READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision

- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

The Rock Meter

The Rock Meter is the ultimate gauge for how you are doing. It will show you your points, note streak, and how much Star Power you have.

The Multiplier Meter

If you can nail a series of notes perfectly then you'll receive a handy "Score Multiplier" which is 2-4X the value of each note you hit. In Band Play the Band multiplier will increase as more band members are in Star Power together. Mess up and your score multiplier vanishes.

Difficulty Settings

- **Beginner:** The player only needs to hit the lines that come down the note highway on time. For vocals, just sing the words on time.
- **Easy:** Get your feet wet with this difficulty. This difficulty setting only utilizes some of the playing techniques.
- **Medium:** This difficulty setting brings notes a little faster and introduces new playing techniques.
- **Hard:** Notes come down faster and advanced skills are needed if you expect to rule in this difficulty setting.
- **Expert:** This insane difficulty will have you frantically using all the techniques you've learned.

Song Results Screen

- **Grade:** The scale goes from 3 to 5 stars, with 5 being the best.
- **Score:** This is the overall score you received on your song.
- **Note Streak:** Find out how long you went without making a mistake and missing a note.
- **Notes Hit:** This tells you the percentage of notes you hit in the song.

(If that wasn't enough data for you...there's even more stats available by selecting the "More Stats" option)

How Do I Get Star Power?

- **Gain Star Power** by nailing a series of star-shaped notes that glow. You have to nail the entire sequence, otherwise you're out of luck. You can gain even more Star Power by using the Whammy Bar or Slider Bar on long Star Power Notes. Once your Star Power is at least half-full it'll flash and you're ready to unleash Star Power.
- **Guitar Controller:** Tilt Guitar Hero guitar controller or press the Star Power Button to activate Star Power.
- **Drum Kit Controller:** Hit Yellow and Orange Cymbal Pads simultaneously to activate Star Power.
- **Microphone:** Tap the top of the microphone or press either of the following buttons: (A), (B), (X), (Y) on the DUALSHOCK@2 analog controller to activate Star Power.

Guitar Battle Rules

Hit each series of Battle Gems to collect Attacks. Once you have collected an Attack, tilt your guitar controller to Attack your foe. You have to make them fail before the end of the song, but be careful, they can battle back!

Guitar Battle Attacks

- **Broken String:** Use this attack to break one of your opponent's strings. The button on the guitar controller won't work until they fix it by rapidly tapping that button until it is repaired.
- **Difficulty Up:** This attack will increase the difficulty on your opponent's note chart.
- **Amp Overload:** This attack causes the scrolling fret board on your opponent's screen to shake and flash, making it extremely difficult to read which notes are approaching.
- **Whammy Bar:** Use this attack on your opponent to force them to move the Whammy Bar fast before they can play notes again.
- **Power-Up Steal:** This attack steals your opponent's attack before they can use it. If they don't have one to steal and you activate this power, you'll lose it.
- **Double Notes:** Deploying this attack forces your opponent to double up on how many notes they have to play.
- **The Lefty/Righty Flip:** The Lefty/Righty Flip Attack swaps the note chart around opposite to how your opponent would normally play the game.
- **Mines:** The notes on the opponent's note track get populated with black and white transparent gems that explode and do the player damage if they are hit.
