INTRODUCTION

WHAT'S A LOWRIDER?

Confronted with poverty in Los Angeles during the 1950's, many Americans on the West Coast found a new hobby by refurbishing old cars, restoring their bodies and repainting them to a showroom condition. This was the beginning of a car customizing tradition. Today, car enthusiasts have taken their hobby to a whole new level, customizing cars with ever more artistic designs, major hydraulics and sound systems. These modified cars, and the people who build and drive them, are now known as lowriders.

GOLDEN DAYS

Our story begins in a quiet Southern California town near the Mexican border. As the main character, you have just purchased a used Impala and started lowriding with your best friends. At first, you were content to practice some fundamentals of the hobby, hopping alone in a vacant lot. But now you're ready for more. You yearn to make your debut in the big city. Trick out your car and head over to Bayside, West Side, and finally on to the Super Show in Las Vegas!

COMPETTION TIPS

Monitor your car's damage and battery level in Hop, Dance, Bed Dance, and Unlimited competitions. If your damage meter is full or your battery runs out, you won't be able to move your car even if time remains. Be especially careful of your car's condition during events.
