

Choose Sides.

WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation®2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

** Note: Illustration may not match all PlayStation®2 console types. For owners of SCPH-70000 series PlayStation®2 systems, refer to the setup instructions supplied with your system.*

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the FORD vs. CHEVY disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

MEMORY CARD (8MB)(FOR PLAYSTATION®2)

To save game settings and progress, insert a memory card (8MB)(for PlayStation®2) into MEMORY CARD slot 1 of your PlayStation®2 system. You can load saved game data from the same memory card or any memory card (8MB)(for PlayStation®2) containing previously saved games.

Logitech® Driving Force™ Pro (in 200 degree mode)

THE WESTINGTON CUP

It all started back in the earliest days of motoring: Westington resident Tyrone Baker bought a Ford Model T and would spend his time driving up and down Westington's Main Street, showing off his new pride and joy. Not to be outdone, his neighbor – and lifelong rival – Eddie Olson bought a Chevrolet 490. Soon the two were racing against each other to prove whose car was the fastest.

Over the years, their rivalry grew and soon other Ford and Chevy owners started to join in the fun. Out of this rivalry, the Westington Cup was born.

And so we come to today — the Westington Cup tournament is about to begin. As a driver for either the Ford or the Chevy team, it's time to defend your pride as you battle in a variety of different races, missions and vehicles. It's furious fun as you race 48 of the hottest Ford and Chevy cars, trucks and race cars of all time.

Choose sides in the oldest rivalry in American Motorsports and let the battle begin!

STARTING THE GAME

If you have a previously saved Ford vs. Chevy game you may restore it using the Load Profile option. If this is the first time you've played the game, simply select the New Profile option.

You are now asked to choose sides – either Ford or Chevy. Note that you cannot switch sides once you have made your selection and transfer your progress to that Brand! For example, if you complete the first two Class Series driving a Ford you cannot switch to Chevy for the third Class Series. If you wanted to switch to Chevy, you would have to begin a new game session and start from the Class Series 1 again. Your Ford progress would remain unaffected, however, so you could return to that at a later date.

You're now prompted to enter a name for the new Game Session. Simply use the "on-screen keyboard" to enter a name and – when you're ready – select the ENTER option to name your new Game Session.

You are now presented with the Main Game Menu. Here you may select which Game Mode you wish to play or adjust your Game Options.

GAME MODES

WESTINGTON CUP

The Westington Cup is the main game mode of Ford vs. Chevy. Here you race as either a driver for the Ford team or the Chevy team and compete in a variety of challenges and races.

Initially you're restricted to competing only in the first Class: Modern Muscle, but should you complete this Class Series, you'll proceed to the second and so on. Progress is only made by successfully completing a Class Series.

Between Class Series you're presented with a short animated sequence that introduces the Class. You may skip this at any time by pressing the START button.

STARTING IN THE WESTINGTON CUP

This mode begins with a short animated intro, setting the scene and introducing you to the concepts of the Westington Cup. You may skip this intro by pressing the START button at any time.

The Westington Cup begins with the first Class, Modern Muscle. Once the introduction for the Modern Muscle Class Series is complete, you're taken to the Series Screen.

THE SERIES SCREEN

The Series Screen is where you select which races you wish to compete in and learn more about upcoming challenges. You may also visit your Garage, where you may Upgrade your car, repair the damage it sustains during the race and even trade it in for a new one!

At the start of the game you do not have a car. However, you start with a limited number of Points, which you may spend in the Garage to purchase one. You cannot race until you purchase a car. For more information on the Garage please see the Garage section (page 14).

Initially only a limited number of the challenges and races in the Series is available, but as you complete them, new ones will become available. As you select each event, you'll see pertinent information on the race, such as the course layout, objectives, the event type and so on.

Simply select the event you wish to compete in to begin.

SERIES RACES

Each Class Series consists of a number of races and events. Some are unique to each Class Series, others common to all.

Circuit Races Compete against a field of 5 other drivers in a lap-based race. Your objective is to finish in the highest position possible.

Point-to-Point Race Compete against a field of 5 other drivers in a race to reach a predefined point. Again, your objective is to finish in the highest position possible.

Performance Challenges Complete a run (either a point-to-point race or a preset number of laps) as quickly as possible. Complete the run and beat the Best Times and you'll receive a ranking of either Gold, Silver or Bronze depending upon your final time.

Drag Races A simple 1/4 mile drag against a single opponent. See Drag Racing Section (page 13) for details.

