### STEAL

**vt. {stole stolen}** to perform an action in a silent, secretive manner.

**vi.** to proceed secretly, to sneak, to move silently.

**n. stealth** the act of moving silently and secretly.

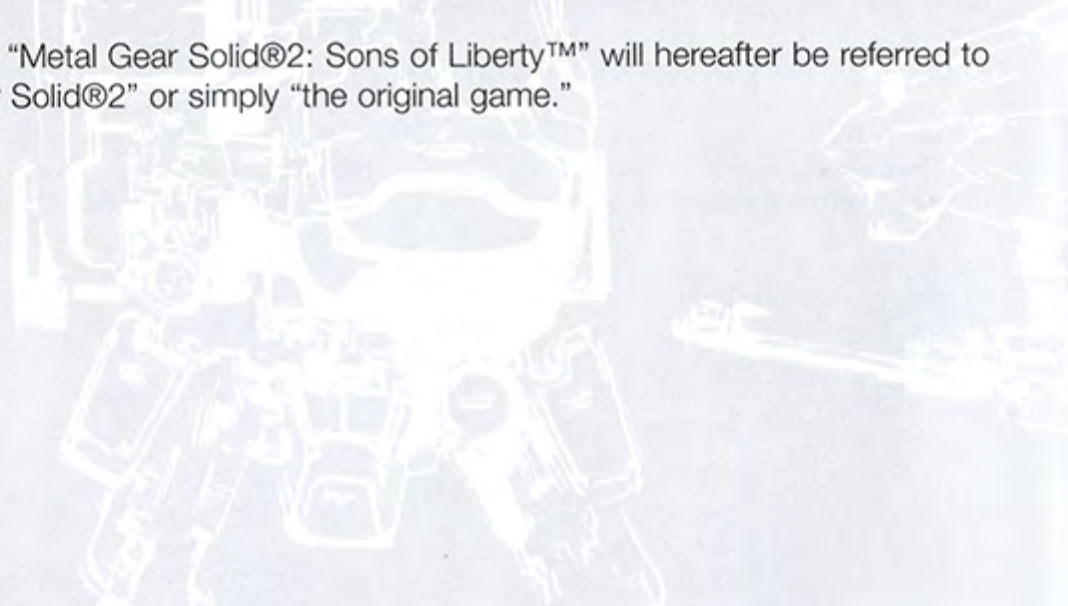

“Metal Gear Solid®2” is a tactical espionage action game.

The player must single-handedly infiltrate a facility under enemy control and carry out a covert operation.

If an enemy soldier spots the player, the soldier will call his comrades and attack. Since the player doesn't stand much of a chance when vastly outnumbered in battle, unnecessary conflict should be avoided whenever possible.

“Metal Gear Solid®2” is composed of the original game, “Metal Gear Solid®2: Sons of Liberty™”, a “Missions” pack featuring new stages to play, five additional playable stories called “Snake Tales” and a special skateboarding mode.

In this manual, “Metal Gear Solid®2: Sons of Liberty™” will hereafter be referred to as “Metal Gear Solid®2” or simply “the original game.”

## **THE OUTER HEAVEN UPRISING FROM "METAL GEAR" (RELEASED 1987)**

FOXHOUND agent Solid Snake infiltrates Outer Heaven, a fortress-nation deep in the heart of South Africa, and destroys their prototype weapon Metal Gear, a walking tank with nuclear capability. In the process, he discovers that the leader of Outer Heaven is none other than Big Boss, the supreme commander of FOXHOUND, and puts an end to his former comrade's twisted schemes.

## **THE ZANZIBAR LAND DISTURBANCE FROM "METAL GEAR 2: SOLID SNAKE" (RELEASED 1990)**

After surviving the Outer Heaven incident, Big Boss escapes to Zanzibar Land and sets up an independent military regime with the hope of creating a world of strife, the only kind of world a born soldier can truly enjoy. At the request of FOXHOUND, Solid Snake infiltrates Zanzibar Land and again destroys Metal Gear, which had been transferred to Zanzibar Land following the collapse of Outer Heaven. He triumphs once again in a final, decisive battle with Big Boss and ensures the downfall of Zanzibar Land.

