If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—**IMMEDIATELY** discontinue use and consult your physician before resuming play.

COMMAND REFERENCE

DUALSHOCK®2 ANALOG CONTROLLER CONFIGURATIONS

ADDITIONAL CONTROLS

Take command in the ring and pummel your fiercest rivals by mastering every punch. Inflict pain with an effective jab or a devastating Impact Punch, and avoid punishment by blocking, dodging, and parrying punches directed your way.

TOTAL PUNCH CONTROL

With Total Punch Control, you direct every movement your boxer makes in the ring. Whether attacking the body with a straight right or sneaking in a left hook before the bell, determine your offensive attack with Total Punch Control. Press the right analog stick to mimic the motion of your boxer's fists and devise your own approach in the ring. Wear down your opponent with blows to the body or go for the knockout with a flurry of combinations.

Right Straight

Right Hook

Right Uppercut

Left Straight

Left Hook

Left Uppercut

NOTE: To throw a jab when fighting as a right-handed fighter (left foot forward), use the same Total Punch Control command as a left straight. When fighting as a southpaw, throw a jab by using the same command as a right straight.

IMPACT PUNCHES

One punch can change a fight. Punish rivals with a perfectly timed EA SPORTS™ Haymaker, or instantly put them on the defensive by triggering an all-new Flash KO or Stun Punch.

EA SPORTS™ HAYMAKER

Do you feel the fight slipping away, or have your opponent on his last legs? Take the opportunity to use the EA SPORTS Haymaker and instantly shift momentum in your favor.

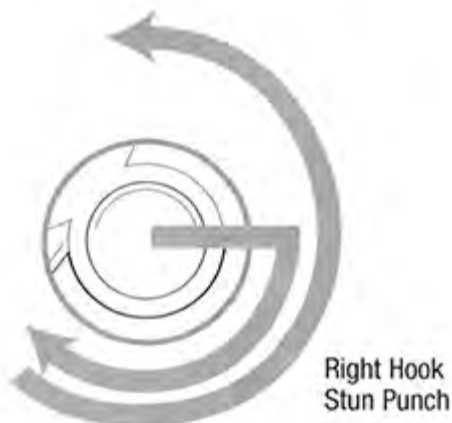

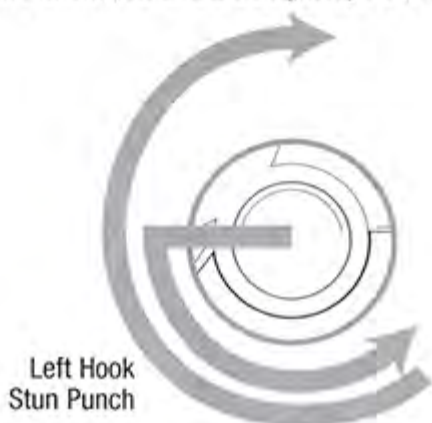

NEW FLASH KO

Connect with the all-new Flash KO to immediately put your opponent in a daze, giving you a window of opportunity to knock him down before he regains composure. Flash KOs take longer to execute than most other punches, leaving you defenseless for a brief moment, but the reward is well worth the risk.

NEW STUN PUNCH

Shift a fight in the blink of an eye with an all-new Stun Punch. After connecting with a Stun Punch, your opponent immediately goes on the defensive with his gloves as his only source of protection; all it takes is one strong punch to knock him down. During your attack, your opponent must block or parry incoming punches until he regains his composure. However, if your opponent counters with a Stun Punch, you could be fighting for your boxing life.

NOTE: Both the Flash KO and Stun Punch have a better chance of landing if they're thrown as a counterpunch after leaning out of the way or parrying a punch.

NOTE: Make sure to completely follow through on the Stun Punch.

BOXER MOVEMENT

Trap your opponent against the ropes or escape when you've taken too many blows by moving around the ring with the left analog stick.

To dodge, lean, or duck out of the way of punches, press and hold the **L1** button while pressing the left analog stick in a desired direction. You can also utilize your upper body movement to set up and counter attacks. To block or parry incoming punches, press and hold the **R1** button + the right analog stick.

PLAYING THE GAME

Before leaving a long-lasting legacy in Career mode, get comfortable inside the ropes in Play Now mode.

USER PROFILES

Keep track of your personal stats and accomplishments with a User Profile. An active User Profile saves your Create A Champ, Career mode achievements, and statistics to your memory card (8MB) (for PlayStation®2). It does not track information that occurs outside of Career mode.

