FRANCHISE MODE

Build a team from the ground up or start with your favorite team with its current-day rosters, then try to stay on top for three full decades. To begin a franchise, choose the number of users, determine whether you will conduct a fantasy draft, set a trade deadline, and then select the team for each user. Choosing the TOTAL CONTROL SIMULATION option lets you call the shots from the sideline without actually playing the games.

FANTASY DRAFT

If you conduct a fantasy draft, you have 49 rounds to fill out your roster. Pay attention to a player's rating, age, and required cap room.

THE FRANCHISE SCHEDULE

From training camp to the off-season, you're in charge.

Training Camp—Put your players through drills and earn points to boost their attributes. You can skip camp if you want, but your players will suffer.

Preseason—Finalize your roster and evaluate rookies before the regular season. The Position Battles screen shows who's fighting for the same position. Your preseason depth chart is automatically set: starters play the first half, rookies and backups play the second half.

During the Season—You can make trades before the sixth week of the season, sign free agents, and change game settings. Even if your team doesn't make the playoffs, you can still play any postseason game including the Super Bowl and Pro Bowl.

Owner Mode Off-Season—Hire your staff, set your team's ticket prices, build your own stadium, reward key players with signing bonuses, and more. Keep the fans happy while making sure you aren't losing money.

Off-Season—There are 11 steps to the off-season that you must complete before beginning a new season. If you wish to skip any steps, you can simulate past them. However, if your Coaching Options are not set to CPU for a given step, your team won't participate in or benefit from that step.

Spawn games are games you save then play outside of Franchise mode. Merge the results back to your Franchise season to continue. If you make changes to your Franchise or start a new Franchise after spawning a game, you won't be able to merge the results of that spawned game. Also, if you delete a Franchise file, any spawned game results attached to it become unusable.

FRANCHISE MENU

Keep track of everything going on around the league and with your team. The following key menu options become available at different times of the year:

- Gameplan** Get the all the information you need to prepare for your upcoming game, including key plays and opposing players to watch.
- Storyline Central** Stay on top of the league and your team by reading national and local newspapers, reviewing emails from coaches, and listening to Tony Bruno's weekly radio show.
- Rosters** View team rosters and make all player movements and transactions.
- My Franchise** Review the Madden Cards you've earned and what it's going to take to earn more, set the coaching, gameplay, and system settings for your franchise, and save your progress.
- Owner's Box** Keep an eye on the balance sheet while you set ticket, concessions, and team merchandise prices. Fan support, attendance, and other details can maximize your earnings. Your advisors are a great source of information.

NEW NFL SUPERSTAR: HALL OF FAME

Create an NFL Superstar and guide his life from pre-draft workouts through his entire career, and hopefully all the way to the Pro Football Hall of Fame in Canton. If you play your cards right, you could land a movie role, an endorsement or two, and some other nice perks along the way.

CREATING YOUR SUPERSTAR

You'll be able to set yourself up for success all the way from the beginning by selecting the perfect set of DNA. Look for the right set of parents for the type of player you want to become. Next, fill out your personal information and choose your build—make sure you pay attention to the Appearance bar on the bottom of the screen when creating your build.

NOTE: You can get a head start by importing a player you've already created from *NCAA® Football 07*.

MY APARTMENT

Your apartment is where you'll find everything you need to navigate your way around the NFL. From checking cellphone messages to keeping up on your schedule, make sure you familiarize yourself with every item in your apartment because you'll need all of it to be successful.

BECOMING A HALL OF FAMER

Work your way towards the Pro Football Hall of Fame by gaining influence throughout your career by performing well in games and meeting season, career, and media goals. Keep an eye on the Hall of Fame Board—if you're listed in the top five active players in your position, you're guaranteed a spot in Canton.

GAINING INFLUENCE ON GAMEDAY

Position-specific milestones earn influence, like when quarterbacks gain influence by completing passes, throwing touchdowns, etc., and lose influence by throwing interceptions, getting sacked, etc. You also gain and lose influence for what your teammates do while you're on the field. An overlay appears at the end of each play you're involved in showing the influence events and how much influence was gained or lost. Clutch moments increase the influence gains/losses.

GAMEPLAY

You can only control your Superstar from his perspective when he is on the field. When your Superstar is off the field, you can either play the game like you normally would or watch an accelerated version of the game. The new Playcalling screen shows the play the coach has selected and your Superstar's key stats for that game. You are not able to select your own plays.

ROLES

You earn position-specific roles based on different factors like career stats, career influence, ego, and more. Each role allows you to affect teammate, opponent, and personal attributes. The higher your influence, the more drastic your effect on others.

EGO

Your ego comes into play when determining roles and influence gains/losses. Gain positive ego by answering interviews in a team-oriented, professional manner. Negative ego comes from answering questions selfishly. Extreme positive and negative egos affect every in-game influence gain/loss, unlock ego-specific roles such as the Team Leader or Lone Wolf, and open certain endorsements opportunities.

NEW NFL NETWORK MODE

The new NFL Network mode is a great way to master certain plays and see how complicated NFL plays come together. Sterling Sharpe walks you through and breaks down three plays from each offensive and defensive playbook. Once you practice the plays, you can unleash them on unsuspecting opponents.

PLAY ONLINE

Thanks to online gaming, a great match-up is always waiting for you any time of any day.
