The 'down and up' motion on the right analog stick should result in a smooth, clean shot when timed properly. Pressing and holding it too long results in the loss of strength (the shot will miss short) while pressing it too quickly results in too much power (you will back-rim the shot). Also, be sure to press the right analog stick straight ↓ then straight ↑. Pressing it up and to the left (or right) pushes the ball to the left (or right) and may result in a missed shot.

NOTE: Pressing the ○ button allows you to simulate the free throw (based on the shooter's free throw ability).

NOTE: Your margin for error depends on the player's free throw ability as well as the game's skill level.

PLAYING THE GAME

TEAM SELECT/JERSEY SELECT SCREEN

After selecting an NBA, All-Star, (includes Classics, Euro, and International All-Star teams), or Team adidas for the upcoming game, you have the option to change your team's jersey for the upcoming game.

STARTING LINEUPS/SETTINGS SCREEN

Storm the court with your starting five or adjust your lineup by bringing in players off the bench. To gain an extra edge, be sure to study up on your EA SPORTS Freestyle Superstars before starting the game.

Once the lineup is set, select the skill level for the next game, along with quarter length, arena location, and camera view. You can also adjust the rules, preferences, gameplay settings, and in-game settings from the Settings screen.

ELEVATE YOUR GAME

EA SPORTS™ FREESTYLE CONTROL

Express yourself with EA SPORTS Freestyle Control. While dribbling, press the right analog stick in any direction to break out a Freestyle move. Making the same shape on the right analog stick results in the same move every time. You can also create combinations of Freestyle moves, so be sure to use Individual Practice mode to help perfect these moves.

NEW EA SPORTS™ TOTAL FREESTYLE CONTROL

Take your game to the highest level with all-new EA SPORTS Total Freestyle Control. Perform the true-to-life moves of eight distinct player types, then elevate your game to the next level by changing skill attributes on the fly.

EA SPORTS™ FREESTYLE SUPERSTARS

With EA SPORTS Total Freestyle Control, EA SPORTS Freestyle Superstars play their game based on the following characteristics: Power, High Flyer, Playmaker, Shooter, Inside Stopper, Outside Stopper, Inside Scorer, and Outside Scorer. Each EA SPORTS Freestyle Superstar, represented on the court by a EA SPORTS Freestyle Superstar player icon, comes loaded with distinct passes, dunks, or signature moves. Put the ball in their hands when the game is on the line.

However, don't be fooled. Although two EA SPORTS Freestyle Superstars may share the same playing style, no two players are alike. For example, a star level High Flyer does not have the same capabilities as a superstar level High Flyer such as Tracy McGrady. His game is more polished than a less experienced player, and so he can do more on the court. Way more.

In addition, while many players come equipped with at least one EA SPORTS Freestyle Superstars type, perennial All-Stars come fully loaded with two or more character types. EA SPORTS Freestyle Superstars like McGrady have as many as six.

When playing with McGrady-type players, be sure to use them to their full potential by switching their EA SPORTS Freestyle Superstar type in the middle of a game. For example, if you're set up as a Playmaker, you can switch to a High Flyer moments after making a highlight pass. As you transition down the court (with the ball), make the switch then finish off the play with a thunderous dunk.

NEW THE X-FACTOR

Every team has a player who goes underappreciated for his grittiness and effort, whether it's drawing a charge when the game's on the line or hitting a clutch three-pointer when the team needs it most. In *NBA LIVE 07*, one player per roster is designated as an X-Factor for each game, and his role changes each game.

Be sure to save your X-Factor for key situations that call for a defensive stop or offensive spark, and activate the X-Factor by pressing and holding the **L1** button plus clicking the **R3** button. For a brief stretch, your X-Factor can step up and play like an EA SPORTS Freestyle Superstar.

NEW INTENSITY

See how intense a situation is at any point in a game. Based on time and score, an Intensity Meter changes colors from blue (low intensity) to flashing red (high intensity). During low intensity situations, the game is more free flowing and open. As the game gets more intense, players become highly alert with the ability to react to situations much quicker.

NEW MOMENTUM

Get a read on your team's momentum. A Momentum Meter appears when your team has generated a significant amount of momentum through scoring runs, defensive stops, and more.

NEW TOUCH PASSING

Make quick passing decisions with the all-new touch passing system. When a pass is in mid-air, call for a second "touch" pass by pressing the pass button and pressing the left analog stick in the direction that you want the pass to go.

QUICK PLAYS

Direct traffic on both ends of the court by calling a Quick Play. On offense, you can run Isolation, Post Up, Pick-and-Roll, or Pick and Pop plays. On defense, the 3-2 Zone, Double Team, Full Court Man to Man, and Half Court Man to Man defensive options are available. You can change your Quick Play settings on your controller via the Playbook screen.

PLAYBOOK

Adjust to your opponent's playing style mid-game. You have the option to adjust your defensive matchups, defensive playbook, offensive playbook, and team strategies. The Playbook menu is accessible only through the Pause menu during a game.

SAVING AND LOADING

Before exiting a game mode (or a menu where changes have been made), be sure to save your progress to a memory card (8MB)(for PlayStation®2) in MEMORY CARD slot 1. All unsaved information will be lost otherwise. You can also save or load manually by accessing the LOAD/SAVE screen.

- To save or load a file, highlight the file you wish to load (or create a new file name when saving for the first time). Once the file is selected and/or named, the game data is either loaded or saved.