## **THE SHADOW MOSES ISLAND INCIDENT FROM "METAL GEAR SOLID" (RELEASED 1998)**

On Shadow Moses, a remote island off the coast of Alaska, FOXHOUND leads an armed uprising and seizes the new Metal Gear REX in the single biggest act of terrorism in history. At the request of the government, Col. Roy Campbell, the former commander of FOXHOUND, summons Solid Snake out of retirement and sends him to infiltrate Shadow Moses Island in one last solo covert operation.

Snake must penetrate deep into the heart of a nuclear weapons facility. Aiding him in his mission are Dr. Hal Emmerich, aka Otacon, a former Metal Gear developer; Meryl, Col. Campbell's niece; and a team of the top specialists in each field, who communicate with Snake via the Codec. In the middle of his battle against the members of FOXHOUND, Snake encounters a cyborg ninja, who thirsts only for battle. This mysterious figure's true identity turns out to be Grey Fox, Snake's former FOXHOUND comrade who defected to the enemy and fought against Snake in Zanzibar Land. After destroying Metal Gear REX, Snake confronts the head of the terrorist group, Liquid Snake. Each of the Snakes, Liquid and Solid, carries the genes of the 20th century's greatest soldier, Big Boss. With the support of the cyborg ninja, Solid Snake fights a decisive battle with Liquid. After a long and protracted struggle, Snake finally defeats Liquid and leaves the legacy of Shadow Moses behind him.

"Metal Gear Solid®2" is composed of two chapters: The "Tanker Chapter" and the "Plant Chapter."

#### **TANKER CHAPTER**

Following the incident on Shadow Moses Island, Metal Gear's top-secret technology was leaked into the black market through the machinations of Revolver Ocelot. As a result, countless variations of Metal Gear have sprung up in every corner of the globe, making the weapon an increasingly common sight in the armed forces of nuclear powers. In the midst of all this, Solid Snake, now a member of the anti-Metal Gear group "Philanthropy" has learned that a new prototype Metal Gear has been developed by the U.S. Marines and is being transported in secret to an unknown destination. To find out more about this prototype, Snake must infiltrate the transport as it makes its way down the Hudson River disguised as a tanker. However, just as Snake is about to begin his mission, the tanker is seized by a mysterious armed group.

#### **SOLID SNAKE**

The legendary hero who has thrice saved the world from the menace of Metal Gear in the past, Solid Snake is an infiltration expert who always completes his mission no matter how difficult the odds. Originally a member of FOXHOUND, now a member of the NGO "Philanthropy," an anti-Metal Gear group.

**PLANT CHAPTER**

The "Big Shell" is a huge offshore cleanup facility constructed off New York's coast that serves as a symbol of environmental preservation and is now occupied by a terrorist group calling themselves the "Sons of Liberty." The President, who was on a tour to inspect the facility at the time, has been taken hostage, and the Sons of Liberty have demanded a large sum of money from the government in exchange for his release. If this demand is not met, they have threatened to detonate a series of bombs placed around the Big Shell, releasing huge amounts of chemical toxins into the sea and unleashing a massive environmental disaster. Faced with an unprecedented state of crisis, the government has called on the newly reformed FOXHOUND to handle the situation. FOXHOUND's chosen agent, Raiden, must single-handedly infiltrate the "Big Shell" from underwater and carry out a covert operation.

**RAIDEN**

A member of the special forces unit FOXHOUND, Raiden has no experience in real-life combat situations, but his skills as a soldier have been honed to the highest levels through VR simulation training. The infiltration of the Big Shell is his first actual mission.

**.JAMMING**  
RADAR : NO USE

**WHEN THE SIGNAL IS JAMMED**

The radar cannot be used if the signal is being jammed. Also, any equipment containing electronic components, such as surveillance cameras and remote control missiles, will not function properly. Furthermore, enemy soldiers will not be able to use the radio to call for backup.

While in Normal mode, enemy soldiers will follow a set patrol route. When the player is spotted by an enemy soldier or surveillance camera, the game enters Alert mode.

**NORMAL MODE**

- The radar can be used in this mode.

