⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

 - ▶ Avoid playing when you are tired or need sleep.
-

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

PLAYING THE GAME

USER PROFILES

Keep track of your personal stats and accomplishments with a User Profile. An active User Profile saves Road to Glory & Dynasty Mode accomplishments and statistics to your memory card (8MB) (for PlayStation®2). Don't let all of your hard work go to waste!

PLAYCALLING SCREEN

- ▶ To flip/reverse a set, formation, or play, press the **R2** button. To swap a package with different player personnel, press the **⊙** button.
- ▶ When in doubt (offense only), ask Lee Corso for his advice on the next play by pressing the **⊙** button.
- ▶ Each play has an alternative play shown above and below it. Press the **L2** button + the corresponding playcall button to select the play shown below it. Press the **L1** button + the corresponding playcall button to select the play shown above it.

MY SKILLS

In *NCAA Football 11*, your success on the field affects your team more than ever—making big plays unlocks user bonuses and improves your dynamic player ratings. Also see how well you've played in previous games with the user report card, which grades your performance in multiple facets of the game and indicates your skill level. Monitor your team's user leaders within Dynasty Mode. The players that are controlled best by the user are rewarded with a higher motivation and make a greater impact on the game.

MOMENTUM METER

Now you must do more than score if you expect to win—you must keep momentum working in your favor with big plays on offense, defense, and special teams.

The more momentum you have, the better your players perform and the greater your chances at making a big play, whether it's breaking a tackle on offense or forcing a turnover on defense. With momentum on your side, your team plays better.

IMPACT PLAYERS

Impact players, indicated by a star-shaped icon, change the game in a heartbeat. Be sure to key in on them during the biggest moments of the game.

If the impact icon is pulsating, the player is "In the Zone" and is more likely to make a big play. If your impact player is struggling with an opponent, tap the **⊗** button for a second chance to either make or break the tackle.

BLUFF PLAY ART

If you feel your opponent is on to your playcalling schemes, throw 'em off by showing play art for four different plays while at the line of scrimmage (press the **R2** button to bring up the Coach Cam, then move the right analog stick **↑/↓/←/→** to show the plays).

Move the right analog stick **←** for a fake play action, **→** for a fake pass, **↓** for a fake run, or **↑** for the actual play.

For example, when calling a run play you show your opponent the play art for a deep pass or play action. Your opponent is unaware which play you are actually running and may overcompensate to cover one of the bluffed plays, making your real play more effective.

COACH CAM MATCH-UP VISUALS

See who the best players on the field are by using the Coach Cam. Press and hold the **R2** button to bring it up. Three colors are shown with corresponding halos to represent the different types of players on the field: green—the most highly rated players; yellow—above average players; red—below average or worst players.

NOTE: The majority of players don't have a colored halo. They represent the middle-of-the-pack, average players.

IN-GAME SNAP SHOTS

Capture all of your most memorable plays and incredible moments. All you have to do to take a snap shot of your memorable moment is access the feature via the Instant Replay menu, and press the **L3** button during the appropriate time. After your pictures are saved, view all of them by visiting your Photo Album My Shrine menu.

NOTE: Saving in-game snap shots requires an available memory card.

GRUDGE MATCH

Lose a close game to your fiercest rival? Then get right back on the field for a rematch! The Grudge Match option lets you play another game using the same two teams without first having to return to the main menu.

HIGHLIGHT STICK

When carrying the ball, move the right analog stick **↑** to fend off would-be tacklers by ducking past them or trucking over them. Your ability to do so depends on the size, agility and tackle-breaking ability of the ball carrier; plus the size, strength, and tackling ability of the defender.

QB AVOIDANCE

When defenders are closing in on your quarterback, move the right analog stick in any direction to make your quarterback do a side-step in the pocket or an evasive maneuver that shakes off a sack attempt.

RECEIVER DIRECT

After rolling out of the pocket with your quarterback, an indicator appears under the receiver closest to you. Move the right analog stick to direct that receiver to go in the direction you want. To switch between different receivers, press the **R3** button.

RUNNING BACK COMBO MOVES

Set defenders up like never before by stringing together multiple moves, including jukes, spins, and stiff arms. Enhanced running animations provide a more fluid and responsive feel, allowing you to cue your next move while you're playing out another.

ADVANCED HOT ROUTES

Before the snap on offense, press the  button then move the right analog stick  to assign your receiver to a fade route, / to assign your receiver to a drag route, left/right or  to assign your receiver to a Smart Route, which makes him run a route as long as is needed for a first down.