SEASON

Play through the trials of a full NBA season. Set up a 29-, 58-, or 82-game season and make your run for the championship. You can play the season with any team using current NBA rosters, or assemble your team through a Fantasy Draft. You can even randomize your schedule or customize your league by switching up the teams in your division.

DYNASTY MODE™

Dynasty Mode operates on a year-round NBA calendar so be prepared to handle the duties on and off the court for multiple seasons. After choosing a team and selecting your settings, Season One begins. Before you start making key decisions be sure to check your Message Center (click the **L3** button) for messages from the league, team owner, and more that can help determine the success of your franchise.

NBA DRAFT

You have the option to begin your tenure as GM by managing your team's draft day selections during the annual rookie draft. After evaluating your team roster, draft lottery, and mock draft, decide which positions are in dire need of an upgrade, then do what it takes to select the players you want most on draft day.

NOTE: Enabling the NBA Draft will disable the ability to bring edited rosters into your Dynasty.

DURING THE SEASON

SCHEDULE/GM'S DESK/ROSTER MANAGEMENT

Play or simulate games by selecting your next opponent via the Schedule screen. From the Dynasty Central menu you will find the GM's Desk, Roster Management screen, and more. For off the court news, view the list of free agents, and more from the GM's Desk. From the Roster Management screen you can reorder rosters, sign, release, and trade players.

NEW TEAM CHEMISTRY

Meet the needs of every player on your squad to help improve your overall team chemistry. When chemistry is at its highest and your players are happy, your team gels and performs to its highest potential. Without a high level of team chemistry your chances to make a championship run decrease. By managing playing time, off-day events, and more, it's up to you to create a harmonious locker room.

A player's satisfaction is determined by eight categories unique to each player. You have direct control over some factors, like playing time, roster position, and event scheduling. Factors such as winning percentage, roster quality, and locker room harmony are somewhat in your control, while other factors such as team market size are out of your hands.

When bringing in new players, adjusting lineups, and making a roster adjustment, be sure it's best for the team. Every move you make will stir a reaction from all 12 players, both positive and negative—and sometimes both depending on the move.

You can see how a player feels about his current situation from the Player Info screen, or see his "individual chemistry" with another player via the Player Chemistry screen. Pay attention to these factors before making a key roster move, including trades and alterations to the lineup.

NEW PLAYER FATIGUE

The season can be exhausting so be sure to keep an eye out for player fatigue throughout the year. Events such as games and practices affect fatigue for your entire team. Days off, back-to-back games, total games played, and team event scheduling can also contribute to Player Fatigue, along with road trips based on distance traveled.

Some players may tire quicker than others (based on individual stamina rating). Factors such as a player's age, stamina rating, and the average number of minutes per game all contribute to Player Fatigue.

So with much at stake, be sure to schedule or cancel off-day events, give players less playing time (or pull them out of the lineup) when the game has been decided, or make other smart moves that keep your players fresh for the next game.

OFF-SEASON

After the playoffs, it's time for all GMs to evaluate their respective teams for the upcoming season. Be sure to use valuable information from your team scouts to help evaluate talent. Listen to their advice and study up on the incoming class before draft day. Making a wrong pick could set your franchise back a few years.

After the Rookie Draft is complete, you have the chance to bid on and offer contracts to free agents. Financial security is the main selling point to many of the players, but don't break the bank to sign them. Be sure to keep enough money in the budget in order to sign the key role players as well.

To manage your roster, you can also re-sign and release players from the lineup. After the free agent period ends and your roster is set, the new season begins.

PLAYOFFS

Take part in the excitement of the NBA playoffs. Participate in a traditional format or customize a tournament—with or without a Fantasy Draft.

NBA ALL-STAR WEEKEND

There are four events during the NBA All-Star Weekend. Your first event pits the rookies against the sophomore players during the Rookie Challenge. After slamming and jamming with the league's newest talent, rip the back of the net during the 3 Point Shootout as you battle up to seven of the best long-range shooters in the league. Playing in a tournament format, you have 60 seconds to make as many shots (and score as many points) as you can. The winner moves on, the losers go home.

Next on the bill—the Slam Dunk Contest. Bust out your best Freestyle moves and wow the judges with an aerial assault that expresses your game like never before. Finally, show off your skills against the best players in the league during the NBA All-Star Game. It's East vs. West in this action-packed, winner-take-all game.

OTHER GAME MODES

Freestyle Challenge

Playing split-screen against an opponent, fly high above the rim in the Slam Dunk Showdown, or drain 3s from beyond the arc in the 3 Point Showdown. Both players participate at the same time and the one who reaches the set point total wins the competition. Money Balls are worth more so be sure to capitalize on the bonus opportunity.

1 on 1

Schoolyard basketball hits the NBA. Prove yourself against anybody in a 1 on 1 showdown for ultimate bragging rights.

Individual Practice

Before you storm the court, work on your Freestyle moves in Individual Practice mode. The entire court is yours with no time limit. Once you've mastered your dunks, crossovers, and ball-handling skills, break 'em out against live competition. Better yet, show off your new act during the NBA All-Star Weekend.

Slam Dunk School

In Slam Dunk School, progress through the ranks of Beginner, Alley-Oop, or Advanced Practice and perfect your skills along the way. You need to master the moves learned here before you can fully compete in the Slam Dunk Contest.