This is the default state, when the player has not been discovered by enemy soldiers or surveillance cameras.

While in Normal mode, enemy soldiers will follow a set patrol route. While on patrol, enemy soldiers will use their eyes and ears to check for anything unusual on their patrol route. Some soldiers might stand guard in a single spot, while others might fall asleep on duty.

When a soldier in normal mode hears a noise or spots something suspicious, such as footprints or bloodstains, he will leave his patrol route and search the surrounding area. If he finds nothing out of the ordinary in the area, the soldier will return to his patrol route. Creating noises to distract enemy soldiers is an essential technique to master.

**VARIOUS MARKS WILL APPEAR ABOVE THE ENEMIES' HEADS, INDICATING THEIR STATUS****UNCONSCIOUS****SLEEPING****DISCOVERY****SUSPICIOUS**

## ALERT MODE

**.ALERT**  
RADAR : NO USE

- The radar cannot be used in this mode.

The state in which the player has been discovered by enemy soldiers or surveillance cameras is called "Alert mode." In Alert mode, enemy soldiers call for backup and attack.

You can get out of Alert mode only by eluding the enemy soldiers or defeating a certain number of them.

After escaping from the enemy's field of vision, the gauge at the bottom of the radar will begin to decrease. When it reaches zero, the game switches to Evasion mode.

## EVASION MODE

**.EVASION**  
RADAR : NO USE

- The radar cannot be used in this mode.

In this mode, enemy soldiers will search the vicinity after losing sight of the player.

When the player eludes the enemy soldiers by hiding under a table or in a locker, the enemy soldiers may perform a "Clearing." This means that the soldiers will conduct a sweep of the area and "clean out" any spots where they suspect the player may be hiding.

When the clearing is complete, or after searching for a certain period of time, the enemy soldiers will switch to Caution mode.

## CAUTION MODE

**.CAUTION**  
RADAR : NORMAL

- The radar can be used in this mode.

In Caution mode, enemy soldiers will be more vigilant than usual in their patrols. In certain cases, extra soldiers may be added to the patrols as well.

In order to avoid detection, it's essential to have a thorough knowledge of the surrounding terrain and the enemy's movements.

Face a wall or similar surface and press and hold the left analog stick in that direction to flatten against a wall. Depending on the location, flattening may cause the camera to switch to Corner View, making it easier to view the surrounding area.

## PICKING UP ITEMS

Items are acquired by collecting Item Boxes. The contents of an Item Box can be inspected in First Person View mode. There are limits to how many of each type of item can be carried at once. When the limit for a particular type of item has been reached, additional items of that type may not be picked up. Attempting to do so will cause the message "FULL" to appear onscreen. Also, attempting to pick up ammunition for a weapon not currently in possession will cause the message "GET (weapon name) FIRST" to appear onscreen.

**DOG TAG VIEWER**

Select this option to view a list of all the dog tags (ID badges) collected so far from enemy soldiers during the game.

### WHAT ARE "DOG TAGS"?

"Dog tags" are ID badges worn by soldiers so that they can be identified if killed on the battlefield. Information such as name and blood type is engraved on the tags.

### ACQUIRING DOG TAGS

Enemy soldiers can be "held up" by sneaking up behind and sticking a gun in their back.

In First Person View, searching an enemy soldier's head or waist while his hands are up will reveal a dog tag Item Box.

- Enemy soldiers who are carrying dog tags will show a telltale flash of light around their necks when held up. Equip the Thermal Goggles to determine whether a soldier is carrying dog tags.

### WHEN DOG TAGS ARE POSSESSED

When one or more dog tags are in possession, a dog tags icon will be included in the Equipment icons.

**DOG TAG ICON:** Total number of dog tags currently possessed.

The number of dog tags collected so far is recorded in saved game data. As more dog tags are collected, bonus elements will be added to the game.

**NOTE:** Whether or not a certain enemy soldier is carrying dog tags is determined by the game's difficulty setting. To collect all the dog tags in the game, all difficulty settings must be completed.

**NOTE:** The names engraved on the dog tags are the names of the game's staff as well as the winners of the "Name Recruitment Contest" held on Konami Computer Entertainment Japan's web site from March to June 2001 and September 2002. There are also other, rarer dog tags to be found.

