fade away from the defender), and press the  button to shoot.
- You can also shoot a hook shot over your defender by holding the **L1** button and pressing the  button with the **left analog stick** centered.
- The Drop Step move is the most effective way to score from the post. To perform a drop step, first post up your defender by pressing and holding the **L1** button. At any time during your post up (with the **L1** button still held down), move the **left analog stick** in the direction you want to drop step to and then release the **L1** button. Your player will drop step and spin towards the basket in the direction you selected. If the move is successful, you will get past your defender for a dunk or a lay-up.

### Free-throw shooting

When you shoot a free throw, a Free Throw Overlay will appear with a moving dot that sets the distance for your shot, and two aiming brackets on either side that serve to center your shot. To shoot a free throw, press the **left analog stick** and the **right analog stick** together to bring together the aiming brackets in the center of the Free Throw Overlay so that they form a circular outline. Press the **X**, **O**, **□**, or **△** button when the Distance Dot is centered in the Free Throw Overlay to shoot the ball. Also, remember that you don't have all day to shoot the free throw. In default "All Conference" difficulty, if you haven't shot the free throw after 15 seconds, your player will automatically shoot the ball wherever the brackets and the Distance Dot are pointed. If you're having trouble shooting free throws, go to Practice: Free Throw to hone your skills.

### CALLING PLAYS

Each team has 19 plays in its offensive playbook and 15 plays in its defensive playbook. Of these, 4 offensive plays and 4 defensive plays can be accessed during gameplay via the in-game Play Call Overlay. If you'd like to customize the 4 plays currently in use, select Coaching from the Pause Menu, and select Offensive Plays or Defensive Plays (you can also set your Playbooks in Roster Manager Mode).

- To bring up the Play Call Overlay during gameplay, press the **directional buttons** in any direction. Then press the corresponding **directional button** to run a specific play.

#### Other Calls

- If your team is behind at the end of the game and you need to foul to stop the clock, press the **SELECT** button to call for an intentional foul.
- Can't get free from a defender? Call for a pick! Having a teammate set a pick for you is a great way to get free, especially on the perimeter. To call for a pick, press the **L2** button while in control of the ball. Your nearest teammate will run up and set a pick for you.

## DEFENSE

### Stealing

- To attempt to pick the ball handler's dribble, press the **○** button.
- To steal a pass, press the **○** button when the pass is on the way. If you time it right, your defensive player will intercept the pass in midair.

### Drawing a Charge

The number of offensive charging fouls that a defender draws isn't an official statistic in the NCAA, but it probably should be. By using your player's quick feet to establish position, you can stop your opposition's aggressive moves to the basket and cause them to commit a turnover.

- To attempt to draw a charge, press the **L2** button.

### Blocking Shots

- To block a shot, press the **■** button as the ball handler begins his shot.
- To power up your shot block, press and hold the **R1** button and then press the **■** button.

## Rebounding

- A fundamental part of good rebounding is boxing out your opponent. To box out an opponent after a shot attempt, position your rebounder close to the basket and press and hold the **L1** button. By doing so, your player will extend his arms to the side in an effort to keep any nearby opponents behind him.
- To jump for a rebound, press the  button once the ball has bounced off the rim.

## Switching Defenders

- While on defense, press the  button to switch to the player closest to the ball.
- To switch to a specific defender, you can use the Player Icons (this works like Icon Passing). First, press the  button to call up button icons over the heads of your teammates. Then, simply press the button that corresponds to the player you wish to control.
- It's often useful to be able to switch to the defender who is the closest to your basket (for example, when the other team is attempting a fast break). Press the **R2** button to switch to the defender closest to the basket.

### **Ability Icons**

During the course of a game, you'll probably notice that many players have icons, such as a star, next to their names when they have possession of the ball. These are the new Ability Icons. They serve as a quick way to learn about your players' strengths. The Ability Icons signify the following abilities.

- Shoe – The player is fast. (Get him the ball on a fast break).
- "3" – The player shoots 3-pointers well. (Look to get him the ball beyond the arc).
- Star – The player has a high overall rating, and is probably skilled offensively. (Put the ball in his hands when the game is on the line).
- Hand – The player is a strong defender.