DEFENSIVE HOT ROUTES

Before the snap on defense, switch to the appropriate defender and move the right analog stick  to assign him to a QB Contain defense, which helps enclose scrambling quarterbacks. To assign your defender to a Smart Zone, making him defend the first-down area of the field, move the right analog stick .

SAVING AND LOADING

Before exiting a game mode or a menu where changes have been made, be sure to save your progress to your memory card—all unsaved information is lost otherwise. Also save or load manually by accessing the Load/Save screen via the My NCAA® menu.

NOTE: Never insert or remove a memory card when loading or saving files.

DURING YOUR FRESHMAN SEASON

As a freshman, you are slated to start. Play out the entire season and see if you can lead your team to a coveted bowl game.

SUPER SIM

In Road to Glory, you control more than just your player's fate. The coach calls the plays and it's up to you to execute them. You take control of the play and it is up to you to take both your player and your team to victory. To speed things up, the use of Super Sim means you only have to participate in the plays your student athlete is involved in.

BETWEEN GAMES

Each weekday you need to attend class, go to practice and decide what to do each evening. Study, visit a tutor, get in additional practice, or attend an on-campus social event.

END OF THE REGULAR SEASON

Once the regular season ends, the bowl invitations are awarded. If your team was fortunate enough to receive an invite, play out the final game of the season before advancing to the off-season.

POSTSEASON AWARDS

Between the end of the regular season and the start of the bowl games, the postseason awards are handed out—the biggest being the Heisman Trophy.

THE OFFSEASON

At the end of your freshman and sophomore seasons, you immediately start preparing for the following season. Change your position, play in the spring game, and change your major if you want. Pre-season rankings are released and the fight for No. 1 soon begins.

For juniors and seniors, it's decision time. Do you return for your senior season (juniors only), or do you stay in collegiate football as a coach (seniors only)?

SPRING GAME

Decide which underclassmen get the most reps during the annual spring game and designate your impact players for the upcoming season.

DURING THE SEASON

You have one simple goal during the season: win the next game on the schedule. Though you have to juggle all of the off-the-field activities that occur during the week—such as dealing with everyday player issues, in-season recruiting and the ever-changing Top 25 poll—don't lose focus on the task at hand. Learn to balance the workload.

INFRACTIONS

Maintaining a disciplined team is essential if you want to have a shot at the title. If one of your players commits an infraction, choose whether to take action. But be forewarned: your school may be penalized by the NCAA if you choose to ignore rule breakers.

You can suspend players for a quarter, an entire game, or the remainder of the season. Each action you take costs a certain number of Discipline Action points. Be sure that you don't use too many points on minor infractions or you might not have enough left for more serious violations.

AFTER THE SEASON

After playing the final game on the schedule, hopefully in your case it was a major bowl game, your school may offer to extend your contract. If you're a hot coaching prospect, another school might offer you a better job as well. On the flip side, if you failed to reach the expectations of the school, you could lose your job.

THE OFFSEASON

Negotiate with players who are leaving the team early, recruit new talent, hold your annual spring game, train your squad, cut players, and organize your depth chart.

POINTS PURSUIT

Forget the traditional football scoring system. In Points Pursuit, your team gets points based on yards gained or lost, big defensive stands and user actions such as breaking tackles, picks, and sacks.

When the multiplier comes into play, the stakes are doubled, tripled, or even quadrupled! The team with the most points at the end of the game wins.

Impress the crowd and earn big points. Check out your point level by visiting My Shrine via the My NCAA® menu after the game.

RIVALRY GAME

Take on your school's biggest rival in a game where the only numbers that matter are the ones on the scoreboard.

MASCOT MASH UP

In the Mascot Game, bragging rights are on the line when favorite sideline mascots battle it out on the gridiron.

PRACTICE

Prepare for the big game by running through your playbook in Practice mode. Work on all three phases of the game with or without an opponent on the field (offense/special teams/pass skeleton only).

SPRING DRILLS

Test your skills in a variety of drills on offense, defense, and special teams.

FEATURES

Select your playbooks and audible and personalize your game by creating an entire university in your name. Create your own player, playbook, sign, and more!

MY NCAA

Customize your settings or head into My Shrine to check out your record book, trophy case, photo album, and more. Load and save games from here too.

MASCOT CHALLENGE

Quickly go from Junior Varsity or Varsity to All-American status by improving your skills and technique in a slew of practice drills that focus on passing, rushing, receiving, and defense.
