

2KSPORTS NHL 2K7

Game Experience May
Change During Online Play

⚠ WARNING

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lintfree, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the **MAIN POWER** switch (located on the back of the console) is turned ON. Press the **RESET** button. When the power indicator lights up, press the **OPEN** button and the disc tray will open. Place the **NHL 2K7** disc on the disc tray with the label side facing up. Press the **OPEN** button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

Memory Card (8MB)(for PlayStation®2)

To save game settings and progress, insert a memory card (8MB)(for PlayStation®2) into **MEMORY CARD** slot 1 of your PlayStation®2 system. You can load saved game data from the same memory card or any memory card (8MB)(for PlayStation®2) containing previously saved games.

STARTING UP

DUALSHOCK®2 ANALOG CONTROLLER CONFIGURATIONS

QUICK GAME

Quick Game lets you jump right into a game between the teams of your choice. After you have chosen the 2 teams you select your uniforms, play settings, and arena before starting the game.

TEAM SELECT

- Move the **left analog stick** left or right to select the away or home team.
- Move the **right analog stick** up or down to select a User Profile (optional).
- Press **L1** or **R1** to change the team. When you have the team you want Press **X** to move to uniform selection. (Pressing **start** bypasses uniform selection)
- After choosing a team, Press **L1** or **R1** to select the uniform you want your team to wear and press **X**. (Pressing **start** jumps to game settings)
- At any point, if you want to back up to the previous step, press **Δ**.
- Select the Game Options once both teams have been selected and uniforms are chosen,. These are set by default to whatever you have selected in the main Options menu. A brief overview is displayed for your review, if you wish to change anything Press **O**. When the options are to your liking Press **X** or **START** to move to Arena Selection
- Press **L1** or **R1** to switch the arena. When you have selected the desired arena Press **X** or **START** to load the game.

IN THE GAME STYLE MENU

OTHER OPTIONS DURING QUICK GAME SETUP

- Press **O** to randomly change the teams.
- Press **R2** to access Select Play Style overlay (see full description below).
- Press **L2** to access the Line Match-Up screen (see full description below).
- Press **□** to view the Help Menu.
- To create a User Profile, Move the **right analog stick** up or down to highlight New Profile and press **X** or **START**. Enter a name on the

Virtual Keyboard and press **START**.

- To load a User Profile on the Load screen, highlight Load Profile and press **X** or **START**.

PLAY STYLE AND STRATEGY (ACCESS BY PRESSING R2 ON THE TEAM SELECT SCREEN)

You can edit your team's strategies using this screen. Also, if you prefer a certain team's play style and would like to adapt it to any other NHL team, use the Play Style overlay to do so. On the Play Styles screen, move the **left analog stick** up and down to highlight the desired team's play style. A custom play style can be created by selecting Customize from the Play Style list. This will take you to the Play Styles screen and Strategy screen. Highlight Play Styles or Strategies and press **X** to continue.

TO USE THE PLAY STYLE / STRATEGIES SCREENS

- Press **L1** or **R1** to switch between Basic and Advanced. (Advanced allows you to set your play style line by line).
- In Advanced, press **L2** or **R2** to change the line you wish to edit.
- Press **△** to bring up use/save/return/cancel settings menu

PLAY STYLE OPTIONS

Play Style: If set to auto, the CPU will automatically select the best values for your team or if switched to Manual you will have full control of the settings.

Roughness: Determines how aggressively your players play. Set it high, and players will check more on defense, and crash the net more on offense. However, they may incur more penalties or over-commit and get burned on defense. Set it low, and players will play more conservatively.

Attack Style: This sets the basic attitude the AI will have when playing offense. Balanced will focus on both offense and defense equally, Conservative will protect your own zone first but sacrifice some scoring chances, and Attack will focus on offense but leave your own zone vulnerable.

Dump/Chase: Determines whether or not the AI will "dump" the puck (hit it towards the opponent's goal and recover it) or skate and pass the puck down the ice.

OFFENSE: OFFENSE IN THE OFFENSIVE ZONE

- **Triangular:** This intermediate system concentrates on maintaining possession of the puck. The Forwards form a triangular formation and cycle the puck between them. The objective is to create a 3-on-2 or 2-on-1 situation.
- **Positional:** This basic, conservative system has two Forwards attack the net while one Forward and the Defensemen think defensively in case the puck changes possession.
- **Overload Slot:** This basic system has the Forwards crowd the area of the net. The Defensemen shoot the puck and the Forwards try to get in position to score off of tip-ins, deflections, and rebounds.

