## **WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

## **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

## **USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

## **HANDLING YOUR PLAYSTATION 2 FORMAT DISC:**

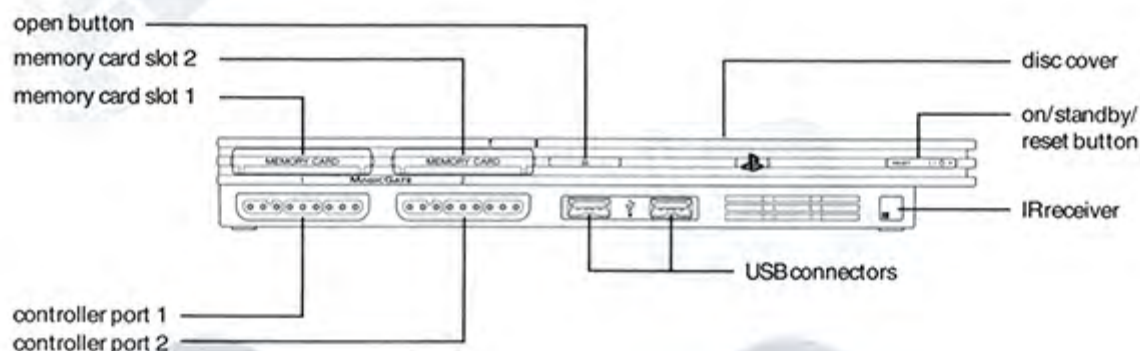

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## Introduction

Survey Says...*Family Feud* is one of the most popular and longest running game shows in television history. After watching others families compete for big money throughout the years, it's time for *your* family to show how well they know the game.

**Does your family have what it takes?  
If so...it's time to play *Family Feud!***

## Main Menu

From the Main Menu you can select from the following options:

**Play Game:** Selecting this option will allow you to choose from a Standard Game, Quick Game or Online Play.

**Family Editor:** Use the in-game family editor to edit an existing family or create a whole new one from scratch.

**Options:** From here you can adjust assorted video, audio and gameplay options.

**High Scores:** Check out the highest scores for both Standard Games and Quick Games.

## Standard Game

The Standard Game gives you the full Family Feud experience. You will play head-to-head against another family, with the goal of reaching the 300 point mark before your opponent.

Be the first to reach 300 points and you go on to the Fast Money round for the chance to win the \$20,000 prize.

The rounds progress as follows:

Round 1: Two members face off to gain control of the

# FAMILY FEUD

round, then one family has three chances to get all the answers on the board correct

Round 2: Identical to the first round

Round 3: Point values awarded for a correct answer are doubled

Round 4: Point values awarded for a correct answer are tripled

Round 5: The “Fast Money” round, where two members from the winning family take turns guessing the top answers to five different questions

**Note:** *If neither family reaches the 300 point mark by the end of round 4, the game will go to sudden death to determine the winner.*

Selecting the Standard Game mode gives you the option of playing a One Player game against a computer opponent or a Two Player game against your friends on the same system.

## Quick Game

Quick Game is a little different than what you are used to seeing on TV. Instead of competing against another family, it's just you pitting your wits against the survey. You automatically have control of each

round from the beginning. Try to guess as many correct answers as possible each round, before using up your three

strikes. Get every answer correct in a round and you earn bonus points. Answer them all correctly without using up one of your strikes and you earn extra bonus points. Instead of trying to win the Fast Money round, the goal is to bank as many points as possible during the course of the game.

## Online Play

Want to play against friends down the street, family members across the country or even strangers around the world? Then try playing online and test yourself against other Family Feud fans.

Selecting the Online Play option will automatically connect you to the server to find games waiting for opponents or setup a new game of your own. To start a new game, select the Start Match option. To be matched up with a person already waiting to play, select the Join Match option.

Challenge your friends and family to a Family Feud Showdown!

## Select A Studio

After you have chosen to play a Standard Game or Quick Game, you will need to select a studio in which to play. This game includes five distinctive studios from the rich history of Family Feud. Pick the one you remember best or try playing on them all for a touch of nostalgia.

**Note:** When you first begin playing the game, only one studio will be available. As you continue to play and reach certain goals, additional studios will be unlocked. Refer to the *Unlockable Items* section for a list of the goals that will unlock the other studios.

## Selecting A Family

When you begin any game, you will need to select the family you wish to represent you. You can elect to use a random family, choose to create a new family with the exact members you

want, or select from a list of your previously created families.

**Family Names** – Once you have created and saved a family, their name will appear when selecting a family. Simply select their name to continue their progress in the game.

**Random** – Select this option to jump right into the game playing a family created from randomly created members.

**Create or Edit Family \*** – Choose this option to go into the Family Editor menu and create new family from

scratch. Setup a family just the way you want it. You pick the genders, the ages, the hairstyles, even the clothing. Once you are done, you can save your new family and start playing.

\* The Create or Edit Family option will not appear when picking a family in an Online Game. This is done in the interest of time, so players don't have to wait while their opponent creates a custom family. Please create your custom families prior to starting the Internet Play session. Previously created families will still appear when picking a family.

## Family Editor

Family Feud has a robust family editor built in that allows you to customize the family members' physical attributes, hairstyles, clothing and more. Create a family just like your own...or the family you always wished you had!

When you first enter the Family Editor section you will have the following options:

### Select Family Options

**Create or Edit Family** – Select this option to create a new family from scratch or to make adjustments to previously created families.

**Delete Family** – Click here to select a family you wish to remove. Once deleted, these families can't be restored.

**Exit** – Selecting this option will exit the Family Editor. Before exiting, you will be asked if you wish to save your family. If you wish to save your family, select the Yes option. Your family will then be saved under the last name of the family. If you select No, any changes you made to the family will not be saved.

## Select Member Options

The Select Member Options menu is where you customize the physical attributes of each family member. Use the up and down directional buttons on the D-Pad to move to the attribute you wish to change.