Driving Challenges These are tests of driver skill and co-ordination, where you must perform certain moves or complete predefined courses to pass. You do not race against other drivers in these events but must use your skills to overcome the challenge and win. Note that you will be provided with a specific vehicle for such challenges.

Special Events These challenges are special, "story-based" events in which you must use your vehicle to complete specific tasks. Each Event is explained prior to the start. Note that the choice of vehicle here is automatic and you are given the use of a suitable car.

THE CLASS SERIES

There are five Class Series in Ford vs. Chevy: Modern Muscle, Off-Road, Classic Muscle, Trucks and Racing Cars. To progress to the next Series, you must successfully complete all of the challenges within the current Class Series.

Completing a Class Series

To complete a Class Series, you must successfully complete every challenge and race (i.e. achieve Gold status in each of them). Should you do so, you're taken to the next Class Series and begin competing in another division of the Westington Cup.

Completing the Westington Cup

To complete this mode, you must complete all races in all five Class Series. If you do so, you will be presented with the final Epilogue animation.

CHALLENGE MODE

In this mode you may play any of the races/challenges you have unlocked in the Westington Cup mode in an attempt to better your scores. Initially only a small selection of Challenges are available but more become unlocked as you progress through the Westington Cup mode.

Starting in Challenge Mode

Start Challenge Mode and you will be presented with the Select Series Screen. Here you may choose which of the five Series you wish to compete in. You are now taken to the Series Screen (see above) and may choose which Challenge you wish to attempt.

Completing Challenge Mode

There is no progression in Challenge Mode and races are presented as "one-off" events, allowing you to replay the events of Story Mode.

MULTIPLAYER

Ford vs. Chevy supports a number of multiplayer modes, both off and online.

Starting in Multiplayer

To play in Split-Screen Mode, simply select the Split-Screen Mode option. Note you must have a second controller connected to your console.

To start an Online game, select to either Host or Join a game. If you select the Host option, you will be prompted to set a number of parameters that dictate the "rules" of the game session. Once you have set these options, the game will begin and other players will be able to Join your game session. Alternatively, if you select the Join option, you'll be able to connect to any game sessions currently available.

Free Race

Here you may race against five opponents. There are no points given for this race as it is a one-time race, but you and your fellow players are ranked in the order that you finish.

Token Run

Here all players begin in an arena-style environment and you are charged with collecting as many Tokens as possible within the time limit. However, if another player hits you, your Tokens are scattered! Whoever has the most Tokens at the end of the time is declared the winner!

Elimination

Choose any closed-circuit track and gather all of your friends. Six racers on the track will race one full lap, and then the fun begins. At the end of the second lap, the person in sixth place will be cut. This continues for six laps until there is only one racer left.

Selecting a Track

Depending on the Game Mode, a predefined selection of tracks is made available. Car choice is dictated by how far you have progressed through Story Mode.

OPTIONS

There are a number of options you may adjust from the Options Menu.

Sound

This option allows you to individually adjust the volume levels for Sound Effects, Speech and Background Music. Adjust the settings using the directional buttons.

Controller

You may view your controller set-up here.

Credits

Selecting this option displays the production credits.

TEAM ORDERS

In Ford vs. Chevy you're not only racing for points for yourself, but also for the honor of your Brand. And although it's an unofficial alliance, your "teammates" will help you out in certain situations if it means victory over the other manufacturer.

You may issue two requests to your teammates: Attack or Defend.

Attack

When you call for your team-mates to "Attack," they will deliberately drive in a more aggressive manner and attempt to overtake opponents. Press up on the directional buttons to activate.

Defend

The "Defend" signal informs your teammates to hold their position and stop opponents from overtaking them. Press down on the directional buttons to activate.

Note that team orders only last for a few seconds, but they can play a vital role in helping you win the race.

SCORING POINTS

As you race and perform various moves (such as power-slides, overtaking maneuvers or jumps) you'll earn Points. As well as being the game "currency" (which you may use in the Garage (see below) to purchase upgrades or new cars) they are also used to "fuel" your Boost Meter.