DEFENSE: DEFENSE IN THE DEFENSIVE ZONE

- **1-2-2:** In this play, the Center aggressively checks in the zone, while the 2 Defensemen and 2 Wings play back in a more defensive stance.
- **Box + 1:** This play is designed to completely try and shut down the slot. However, this leaves the opposing team freedom to move around the rest of the zone.
- **Zone:** This conservative system assigns each player an area of the ice.

BACK-CHECK: DEFENSE IN THE NEUTRAL ZONE

- **1-2-2:** This conservative system calls for the Center to forecheck aggressively to drive the play to the Wings on the outside. The Defensemen hang back at the blue line.
- **1-1-3:** This defense combines conservatism with aggressiveness. The attack comes from the Center and the puck-side Wing. The off-side Wing hangs back and shuts down the outside lane. This gives the puck-side Defenseman the freedom to be more aggressive.
- **2-1-2:** This aggressive system commits both Wings to apply pressure to the puck. The Defensemen and the Center have to cover

more area to make up for them.

FORE-CHECK: DEFENSE IN THE OFFENSIVE ZONE

- **1-4:** This conservative defense has the Wings and the Defensemen form a wall across the blue line while the Center pressures the puck. This defense essentially gives up the offensive zone.
- **1-1-3:** This defense combines conservatism with aggressiveness. The attack comes from the Center and the puck-side Wing. The off-side Wing plays back in position to backcheck and defend against 3-on-2 breakouts. The Defensemen play normal positions.
- **2-1-2:** This extremely aggressive defense calls for constant pressure on the puck by two of the Forwards.

BREAKOUT: OFFENSE IN THE DEFENSIVE ZONE

- **Board:** This is a conservative system that is best suited to teams with big strong Wings who dominate the battle for the puck on the boards.
- **Positional:** This is a conservative system with a balanced approach that uses all of the players and emphasizes high-percentage passes.
- **Free Flowing:** This flexible system relies on good skating and skilled passing. Since it relies on flooding certain areas with skaters, it is more vulnerable should a turnover occur.

MOVE-OUT: OFFENSE IN THE NEUTRAL ZONE

- **Positional:** This basic, conservative system stresses filling the lanes and making high-percentage passes. It is especially useful for teams with size and/or poor skating ability.
- **Crisscross:** This intermediate system is similar to the Positional system, but allows two Forwards to move laterally to flood specific areas, while the other Wing acts as a safety valve with defensive responsibility in case the puck is turned over.
- **Regroup:** This advanced system allows the Forwards free movement to attack openings. Advanced skating, passing, and stick-handling are crucial for this system to be successful.

POWER-PLAY:

- **Funnel:** This conservative system has the Defensemen shoot the puck and the forwards in position to tip-in deflections and rebounds. This system is beneficial for teams with big players who have a knack for scoring from close range.
- **Wings Offside:** The Wings are the primary scorers in this system, which seeks to set up the play on the strong side and pass to the weak-side Wing.
- **2-2-1:** This system is comprised of two sets of Forwards and one Defenseman. The Defenseman is generally open for a shot on the net, though a pass to any of the Forwards for a closer shot is generally preferable.

PENALTY KILL:

- **Box:** This conservative system denies possession of the puck in front of the net or the slot area. This system requires physical players.
- **Diamond:** This intermediate system denies the offense the area in front of the net while putting pressure on the puck.
- **Triangular:** This aggressive system keeps three defenders in front of the net and a fourth player rotates out to challenge the player in possession of the puck.

LINE MATCH-UP (ACCESS BY PRESSING L2 ON THE TEAM SELECT SCREEN)

This screen allows you to specifically match up your offensive and defensive lines against your opponent's lines

PLAYING AS THE HOME TEAM:

- Press L2 or R2 to assign a line to match-up with your opponent's line.
- Press L1 to switch from a list of your offensive lines to a list of your defensive lines.
- Press R1 if necessary to switch back.
- Press L1 or R1 twice to cycle through the opponent's lines. (Note:

You can assign an offensive line and a defensive line to matchup with each of your opponent's lines. Pressing **L1** once toggles from your offensive lines to your defensive lines. Pressing **L1** a second time toggles to your offensive lines versus your opponent's second line. Pressing **L1** a third time toggles to your defensive lines versus your opponent's second line; and so on.)

- If you opt to have "No Line Assigned" for any of your opponent's lines, then there will be no preferred line match-up when that particular line comes on the ice.
- When you've finished modifying your line match-ups, press **START** to confirm them and return to the Team Select screen.
- Press **△** to cancel your changes and return to the Team Select screen.

