If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

MAKING A NAME FOR YOURSELF

The goal in Dynasty Mode is to earn the highest GM score and make it to the GM Hall of Fame. GMs have 20 years to earn profits, win some Stanley Cups, and build a Dynasty.

EXPERIENCE POINTS

GMs receive experience points for their actions and their team's performance. Many of the points are handed out at the beginning of the off-season based on their GM ranking. GMs earn experience points based on their rankings in: profit, attendance, team winning percent, playoff performance, trading, and more. The higher the rank, the more bonus experience points you earn.

UPGRADES

For every 100 experience points a GM earns, he earns an upgrade. Upgrades allow GMs to hire new staff and build new facilities. Upgrades also improve your players and increase profits. When you earn an upgrade, you also receive a gift from the team owners.

BUILDING YOUR DYNASTY

There are three ways to advance through the season:

PLAY NEXT GAME

MORALE

All players on your team have a morale rating that starts at 100. Morale goes down if players don't get the ice time they want, your team loses a bunch of games in a row, your team's locker room rating is low, or if you have too many long practices. View player morale on the Progress Reports screen. When morale goes down, player attributes go down.

PRESTIGE PLAYERS

Players rated 96 and above are considered high prestige players or superstars. Players rated 90 and above are considered prestige players or stars. Having these players on your team raises revenue through higher TV contracts and higher attendance. However, stars and superstars want lots of ice time, so watch their morale. Also, superstars cost lots of money, so watch your profit margins. View how many stars and superstars you have on the Contracts screen.

TV CONTRACTS

A TV contract is already in place for the first season. Starting in the second season, you are offered a contract based on your previous year's playoff performance and the number of prestige and high prestige players on your team.

MANAGE ROSTER

UPGRADES

TOURNAMENT

You invite the teams. You set the rules and determine the tournament structure. Set up and play an 8- or 16-team tournament and see if you really do rule the rink.

- Setting up a Tournament is very much like setting up a Season. Follow the instructions for setting up a Season on p. 20.

ELITE LEAGUES

NHL 2004 now gives you a chance to go a whole season with a team from three of the top elite leagues. Choose from the Elitserien (Sweden), SM-Liiga (Finland), and DEL (Germany) leagues. With Elite Leagues you have 39 additional teams to play as or against, all with their unique jerseys, traditions, and chants, specific to their league. In the SM-Liiga league, the top goal scorer of each team wears a Golden Helmet.

International rules govern gameplay, instead of NHL rules (e.g., 2-Line passes are permitted). League-specific rules are also enforced. For example, in the SM-Liiga league, there is no overtime in regular season games. However, in the DEL league, no game ever ends in a tie.

➡ Set up an Elite League game as you would set up a Season (> p. 20).