Here's a list of all the moves that will earn you points:

- Power Slide** Drift by applying the throttle to induce loss of rear wheel traction.
- E-brake Drift** Drift by using the emergency brake to swing the rear of the car.
- Braking Drift** Drift by using the foot brake to lose traction in the front wheels.
- Jump Drift** Drift by driving the car off a curb or other large obstruction in a way that induces loss of rear wheel traction.
- Long Drift** Extend your current drift for a long time.
- Kansei Drift** Enter a corner at full speed and then release the throttle suddenly, inducing a drift with no throttle.
- Feint** Turn the car in one direction and then suddenly in the other using the sudden weight shift from one side to the other in order to break rear wheel traction.
- Choku-Dori** Large long drift first one side, then the other, and so on.
- Big Air** Put some vertical distance between your car and the ground.
- Two Wheels** Get the car up on two wheels.
- Drafting** Using an opposing racecar's slipstream to gain an aerodynamic advantage.

THE BOOST METER

The Boost Meter has three stages: Boost; Charged and Super-Charged. To activate each stage, you must "fill" the bar beneath by pulling off the moves mentioned above and then – once it's full – press and hold the R1 button to activate.

Tactical use of the Boost Meter can be a great advantage in winning races. In addition, the Points you earn during the race may be traded in at the Garage.

DRAG RACING

Drag Racing is a unique style of racing and so has its own rules. In a Drag Race you go head-to-head with a rival driver and the objective is to get the best standing-start possible, retain a straight-line (to maximize your speed) and cross the finishing line ahead of your opponent.

There are 3 key areas to success: getting off the line as soon as the lights go green; shifting gear at the optimal rev range and using minimal steering input.

At the start of the race, you'll be presented with the starting lights. You may rev your engine until the amber lights begin to illuminate. Once the stage phase begins you must release the accelerator when told to do so. If you fail to do so, you will forfeit the Quick Start bonus points. Once the lights are green, your reaction time is critical: the quicker you hit the accelerate button the more points are scored.

During Drag Races the gearbox is always set to semi-automatic (i.e. you have to shift up manually). You can shift up by pressing up on the right thumbstick. Depending how close to the optimal rev range you shift, extra bonus points are awarded per shift. Points are not lost for poor shifts.

Once you've pulled away from the starting line, there's just the simple matter of getting to the finishing line before your opponent...

THE GARAGE

The Garage is where you may purchase upgrades, repair your car or even trade it in for a new model

As you race in the Westington Cup you earn Points. These Points – as well as “fuelling” the Boost Meter – are also the currency of Ford vs. Chevy and may be spent in the Garage.

BUYING A CAR

You may buy a car at any point – providing you have earned enough Points, of course. Simply select the Buy Car option from the Garage and you will be presented with a list of available vehicles, as defined by the current Class of competition (i.e. only Classic Muscle Cars appear when you are playing the Classic Muscle Cars Series.)

To purchase a new car, simply select it from the list. You’ll be asked to select the color and Transmission of your car. You are now informed of the trade in value of your old car (if you have one) and the Points cost of the car is deducted from your Points total.

The new car is now yours to race!

When a car is traded in, its current upgrade state remains. This means that should you buy or use this car again in any game mode, it will still have all of its upgrades in place.

REPAIRING YOUR CAR

As you race, you may sustain damage. When your car is damaged, its performance is affected. Although your car will never reach the point where it cannot continue, a badly damaged car will hamper your progress and make it difficult to win races. So it’s important that when your car is damaged, you repair it to remain competitive.

To repair your car, simply select the Repair Option from the Garage. You will now be prompted to select how much of the damage you wish to repair. The more damage you choose to repair, the more it will cost in Points.

UPGRADING YOUR CAR

To remain competitive, it’s also a good idea to improve your car’s performance by installing Upgrades. To do so, simply select the Upgrades option from the Garage.

You may now browse a list of Upgrades. Upgrades are sorted by Category (Alloys, Brakes, Ignition, etc.) then by Manufacturer and finally by Product. (Note: in some cases you may be prompted to also select which Axle the Upgrade is to be fitted to.)

Simply make your selections and – if you have the Points – select the Upgrade you wish to install and it will be purchased and fitted.

ONLINE AND LAN PLAY

Multiplayer games can also be played Online or over a LAN.

ONLINE

To play online you must select Log In from the Main Menu. You then have an option to Select an already existing Network Configuration File or Create a new one. You can Log Out by selecting Log Out from the Main Menu. Current online status is displayed in the top right hand corner of the screen.

Online Options:

- Fast Match* Searches for any server playing any Event type. If a server cannot be found you will be prompted to Create a Match.
- Match Making* Select the type of server you wish to join by modifying the displayed criteria including Event and Car type.
- Create Match* Allows you to host your own game. After selecting the event, you are prompted with several event specific parameters to configure. Once completed you enter the game lobby.
- Buddy List* Allows you to check the online / offline status of your buddies, send a game request and remove a buddy from your list.