PLAYING AS THE AWAY TEAM:

- Press **L1** or **R1** to assign a line to match-up with your opponent's line.
- Press **R2** to switch from a list of your offensive lines to a list of your defensive lines. Press **L2** if necessary to switch back.
- Press **L2** or the **R2** twice to cycle through the opponent's lines. (Note: For each of your opponent's lines, you can assign an offensive line and a defensive line to matchup with it. Pressing the **R2** once toggles from your offensive lines to your defensive lines.

Pressing the **R2** a second time toggles to your offensive lines versus your opponent's second line. Pressing the **R2** a third time toggles to your defensive lines versus your opponent's second line; and so on.)

- If you opt to have "No Line Assigned" for any of your opponent's lines, then there will be no preferred line match-up when that particular line comes on the ice.
- When you've finished modifying your line match-ups, press **START** to confirm them and return to the Team Select screen.
- Press **△** to cancel your changes and return to the Team Select screen.

COACH'S TIP – PRESSURE CONTROL (IN-GAME)

Is one of the opposing players giving you a hard time? Then turn up the pressure on them! Start off by selecting a player to pressure by holding down **L2** and moving the **Right analog stick** in their direction. If they are not selected you can keep moving the **Right analog stick** to cycle through all the players. Once they are selected use **L2** to pressure them. A quick press of **L2** will send one of your players after them.

Press **L2** a few times quickly and two of your players will attack them. When your players are near the target keep pressing **L2** to shove them around. Shoving not good enough? Press and hold **L2** for a second and the closest player will lay a big check on them.

CONTROL SUMMARY

Select the level of Control you want in the **CONTROL SETTINGS** menu (found under the options menu).

Classic: The easiest to use but it offers limited player/team control.

Intermediate: More than the basics but not too complicated (Default).

Advanced: More complex than the others but you get total player/team control.

COACH'S TIP – TOTAL CONTROL DEKES (OFFENSE: PUCK HANDLER)

Perform 7 special moves with the right stick. Press **L1** while moving the **right analog stick** in a given direction and release **L1** to perform the desired action.

- UP-RIGHT = Short deke right
- UP = Short deke left
- UP-RIGHT to RIGHT = Long deke right
- UP-LEFT to LEFT = Long deke left
- RIGHT to DOWN-RIGHT = Side-step right
- LEFT to DOWN-LEFT = Side-step left
- UP to DOWN = Full stop (depending on direction skating)

Note: The Long Dekes are for players with high puck-handling rating.

Note: Press and hold **L1** and move **UP** on the right analog stick for flip deke.

Note: A combination of 'Up-Right', would be moving at a 45 degree angle in-between 'Up' and 'Right'.

COACH'S TIP – MANUAL LINE CHANGES

To change lines, you must change Home (or Away) Line Changes to Manual in the Options menu (select Setup → Features). To change roughness, you must change Home (or Away) Play Styles to Manual. Both options can be found under the Team Strategy/Play styles Option in the Pause Menu.

COACH'S TIP – ON THE FLY COACHING

In NHL 2K7, you have more control than ever with On The Fly Coaching. Instantly change your team's strategy in real-time to adjust for special situations. Use the **directional buttons** during play in the offensive or defensive zones.

ON OFFENSE

directional buttons UP:	Crash Net
directional buttons DOWN:	Pinch Defensemen
directional buttons LEFT:	Screen the goalie
directional buttons RIGHT:	Call for help

ON DEFENSE:

directional buttons UP:	Collapse
directional buttons DOWN:	Release Forward for Breakaway
directional buttons LEFT:	Clear front of net
directional buttons RIGHT:	Call for help

COACH'S TIP - PRO CONTROL

Pro Control makes it easy to control the puck with exact precision. While on offense use Pro Control to pass the puck to an exact player and have added control to your puck handling.

TO USE PRO CONTROL:

- Press **R3** to bring up the Pro Control overlay and pass icons. The overlay will appear at the lower left of the screen while the pass icons will appear under each player on your team.
- To pass to a specific player, press the button matching the button icon under that player.

TO UTILIZE ADDITIONAL PUCK CONTROLS

- | | |
|-----------------------------|--------------|
| • Right Analog Stick Down: | Protect Puck |
| • Right Analog Stick Left: | Dump Left |
| • Right Analog Stick Right: | Dump Right |

COACH'S TIP – THE WRAP AROUND

The entire rink is fair game in NHL hockey, including the area behind the net. You can attempt to skate behind the net and execute a lightning-quick sweep of the puck into the goal, all the while using the net itself to protect the puck. To execute a wrap-around shot, while behind the net, move your player to either side of the net and press **Square** to shoot the puck. You will automatically attempt a wrap around.