SETTING UP A PLAY NOW MATCH

Select your corner—red or blue—from the Select Corner screen. Pick two boxers for the upcoming fight, choosing between six weight classes and a selection of boxing greats from the past and present such as Muhammad Ali, Sugar Ray Leonard, and Oscar De La Hoya.

When you first play *EA SPORTS Fight Night Round 3*, only three venues are available: Aragon Ballroom, The Warehouse, and Windy City Boxing Gym. Other world-class venues, including Madison Square Garden™, Staples Center™, and State Palace Theatre, are unlocked as you progress through Career mode.

INSIDE THE RING

Health Meter—the damage your fighter can sustain before he's knocked down

Energy Meter—the amount of energy your boxer has left in the tank (low energy results in weak punches)

NOTE: The traditional HUD (the on-screen meters that indicate your level of health and energy) is ON by default. If you are more comfortable without the on-screen displays, choose to deactivate the HUD in the Settings menu.

PUTTING THE EA SPORTS™ CUTMAN TO WORK

After each round you have the option to either auto-heal (**△** button) or manually heal (**×** button) your fighter. If you choose the manual method, you have 30 seconds to repair swelling and cut damage on your boxer's face. Press the **△** button to decide whether you want to tend to swelling or cuts.

Add pressure with the healing tool by moving the right analog stick. Tap the left analog stick in the direction of the area you want to heal. Then, move the right analog stick to apply the tool with an arching motion that matches the on-screen display.

KNOCKDOWNS

After a knockdown, your vision blurs and the referee begins a 10 count. To pick yourself up from the canvas, clear your vision by pressing the analog sticks to align the two outer (yellow) circles into the center (red) circle before the referee counts you out.

PENALTIES/STOPPAGES

Illegal punches and low blows are effective ways to hurt your opponent, but they come at a cost. If caught, you get a warning the first time and a one-point penalty in the round for each following infraction. Repeated infractions can ultimately lead to a disqualification. Fights can also be stopped because of severe damage to the face, resulting in a TKO. When the 3-knockdown rule is in effect, a TKO occurs when a boxer is knocked down three times in a single round.

END OF FIGHT

If the fight goes the distance without a knockout, the judges tally the final scores and the winner is announced. After viewing the judges' cards, the Fight Totals screen displays the final punch totals for the bout.

SAVING AND LOADING

Before exiting a game mode (or a menu where changes have been made), be sure to save your progress to a memory card in MEMORY CARD slot 1. All unsaved information is lost otherwise. You can also save, load, or delete manually on the Settings Manager and Profile Manager screens (via the Options menu).

ESPN CLASSIC™

Pick great matchups in boxing history and relive them with your own flair. Choose from Ali vs. Frazier, Gatti vs. Ward, Hopkins vs. Taylor, and more. Get the scoop on these illustrious rivalries with a blow-by-blow history from ESPN commentator Joe Tessitore. You can also fight against your Career mode rival in ESPN CLASSIC once you've hung up your gloves and retired from Career mode.

NOTE: You must develop a rival in Career mode in order to transition your retired boxer to ESPN CLASSIC mode.

CAREER MODE

Create a boxer of your likeness or take over as a legend in your quest to become the next great champion. Put your created champ in the ring against other formidable fighters in Career mode as he rises through the ranks, then challenge your main career rival in ESPN CLASSIC once he's retired from Career mode. If you choose to rebuild a legend, your career begins after you select your stance and style and opt how to allocate your rating points.

CAREER CENTRAL

Career Central is the hub of your fighter's career. This is where you set up your next fight, review your accomplishments, spend your cash, and modify your boxer.

SIGN CONTRACT

Determine your next fight by signing a contract with another boxer—fight an undefeated contender to improve your popularity and quicken your climb through the ranks, or go for the big payday even if it means fighting an easy opponent. The decision is yours.

TROPHY CASE

EDIT BOXER

Modify your stance, base and punch styles, and manner in which you block. Be sure to revisit here frequently throughout your career to take advantage of new styles unlocked along the way.

TRAIN

Before each fight, you have the opportunity to hire an experienced trainer to improve your training techniques. The higher they're rated, the better you'll train and the more you'll improve. Any advantage you have heading into the ring helps. For more information on training, see p. 8.

NOTE: Use your purse winnings to upgrade accessories and gear, or to hire a more advanced trainer.
