Main Menu

Championship

The championship races are not conventional 3 lap races where the position you cross the line in becomes your place. In MXM3 it's about surviving the length of the race. Races have a set number of laps and a required finishing position (see **Championship** pages 15 - 16) but there is no longer a need to get all the way to the finish. Riders can dispose of their opponents by using the game's cool combat system. Races become a last man standing event where you either knock other riders out of the race by disconnecting them from their bikes or avoid combat to get to the line without being knocked off yourself.

Single Race

Single Race allows you to choose a race mode and compete in a single event on any of the available circuits with any characters and bikes.

Normal Race

Compete in a race where an opponent cannot knock you out of the race. In race mode it is a simple race with the first one over the line winning. If a rider is knocked from their bike they will be remounted and allowed to continue the race.

Last Man Standing

Last man standing races are the same format as the championship events. In this mode players must avoid being knocked from their bike, and either destroy their opponents or safely cross the line.

Time Trial

Your aim is to set a new fastest time on any of the unlocked circuits. If you beat any one of the top ten times during the session a new time appears on the board in place of the time it has dislodged.

Freestyle

The freestyle event is a special stadium based event where the riders compete against each other over a number of obstacles to score points by performing tricks.

Multiplayer

Choose from a number of different multiplayer game modes. See Multiplayer and Mini Games page 18 - 19

Mini Games

Choose from a number of different mini games including Battle Royal and Bomb Tag. See Multiplayer and Mini Games page 19

Throughout the career you are able to upgrade your rider's arsenal and purchase more powerful weapons to dish out more damage to your opposition. Staying Alive & Bringing The Pain

With the objective of Championship being to survive and outlast your competition knowing how to survive and also knowing how to take out the opposition play a big part.

Positioned on the bottom left of the screen in the MANIA meter. This meter gives you a number of advantages in combat. Whilst it is filling you can use the meter's juice for quick boosts of speed, although this will empty the meter. Once the meter is full however your advantages quickly increase.

When the meter is full press the **▲ button** to initiate MANIA mode. This will slowdown the world around you, and gives you twice as much time to dish out punishment to the opposition. To exit MANIA mode before the meter is emptied press the **▲ button** once more.

Watch Your Health

Below the Mania meter is the HEALTH meter. Keep a close eye on this as once its empty you're toast in a Last Man Standing event. There are two stages to your health, overall health and stamina.

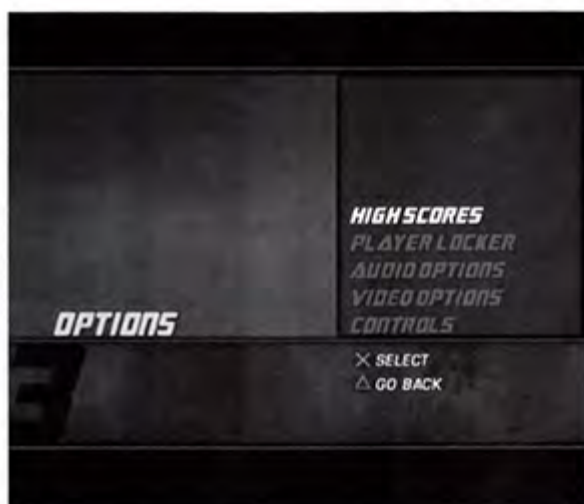

Stamina will empty faster than health and when it hits zero you will be knocked off. But don't worry stamina will refill and you can only be knocked out of the race when your health hits zero.

Championship

This game mode is the heart of *Motocross Mania 3*.

Difficulty Modes

Choose one of the three difficulty modes available. Hardcore mode is only available once you have completed the Challenging mode. Hardcore contains longer tracks and increased combat levels so challenging is a good platform to learn the ways.

I'm A Wimp

Are you new to *Motocross Mania* and just want to unlock some more tracks? I'm a wimp is the simplest and quickest career path; short races and subdued competition, while still proving a good challenge for beginners.

Challenging

A step-up from I'm a wimp, the opposition is now fiercer and races are longer. More tracks and new environments as well as more rewards to unlock.

