RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

FRANCHISE

Build a team from the ground up or start with your favorite team with its current-day rosters, then try to stay on top for three full decades.

To begin a franchise, choose the number of users, determine whether you will conduct a fantasy draft, and then select the team for each user. Choosing the TOTAL CONTROL SIMULATION option lets you call the shots from the sideline without actually playing the games.

FANTASY DRAFT

If you conduct a fantasy draft, you have 49 rounds to fill out your roster. Pay attention to a player's rating, age, and required cap room.

The Franchise Schedule

From training camp to the off-season, you're in charge.

Training Camp—Put your players through drills and earn points to boost their attributes. You can skip camp if you want, but your players will suffer.

Preseason—Finalize your roster and evaluate rookies before the regular season. The Position Battles screen shows who's fighting for the same position. Your preseason depth chart is automatically set: starters play the first half, rookies and backups play the second half.

During the Season—You can make trades before the sixth week of the season, sign free agents, and change game settings. Even if your team doesn't make the playoffs, you can still play any postseason game including the Super Bowl and Pro Bowl.

Owner Mode Off-Season—Hire your staff, set your team's ticket prices, build your own stadium, reward key players with signing bonuses, and more. Keep the fans happy while making sure you aren't losing money.

Off-Season—There are 11 steps to the off-season that you must complete before beginning a new season. If you wish to skip any steps, you can simulate past them. However, if your Coaching Options are not set to CPU for a given step, your team won't participate in or benefit from that step.

Spawn games are games you save then play outside of Franchise mode. Merge the results back to your Franchise season to continue. If you make changes to your Franchise or start a new Franchise after spawning a game, you won't be able to merge the results of that spawned game. Also, if you delete a Franchise file, any spawned game results attached to it become unusable.

NEW FANTASY CHALLENGE

Leverage your fantasy football knowledge by drafting the ultimate NFL dream team. Play through three competitive leagues with your fantasy squad in hope of increasing your roster point budget, adding more elite superstars to your team, and reaching the fourth and final Supreme League.

Leagues consist of eight teams in two different divisions, with each league becoming more difficult as you advance. Your goal is to advance through all four leagues and become the Fantasy Challenge Champion.

SETTING UP YOUR TEAM

Before playing games and raiding other squads, you'll need to build your team through one of four different ways. You can take to the field with the players from your Favorite Team, participate in a 15-round Mini-Draft, hand pick players from all 32 NFL teams in the Dream Draft, or get nostalgic and participate in the Hall of Fame Draft.

NEGOTIATIONS AND TRADES

After your team is assembled, you'll be asked to protect your most valued players. Those who are left unprotected will be vulnerable to negotiations from rival teams. If a team offers your player more roster points, you'll have the option to either match their offer or release the player.

Trades, on the other hand, can be made for either protected or unprotected players of the same position. You may have to sweeten the pot by throwing in a few roster points in order for the other team to accept.

ROSTER POINTS

Roster Points are used primarily to lure other players to your team. You start off with a limited budget and are free to spend points immediately. If you find yourself getting low on roster points, don't worry, you can earn more throughout the season by winning games or Mini-Game Challenges.

MINI-GAME CHALLENGES

Occasionally after a game, a rival team will propose a Mini-Game Challenge with either a player or roster points at risk. If you win, you can either acquire a better player, roster points, or skill points, which are used to improve your players.

FANTASY CHALLENGE MAIN MENU

- Rosters** Let the wheeling and dealing begin. Upgrade your squad by negotiating to or trading for players on other teams.
- Team Schedule** Head to the field by selecting a game on the schedule. You can also view the team matchup and league standings from here.
- My Fantasy Challenge** See which Madden Cards need to be earned in order to complete your book, adjust audibles, Hot Routes, and packages, set your gameplay and system settings, and save your progress.

NFL SUPERSTAR: HALL OF FAME

Create an NFL Superstar or play as a rookie from the 2007 NFL Draft Class and guide his life from pre-draft workouts all the way to the Pro Football Hall of Fame. After filling out a Registration Form and adjusting your Attributes and Build, your career begins. If you wish, you can get a head start by importing a player you've already created from *NCAA® Football 08*.

MY APARTMENT

Your apartment is where you'll find everything you need to navigate your way around the NFL. From checking messages to keeping up on your schedule, make sure you familiarize yourself with every item in your apartment because you'll need all of it to be successful.

BECOMING A HALL OF FAMER

You work your way towards the Hall of Fame by gaining influence throughout your career by performing well in games and meeting season, career, and media goals. Keep an eye on the Hall of Fame Board—if you're listed in the top five active players in your position, you're guaranteed a spot in the Hall of Fame.

GAINING INFLUENCE ON GAMEDAY

Position-specific milestones earn influence, like when quarterbacks gain influence by completing passes, throwing touchdowns, etc., and lose influence by throwing interceptions, getting sacked, etc. You also gain and lose influence for what your teammates do while you're on the field. An overlay appears at the end of each play you're involved in showing the influence events and how much influence was gained or lost. Clutch moments increase the influence gains/losses.

GAMEPLAY

You can only control your Superstar from his perspective when he is on the field. When your Superstar is off the field, you can either play the game like you normally would or watch an accelerated version of the game. The Playcalling screen shows the play the coach has selected and your Superstar's key stats for that game. You are not able to select your own plays.

ROLES

You earn position-specific roles based on different factors like career stats, career influence, ego, and more. Each role allows you to affect teammate, opponent, and personal attributes. The higher your influence, the more drastic your effect on others.

EGO

Your ego comes into play when determining roles and influence gains/losses. Gain positive ego by answering interviews in a team-oriented, professional manner. Negative ego comes from answering questions selfishly. Extreme positive and negative egos affect every in-game influence gain/loss, unlock ego-specific roles such as the Team Leader or Lone Wolf, and open certain endorsement opportunities.

NEW SKILL DRILLS

In this progressive learning tool, four separate drills focus on skill sets that you may only use on occasion. In time, you'll learn how to use game controls under pressure which will help you improve and become a better player. Advanced and multiplayer modes allow you to fine-tune your skills or challenge a friend to a head-to-head competition.

NEW RING OF A CHAMPION

Use in-game accomplishments in various game modes to help customize your own championship ring. From playing through three seasons in Franchise mode to negotiating a player away from another team in Fantasy Challenge, there are plenty of challenges to overcome. After fulfilling a task listed in the Ring of a Champion menu, a new diamond or stone appears on your ring. How much bling will you have?