## DIGITAL CAMERA / pg 033b

The digital camera is a special kind of equipment.

When the digital camera is equipped, the screen will switch to the camera's viewfinder. Press the Punch (⊙) button to zoom in and the Crawl (⊗) button to zoom out. Press the Weapon (Ⓜ) button to snap a picture.

Photo data taken with the digital camera can be saved on a memory card (8MB) (for PlayStation®2). (Required space: 35KB)

Picture data taken with the digital camera can be viewed by choosing "SPECIAL" at the title menu, then "Photo Album" (see SPECIAL pg 032).

**HOLD-UPS**

With a gun equipped, sneak up behind an enemy soldier's back and press the Weapon (Ⓜ) button lightly to stick the gun in the enemy's back and perform a hold-up. The soldier will be unable to attack while his hands are raised, but he will take advantage of any opening to turn the tables.

**SHAKEDOWN**

With no weapon equipped, stand next to an unconscious or sleeping enemy soldier and press the Weapon (Ⓜ) button to pick the body up. Release the button to drop it. Doing this repeatedly will sometimes cause the soldier to drop an Item Box.

**TACTICAL RELOAD**

Pausing to reload a weapon in the middle of a battle leaves one defenseless against enemy attack. Avoid running out of ammunition during a firefight by pressing the Weapon menu (R2) button twice quickly to replace the magazine before it runs out of ammo.

**STRAFING**

Equip a handgun or assault rifle-type weapon and hold the Lock-on (L1) button down to run and shoot at the same time.

**JUMP-OUT SHOTS**

While in Corner View, equip a gun and press the Weapon (Ⓜ) button to jump out firing. Use this technique to quickly launch a surprise attack from a hiding place. Grenade-type weapons can be thrown while peeking around the corner.

**WHEN SOMEONE CALLS, BE SURE TO ANSWER**

When receiving a CALL from someone, the CALL sign will appear onscreen. Press the SELECT button while the CALL sign is being displayed to answer the CALL and begin communication. CALLs can provide useful information such as explanations of game controls, gameplay hints, and details about the mission. When the CALL sign is red, you will automatically receive the CALL. Even if the CALL sign is green, always be sure to answer.

**AVOID BATTLES WHENEVER POSSIBLE**

In a battle situation, enemy soldiers will call for backup and attack in full force. Even if the player somehow manages to survive a battle against overwhelming odds, the damage incurred will probably be severe. Be as stealthy as possible to avoid being discovered by the enemy.

- Make good use of the radar as well as Corner View and First Person View modes to sneak behind the enemy's back and escape detection.

Whenever possible, find a place to hide and let patrolling enemy soldiers go past.

**USE WHATEVER ITEMS YOU CAN FIND**

The only way to acquire the weapons and equipment necessary to complete the mission is to pick them up along the way. Items are often hidden in lockers and under tables. If something looks suspicious, take a closer look.

- Some hidden items can only be discovered in Corner View / First Person View modes.

**BLOOD LOSS**

When your Life Gauge is low, it becomes orange. You will not stop bleeding and your life will keep on diminishing. To stop blood loss, use the item "Bandage" or crouch or assume crawl position for a while.

**USE THE TRANQUILIZER GUN TO PUT ENEMIES TO SLEEP WITHOUT A FIGHT**

The Tranquilizer Gun, found during the course of the game, can put enemy soldiers to sleep. Use the Tranquilizer Gun to put enemy soldiers out of commission without having to fight.

The timer displayed above a sleeping soldier's head indicates the remaining time until the soldier wakes up. The timer decreases over time, and when it reaches zero, the soldier regains consciousness.

- On VERY EASY difficulty, the player begins the game equipped with an M9 rifle modified for tranquilizer rounds (Plant Chapter).
- By using tranquilizer rounds, it is possible to complete the game without killing a single person, including boss enemies.

**TANKER CHAPTER (USING NORMAL DIFFICULTY SETTING)**

**INITIAL OBJECTIVE**

The objective of the Tanker Chapter is to obtain photographic evidence of the new, top-secret Metal Gear model. Your first task is to sneak into the inner part of the tanker to discover its purpose and its final destination.

