You can save a Settings configuration, Season, Playoff, Tournament or Roster.

- To save a Season, Playoff, or Tournament, select the save option from the Central screen (Season Central, etc.), then give the saved file a name the same way you give a name to a created player (➤ *Create Player Screen* on p. 15).
- To save a Roster, select LOAD/SAVE ROSTERS from the Rosters screen, then choose SAVE ROSTERS. Give the saved file a name the same way you give a name to a created player (➤ *Create Player Screen* on p. 15).
- To save a Settings configuration, choose SAVE SETTINGS from the Game Settings screen.

NOTE: In order to save a file, you must first initialize your MEMORY CARD (8 MB) (for PlayStation 2) for *NHL 2001*. A pop-up window notifies you of this and gives you the opportunity to initialize it. If you attempt to save a roster and the game does not prompt you to initialize, your MEMORY CARD is already initialized.
