PLAYING THE GAME

When you first play *NCAA March Madness 06* you have the option to select a favorite school. More than 300 Division I universities are available to choose from including schools from 30 conferences. Once a school is selected, it is set as your default team in all game modes. You can switch your favorite school preference via the Settings menu.

PLAY NOW

Get on the court quickly with a Play Now game. The games don't count in the standings but the intensity runs just as high as a national tournament game.

TEAM SELECT SCREEN

From Classic to All-Time teams, all the best squads from past and present are here. After selecting a match-up for the upcoming game you have the option to set up your Quick Settings.

QUICK SETTINGS

Select the Skill Level for the next game, along with Half Length and Camera View. You can also adjust the Rules, Preferences, Gameplay Settings, In-Game Settings, and Gameplay Controls from the Settings screen. Once your settings are in place, select a team by moving the controller icon next to your team logo.

QUICK STRATEGY

Know your rivals. Before storming the court, adjust your starting lineup or alter your team's style of play to give you an edge over your opponent. Sub in bench players by swapping them with one of the starting five or leave the lineup as is. You can also dig deep into the playbook and modify your Quick Plays (see p. 6). Once your strategy is set, the game begins.

ON THE FLOOR

NEW EA SPORTS™ LOCKDOWN STICK

Dictate the flow of the game and take total control on defense with the all-new EA SPORTS Lockdown Stick. Playing an up-tempo style of basketball, smother opponents with an aggressive style of defense and create turnovers that lead to easy baskets.

When playing in front of a ball-handler trigger the EA SPORTS Lockdown Stick by pressing the right analog stick ↓ (press the left analog stick to stay in front of your man). Once your opponent is trapped, you can force him into a turnover situation or put him in a position for an easy double-team. In addition, press the **L1** button or **R2** button to draw a charge, or the **R1** button for a steal attempt (when using the EA SPORTS Lockdown Stick).

FLOOR GENERAL PLAYCALLING

Manage your offense on the fly with the Floor General Playcalling system. Call plays that include a 1-4 High, Zone Base, 4 Around 1, and more. Pressing the D-button ↑ once brings up three plays, pressing the D-button ↑ twice brings up three more. Before each game, customize your school's playbook with dozens of available sets.

EA SPORTS™ FREESTYLE CONTROL

Run the floor with EA SPORTS Freestyle Control. While dribbling, press the right analog stick in any direction to break out a Freestyle move. Making the same shape results in the same move every time. You can also create combinations of Freestyle moves, so be sure to use Practice mode to help perfect these moves.

NEW DRIBBLE HANDOFF

Execute a dribble handoff to a teammate when running your half-court game, stuck in traffic, or before you start to dribble. Press and hold the pass button and run towards the pass receiver to pull off the move.

NEW DEFENSIVE FLOOR GENERAL PLAYCALLING

Level the playing field with all-new diagrammed defensive playbooks. Play man-to-man or zone defense. You can also customize a playbook to fit your style of play. Press the D-button ↑ to use the Defensive Floor General Playcalling system to call a play then click the **R3** button to view a graphic on where you should force the ball carrier.

QUICK PLAYS

Direct traffic on both ends of the court by calling a Quick Play (press the D-button ←, →, or ↓). On offense, you can run Post Up, Isolation, and Pick-and-Roll plays. On defense, choose to Double Team, Intentional Foul, or Pump Up your school's crowd.

OFF-BALL SWITCH

Control players on the floor with or without the ball—call for passes, have a teammate shoot, or set a screen with the push of a button. Once you activate the Off-Ball Switch by pressing and holding the R3 button, change to another player on the court by selecting the corresponding button icon.

ARENA PULSE

If your school is ranked as one of the 25 toughest places to play, the crowd can provide you with the advantage you need to defeat the opposition. With every big basket watch the Arena Pulse meter build—giving your team momentum. When the meter maxes out your fans go nuts, rattling even your toughest opponents.

SAVING AND LOADING

Before exiting a game mode (or a menu where changes have been made), be sure to save your progress to a memory card (8MB) (for PlayStation®2) in MEMORY CARD slot 1. All unsaved information will be lost otherwise. You can also save or load manually by accessing the LOAD/SAVE screen.

- To save or load a file, select a save slot then highlight the file you wish to load (or create a new file name when saving for the first time). Once the file is selected and/or named, the game data is either loaded or saved.

DYNASTY MODE™

Dynasty Mode operates on a year-round calendar so be prepared to handle the duties on the court, as well as off it for multiple seasons. After choosing a school and selecting your settings, Season One begins. Before you start making key decisions be sure to check your PDA (click the **L3** button) for messages from the Athletic Director, Coaching Staff, and more that can help determine the success of your Dynasty.

Use Dynasty Points during the season to improve player and team abilities, as well as to hire specialist coaches. Dynasty Points are awarded for accomplishing feats in the Task List (displayed after each game, season, and tournaments).

TRAINING CAMP

Before the season begins, put the team in your trainer's hands to improve player and team abilities during training camp. Your trainer focuses on certain aspects including Offense, Defense, Shooting, and Conditioning. Each has its reward and downfall. Be sure to balance the training in order to cover every area of need.

DYNASTY CENTRAL/CALENDAR

Manage all aspects of your school in Dynasty Central, the biggest being the team schedule. Review your yearly Calendar to play or simulate the season schedule game-by-game. It's here where the games are won or lost.

If you choose to simulate a game on the schedule, you have the option to intervene anytime during the simulation period. Once the game picks up, you are thrown into the middle of the action with time already off the clock. See if you can help your team hold a lead or make a comeback and grasp a victory.

COACH OPTIONS

Off the court, Coach Options allow you to recruit local and national players during the season. With the help of all-new stat tracking, scout hot prospects including the nation's top 100 players. Whether it's a high school All-American or a possible Junior College transfer, invite potential recruits to a game before offering them a scholarship.

Once your team is set, gain the upper hand by using your assistants to gather information on upcoming games, teams, and players from across the nation. Coaches can also create a gameplan before the big game by analyzing opponents before tip-off, or simply alter the overall team strategy and playbook.

You can also view Program Standards, your Report Card, conduct a Training Session, and view Dynasty Points anytime during the year.

PLAYER VIOLATIONS

Players can get themselves into trouble, so it's up to you to run a tight ship. Take action when GPAs drop or when team rules are broken—or your school may suffer the consequences. You need to decide when to suspend players for a single game or for the entire season; if you don't take action or your Academic Progress Rate is too low the NCAA may limit your school's scholarships, TV appearances, or its participation in the Tournament.

OFF-SEASON

After the NCAA Tournament, it's time to evaluate your team for the next season. Since players leave your program when they graduate, make sure to note which positions you're losing a player from so you can concentrate on filling the slot when you begin recruiting new talent.

Pay attention to your scouting reports and study up on the incoming class before you make any offers. Also, take a look at what's been happening during the off-season; find out if players have been working on their game and perfecting their skills, or whether they've grown a couple inches. Remember, your recruitment decisions can make or break your school's chances of making it to the Big Dance.