LAN

After selecting LAN you will have the option to select an already existing Network Configuration File or Create a new one.

Upon selecting a Network Configuration File, choose either Host or Join a game. As host you can set the server parameters. You are taken to the lobby and are ready for other players to join.

If you Join a game you will see a list of available servers and must select one. If no servers can be found, you will be prompted to Create one.

In the lobby:

- Start Race* Signals you are ready to start the event. Once everyone in the lobby has selected Start Race, the event begins.
- Car Select* Choose a different vehicle.
- Game Settings* Can be selected by the host only and allows changes to the event type and associated parameters.
- Buddy List* Check the online / offline status of your buddies, send a game request and remove a buddy from your list. (Not available during LAN play)
- Player List* Lists current players in the lobby. You can send a friend request or Mute / Unmute players. As the host you can also kick players.

This software uses "DNAS" (Dynamic Network Authentication System), a proprietary authentication system created by Sony Computer Entertainment Inc ("SCEI"). "DNAS" retrieves information about a user's hardware and software for authentication, copy protection, account blocking system, rules, or game management and other purposes. LICENSE CONDITIONS

You agree not to:

- Commercially exploit the Software;
- Distribute, lease, license, sell, rent or otherwise transfer or assign this Software, or any copies of this Software, without the express prior written consent of LICENSOR;
- Make copies of the Software or any part thereof;
- Except as otherwise specifically provided by the Software or this Agreement, use or install the Software (or permit others to do same) on a network, for on-line use, or on more than one console at the same time;
- Copy the Software onto a hard drive or other storage device and must run the Software from the included DVD and/or CD-ROM (although the Software may automatically copy a portion of itself onto your console during installation in order to run more efficiently);
- Use or copy the Software at a computer gaming center or any other location-based site; provided, that LICENSOR may offer you a separate site license agreement to make the Software available for commercial use;
- Reverse engineer, decompile, disassemble or otherwise modify the Software, in whole or in part;
- Remove or modify any proprietary notices or labels contained on or within the Software; and
- transport, export or re-export (directly or indirectly) into any country forbidden to receive such Software by any U.S. export laws or accompanying regulations or otherwise violate such laws or regulations, that may be amended from time to time.

LIMITED WARRANTY: LICENSOR warrants to you (if you are the initial and original purchaser of the Software) that the original storage medium holding the Software is free from defects in material and workmanship under normal use and service for 90 days from the date of purchase. If for any reason you find a defect in the storage medium during the warranty period, LICENSOR agrees to replace, free of charge, any Software discovered to be defective within the warranty period as long as the Software is currently being manufactured by LICENSOR. If the Software is no longer available, LICENSOR retains the right to substitute a similar program of equal or greater value. This warranty is limited to the storage medium containing the Software as originally provided by LICENSOR and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

Except as set forth above, this warranty is in lieu of all other warranties, whether oral or written, express or implied, including any other warranty of merchantability, fitness for a particular purpose or non-infringement, and no other representations or warranties of any kind shall be binding on LICENSOR.

When returning the Software subject to the limited warranty above, please send the original Software only to the LICENSOR address specified below and include: your name and return address; a photocopy of your dated sales receipt; and a brief note describing the defect and the system on which you are running the Software.

IN NO EVENT WILL LICENSOR BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE SOFTWARE, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. LICENSOR'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR USE OF THE SOFTWARE. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS THAT VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION: This Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of the Software and all of its component parts. You can also end this Agreement by destroying the Software and all copies and reproductions of the Software and deleting and permanently purging the Software from any client server or computer on which it has been installed.

U.S. GOVERNMENT RESTRICTED RIGHTS: The Software and documentation have been developed entirely at private expense and

are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/ Manufacturer is the LICENSOR at the location listed below.

EQUITABLE REMEDIES. You hereby agree that if the terms of this Agreement are not specifically enforced, LICENSOR will be irreparably damaged, and therefore you agree that LICENSOR shall be entitled, without bond, other security, proof of damages, to appropriate equitable remedies with respect any of this Agreement, in addition to any other available remedies.

INDEMNITY: You agree to indemnify, defend and hold LICENSOR, its partners, licensors, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Software pursuant to the terms of the Agreement.

MISCELLANEOUS: This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under New York law as such law is applied to agreements between New York residents entered into and to be performed within New York, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in New York, New York.
