

# MOUNTAIN BIKE ADRENALINE

**⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES**

**READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

---

**Use and handling of video games to reduce the likelihood of a seizure**

- Use in a well-lit area and keep as far away as possible from the television screen.
  - Avoid large screen televisions. Use the smallest television screen available.
  - Avoid prolonged use of the PlayStation 2 system.  
Take a 15-minute break during each hour of play.
  - Avoid playing when you are tired or need sleep.
- 

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**HANDLING YOUR PLAYSTATION 2 FORMAT DISC:**

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## INTRODUCTION

Mountain Bike Adrenaline brings you all the thrills of downhill mountain biking in 4 completely different game modes with fantastic gameplay (Stopwatch, Challenge, Arcade, and Freedom) and 4 magnificently modelled environments.

## MAIN MENU

### STOPWATCH MODE:

This mode offers 2 types of 'race against the clock':

- Downhill, with pure speed
- Cross Country, with icons spread out around the map

Managing the Power Gauge is a key factor for success in this mode.

### CHALLENGE MODE:

This mode features 4 types of trails:

- Dexterity Trails: complete a marked out course without making a mistake.
- Wheelie Trails: complete a marked out course riding only on the back tire!
- Jump Trails: complete the course with the longest possible jumps!
- Set Figure Trails: perform the stunts displayed perfectly, such as the "360°" or the "No Footer"!

Managing the Concentration gauge is a key factor for success in this mode.

### ARCADE MODE:

Arcade mode is all about tricks and freedom of action. Perform a whole host of impressive tricks, such as stunt jumps, accelerations, and wheelies to score points depending on your performance. You can even pull off combos to increase your score.

This mode has three types of challenges:

- Free Arcade: perform as many tricks as you can in a specific time.
- Trick n'Run: perform as many tricks as you can while still getting through the course -- note that to get through the yellow gate you must collect the yellow key.

# GETTING STARTED

Set up your PlayStation®2 computer entertainment system according to the instructions supplied with your system. Check that the system is turned on (the on/standby indicator is green). Insert the MOUNTAIN BIKE ADRENALINE disc in the system with the label side facing up. Attach game controllers and other peripherals as appropriate. Follow the on-screen instructions and refer to this manual for information on using the software.

## Memory Card (8MB)(for PlayStation®2)

To save game settings and progress, insert a memory card (8MB)(for PlayStation®2) into MEMORY CARD slot 1 or MEMORY CARD slot 2 of your PlayStation®2 system. You can load saved game data from the same memory card or any memory card (8MB)(for PlayStation®2) containing previously saved games.

## MAIN MENU - CONTINUED

- Expert Trick n'Run: Similar to Trick n'Run but with two gates and two keys.

### FREEDOM MODE:

Freedom mode gives you the chance to ride all 4 locations without time, course or score constraints. To access this mode you'll need to reach a certain level within the other modes

Use this mode to explore the four maps and identify shortcuts that will help you cut precious seconds from your runs in other modes.

**\* In order to open new maps and modes, you'll need to build up your Global Game percentage -- check it using Statistics from the Main Menu**

**\* In all modes, the damage gauge is a factor, so be careful not to destroy your bike!**

# OPTIONS

Use the Options menu to change various settings such as volume levels and also the vibration function.

You can also choose to save or load a profile from the Options menu.

# RIDING YOUR BIKE

Unlike other racing games you might have played, this game features a bike that is powered by a human, not an engine -- so remember, pressing down on the X button will use up power, and once your power is gone, you'll have a hard time getting any speed. Release the X button when you are coasting downhill to regain power.

Make use of the O button to turn on Concentration mode. When this mode is on, time will run slow allowing you super-fine control over the bike and rider. Use this to your advantage when negotiating difficult sections of the environment, or to help perform amazing stunt combos. Turn it off by pressing O again. When your Concentration bar depletes, the mode will automatically turn off and slowly re-fill.

## HINTS AND TIPS

When you jump, the longer you hold □, the better the take off. You can go faster by quickly changing gears at the right time using R2 and L2.

Don't be slow to hit the brakes and keep control of your bike -- just don't fall over the handlebars! Use L1 and R1 to engage the brakes.

If you find the bike stuck, use the ▢ button and change direction to try and wiggle out of it.

Look for shortcuts to find a better/quicker path to the next gate!
