EA SPORTS™ FREESTYLE CONTROL

Every player has his own style. EA SPORTS Freestyle Control lets you express yourself with fresh moves, freaky handles, and tough D.

HOW EA SPORTS FREESTYLE CONTROL WORKS

When you move the EA SPORTS Freestyle Control (right analog stick) in any direction, your player on the court busts a Freestyle move. Making the same shape results in the same move every time.

- ❖ You can create combinations of Freestyle moves. Use Practice mode to build your own set of moves.

OFFENSE

EA SPORTS Freestyle Control shines on offense, where every player has a unique game. EA SPORTS Freestyle Control produces moves based on what your player is doing at any point during a game. Different moves are performed depending on which hand your player is using to control the ball.

- ➡ To perform a spin move, press the right analog stick ↑.
- ➡ To perform a crossover, press the right analog stick ↔ towards the ball-handler's opposite hand.
- ❖ EA SPORTS Freestyle Control really shines when your player receives the ball in half-court offense (the Triple Threat position).

DEFENSE

Although your player has fewer Freestyle moves on defense, he can be very effective in stopping your opponent. Take time to master the Freestyle moves for defense. Here are some basic moves to get you started:

ACTION	COMMAND
Steal	right analog stick ↔
Defensive crouch	Hold the right analog stick ↓
Hands up	Hold the right analog stick ↑
Off-ball switch (to switch to specific player)	R3 button + ▢ button, ✕ button, ○ button, or ▲ button

TIP: To fire up the crowd, tap the right analog stick ↑ when playing defense.

TIP: To slap the floor, tap the right analog stick ↓ when playing defense.