**1. USE THE M9 (TRANQUILIZER GUN) TO PUT THE ENEMY SOLDIER TO SLEEP**

First, put the enemy soldier guarding the deck of the tanker to sleep. The time needed for a tranquilizer dart to take effect depends on where it strikes the target. Hitting an enemy soldier in the head or in the region of the heart will instantly put him to sleep. To achieve this level of precision, press and hold down the R1 to make your shot in First Person View.

**2. EXAMINE THE RADAR**

The radar displays not only the locations of enemy soldiers, but also their respective field of vision. Use the radar to avoid entering the enemy's field of vision. You can even sneak right up behind an enemy soldier's back as long as you stay out of the soldier's field of vision.

**3. PICK UP THE ITEM BOX; KEEP THE RATION EQUIPPED**

Pick up the Item Box lying on the deck to obtain a Ration. Rations are very useful items. When equipped, they automatically restore health when the Life Gauge drops to zero. Beginners should keep the Ration equipped as their default item, just in case.

**4. MASTER THE USE OF CORNER VIEW**

Flattening against the wall will cause the camera to switch to Corner View, allowing you to peek around corners and observe the movements of enemy soldiers outside of radar range. While in Corner View, use the right analog stick to change the camera angle and press the L2 / R2 buttons to take one step left / right. Use these techniques to scope out the surrounding area without being seen.

**5. IF THE ENEMY FINDS YOU**

If enemy soldiers discover you, they will radio for backup and attack. Avoid direct confrontation as much as possible and find a safe place to hide from the enemy. If an enemy's attack draws blood, use a bandage to stop the bleeding immediately or you will leave a telltale trail of blood behind you.

**6. SHAKE DOWN THE BODIES OF SLEEPING ENEMY SOLDIERS**

With no weapon equipped, stand next to a sleeping enemy soldier and press the Weapon (R2) button to pick the body up. Release the button to drop it. Doing this repeatedly will sometimes cause the soldier to drop an Item Box.

**7. OPEN THE HATCH AND PROCEED INSIDE THE TANKER**

Stand in front of the hatch and press the Action (A) button to grip the handle. Continue to hold the button down to turn the handle and open the hatch. This is not the only entrance to the inside. Look for other entrance(s) yourself.

**PLANT CHAPTER (USING NORMAL DIFFICULTY SETTING)**

**INITIAL OBJECTIVE**

In the Plant Chapter, Raiden's mission is to rescue the President and disarm the enemy. Your first task is to rescue the President.

**1. BECOME FAMILIAR WITH THE CONTROLS**

There are no enemy soldiers stationed at the Insertion Point, where the mission starts. Use this place to get used to the various game controls. Move around the room and talk to the Colonel in different locations, such as in the water or in front of the locker, to receive instructions on how to perform various actions.

**2. SQUEEZE INTO TIGHT SPACES BY CRAWLING**

Narrow spaces you can't fit into while standing can sometimes be entered by crawling. Press the Crawl (X) button to squat, then move the left analog stick to begin crawling. To stand back up, press the Crawl (X) button once again.

**3. PICK UP THE ITEM BOXES**

To pick up the Item Box, you'll have to crawl into the duct. There is also an Item Box hidden in the locker. Stand in front of the locker and press the Action (A) button to open the locker.

**4. ACCESS THE NODE TO ACTIVATE THE RADAR**

In the Plant Chapter, the radar cannot be used in a new area until the map has been downloaded from a Node inside that area. In this case, it's best to access a Node while the enemy soldier is unconscious. Stand in front of the Node and press the Action (A) button to access it.

**5. IF THE ENEMY FINDS YOU**

When you access the Node, the unconscious enemy soldier will begin to revive. Quickly find a place to hide. If you are discovered by the enemy soldier, rush back to the Insertion Point and hide in the locker, the duct, or the pool to escape.

**6. GET INTO THE ELEVATOR TO PROCEED**

Once Caution mode has been lifted, the elevator will descend. Use the radar to make sure the enemy can't see you, and sneak into the elevator to proceed.

**NOTE:** The elevator will not start moving when you are in Alert Mode.