Hardcore

This is the top-level of racing in *Motocross Mania 3*. It is as much an endurance event as a combat race. You will be able to upgrade to the top-level components and race and fight over the entire area of the environments. Faster and more powerful opposition, as well as more races than the other difficulty modes, await you in Hardcore.

Championship Menu

After choosing your difficulty mode and rider you will arrive in the Championship Menu. This is your place, so check out the Auto Shop, browse your garage or locker, or just get straight to it and hit up the next event.

Auto Shop

The Auto shop provides a number of categories to choose from. Press the directional buttons **←** or **→** to cycle the categories and the **⊗** button to select and browse the contents.

Once on the screen for the sub category in the Auto Shop press the directional buttons **←** or **→** to cycle between the items available. Once you have found an item you like press the **⊗** button on the controller to purchase.

Both New and Used items are available in the Auto Shop. New items will be yours for the duration of your game although used items are cheaper they will only last for one event.

Garage

Browse your available bikes. To begin your rider will have one bike available in the garage. You can win new bikes by beating the opposition during the championship. Every bike has upgrade levels, when you purchase upgrades in the Auto Shop they will be applied to all your bikes.

Player Locker

View Career statistics as well as your current inventory of Bikes, Weapons and Armor.

Next Race

Go to the next race event in the current championship. Choosing this option will take you to the Standings page and then onto the next race event.

Rider Challenges

During the championship you will face challenges from the competition. You can initiate a challenge yourself and take on an opponent to win their bike, or let the opposition challenge you and race for cash.

Either way the challenge will be the best of three events over a series of races. Win two out of the three races and you will be the winner.

To challenge a rider, press the directional buttons **←** or **→** to choose a rider on the standings screen before an event. Once you have picked a rider press the **⊗** button to initiate the challenge.

If you do not choose a rider to challenge then one will challenge you. You must accept or initiate a challenge before advancing to the next race.

MXM3 Pickups

A number of pickup items are scattered around the **Motocross Mania 3** worlds. These range from cash to Speed Boosts. Cash pickups are only available in Championship while all others are in most single player modes.

Multiplayer & Mini Games

Multiplayer and mini games can be played on any of the available tracks with any of the available riders.

Multiplayer

There are numerous multiplayer games available within MXM3. All multiplayer games are simultaneous, and up to two players can enjoy the game at once in all modes. Split screen multiplayer can be played in horizontal or vertical mode.

Single Race

Race with a friend against computer controlled opposition in either a last man standing or Normal race event.

Tournament

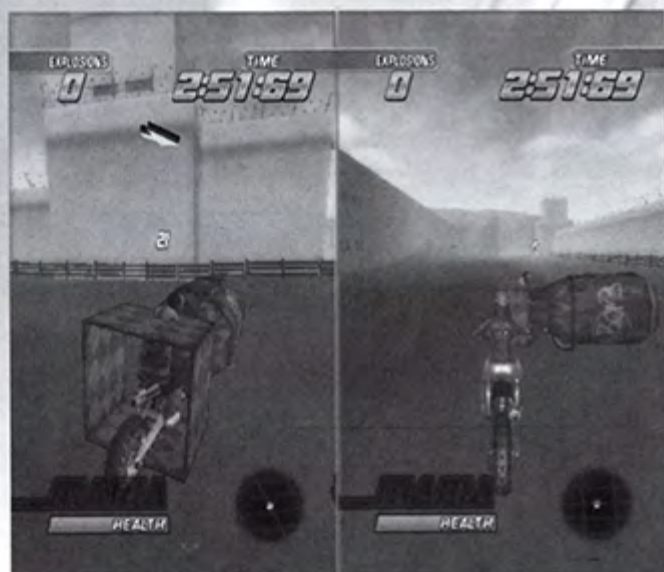

Choose up to 13 tracks and compete in a tournament with a friend against computer-controlled competition.

Once you have chosen your desired riders you will appear on the Track List page. To add a new track to the Track List press the **⊙ button** on the controller. To remove tracks from the list press the **⊞ button** on the controller.

VS Race

Race head to head against a friend in either a Last Man Standing or normal race event.

Mini Games

MXM3 contains a variety of mini games. Mini games will take place on a selection of the available tracks that the player has unlocked. The Battle Royal mini game will also take place within the career mode of the championship offering a distraction from the full on race events.

Battle Royal

Compete in a free for all combat event. Choose between KO or Time based modes. On the race setup page highlight MODE using the directional buttons **↑** or **↓** and the change between game modes using directional buttons **←** or **→**.

Hunter

The Hunter mode pits the players against a number of computer-controlled opponents. The players must knock out the opposition as fast as they can. The player who KO's the most opposition the fastest will win the event.

Bomb Tag

Bomb Tag is a multiplayer only mini game. Bomb Tag pits two players against each other in small arenas. A player will be given a bomb at the start, which will explode after 30 seconds.

To lose the bomb the player must run into their opponent. Once the bomb explodes a new bomb will be randomly assigned and the timer reset. The player with the least KO's at the end of the event will be the winner.

Environments

Woodland

A tightly packed environment, the woodland is made up of paths through trees and jumps over logging. A large lumber mill lies within the woods and the races pass by through clouds of sawdust and buzzing saws. A main logging road passes through the center of the environment with riders having to dodge vehicles as well as the blows from other riders as they

navigate their way back onto the forest tracks.

Canyon County

Open landscapes and large canyons create the red desert landscape. The open landscapes lead into a group of canyons that are home to a small resort, a prison full of rioting prisoners and a large open chasm with platforms to navigate. This is the harshest environment in the game, with little room for error on some of the large canyon gaps.

Boulder Mountain

Part of a range of mountains the races take place along a ski slope. Starting at the top where only the bravest of skiers dare venture the track has some steep and fast descents with gigantic drops and jumps. Icy surfaces and deep snow coupled with avalanches and falling boulders make for an exciting, if not treacherous, environment.

Camp Carnage

Green fields surrounded by small cliffs and bordered by a large lake the military grounds sit quietly away in the countryside. However it is anything but quiet. Tanks roar up and down the road on practice missions, planes fly over head on target practice and the firing range is alive with ammunition rounds being fired 24 hours a day. Broken bridges, marching soldier filled

barracks and firing ranges make up the environment. Full of explosions and ambient activity this makes for a truly unique race experience.

Junk Yard

Heavy machinery, unstable piles of rubble, a busy highway and half finished buildings create a manic environment of noise, obstacles and insane jumps and passages. The races pass through unfinished buildings, over piles of exploding rubble and beneath large pneumatic crushers.

City

The City environment is made up from four separate areas consisting of residential, waterfront, park and business areas. The City environment is a deadly playground with its steep roads, blind corners and heavy traffic. The park and waterfront areas are more relaxed than the busy business and residential areas but still full of surprises.

The Software is being licensed to you and you hereby acknowledge that no title or ownership in the Software is being transferred or assigned and this Agreement should not be construed as a sale of any rights in the Software. All rights not specifically granted under this Agreement are reserved by LICENSOR and, as applicable, its licensors.

OWNERSHIP. LICENSOR retains all right, title and interest to this Software, including, but not limited to, all copyrights, trademarks, trade secrets, trade names, proprietary rights, patents, titles, computer codes, audiovisual effects, themes, characters, character names, stories, dialog, settings, artwork, sounds effects, musical works, and moral rights. The Software is protected by United States copyright law and applicable copyright laws and treaties throughout the world. The Software may not be copied, reproduced or distributed in any manner or medium, in whole or in part, without prior written consent from LICENSOR. Any persons copying, reproducing or distributing all or any portion of the Software in any manner or medium, will be willfully violating the copyright laws and may be subject to civil and criminal penalties. Be advised that Copyright violations are subject to penalties of up to \$100,000 per violation. The Software contains certain licensed materials and LICENSOR's licensors may protect their rights in the event of any violation of this Agreement.

LIMITED WARRANTY: LICENSOR warrants to you (if you are the initial and original purchaser of the Software) that the original storage medium holding the Software is free from defects in material and workmanship under normal use and service for 90 days from the date of purchase. If for any reason you find a defect in the storage medium during the warranty period, LICENSOR agrees to replace, free of charge, any Software discovered to be defective within the warranty period as long as the Software is currently being manufactured by LICENSOR.