COACH'S TIP – ONE-TIMER

A one-timer is when an offensive player catches and shoots the puck in one quick motion. The speed of the one-timer can deny the goalie enough time to react, making it easier to score a goal. To perform a one-timer when passing to a computer-controlled player, press **X** to pass and immediately press **Square**, before the other player receives the puck. During multiplayer games, to perform a one-timer when another player passes you the puck, press **Square** before the puck reaches you.

GOALIE WITH PUCK (SEE CLASSIC CONTROLS)**GOALIE HOLDING PUCK (SEE CLASSIC CONTROLS)****BOARD PIN (SEE CLASSIC CONTROLS)****FIGHTING (SEE CLASSIC CONTROLS)**

After you have selected a controller level you can see pictures of the Controller Layout (for a display of full button functionality) under the **CONTROLLER LAYOUT** menu.

OTHER CONTROLS OPTIONS:

- **Goalie Control** – Select the level of involvement you want in controlling your goalie
- **Pass Aim Assist** – This will adjust how forgiving the AI is when you pass the puck. If the slider is all the way down you will need to direct passes yourself with the left analog stick. If it is all the way up you can still direct the pass but it is much more likely to go to a player if

your aim is not perfect.

- **Shot Aiming** – When set to Auto the AI will shoot the puck to the best part of the net for you, if set to Manual you will have to aim the puck with the left stick as you shoot.
- **Auto Puck In Air Grab** – When ON your players will automatically try to grab any puck near them that is in the air.
- **Player Lock Type** – When set to Full Lock you will always be playing whatever position you define in the Preferred Start Position setting. Semi-Manual will always switch control to the player with the puck, and Manual will let you switch to any player whenever you wish.
- **Preferred Start Position** – This is the position you wish to start the game playing in.
- **Puck Protection** – When set to Auto the AI will automatically protect the puck for you as you skate with it.
- **Icon Switch** – this turns ON or OFF the ability to use Icon Switch in game.
- **Vibration Feature** – this turns ON or OFF the controller vibration.
- **One Timer Passing** – this turns ON or OFF the ability to perform One timers.
- **L1 + directional buttons** – determine your desired button combo

PAUSE MENU

You can pause the game at any time to access the Pause Menu, or to just take a break from the action.

- To pause the game, press **START** during game-play, and the Pause Menu will appear.
- To return to the game from the Pause Menu, simply press **START** again.

REPLAY

Step in to the broadcast booth for a few moments to run the film on the last play.

- Press **L2** or **R2** to jump to the beginning or the end of the replay.
- Press **□** to hide the Help overlay.
- Press **START** to exit replay.
- Press **L1** or **R1** to rewind or fast-forward.
- Press **O** or **r** to zoom in or out.
- Move the **Left analog stick** to pan the camera.
- Move the **Right analog stick** or the directional buttons to move the camera focal point
- Press **X** to play & re-pause the replay.

STATS

- **Team Stats** - This screen compares the game stats of the two teams facing one another.
- **Player Stats** - Press **L1** or **R1** to switch teams. Press **R2** or **L2** to switch between skaters and the goalie. Press **L3** to sort the players by the highlighted statistic. Press **L3** a second time to reverse the listing.
- **Shot Chart** - The Shot Chart shows the made and missed shots for each team for each period. Press **L1** or **R1** to cycle through the periods.
- **Scoring Summary** - Press **L1** or **R1** to switch periods.
- **Penalty Summary** - Press **L1** or **R1** to switch periods.
- **Game Log** - Here you can track the game's progress (Face-offs won, Shots on Goal, Stoppages of Play, and much more) by period.

OPTIONS

- **Setup** - (see Setup section)
- **Choose Sides** - This screen allows you to switch teams or add another user to the game. Altering Controller Settings will end Challenge Mode for that game.
- **Control Settings** - (see Control Summary section)
- **Control Layout** - (see Control Summary section)
- **Presentation** - (see Setup section)

CHALLENGE MODE

This screen shows what user challenges you've accomplished. Press L1 or the R1 to cycle through the following lists: Level One, Level Two, and Level Three. Completed challenges appear with a red check box.

TEAM STRATEGY

- **Strategies** - This screen is the same as the Strategy screen. (see Quick Game section)
- **Edit Lines** - Use this screen to control which of your players play on which lines. Press R2 or L2 to cycle through the different lines. While viewing any line, highlight a player in your roster list and press X to select them. Then, highlight the spot in the line you want him to play and press X.
- **Match-ups** - This screen is the same as the Line Match-up screen. (see Quick Game section)
- **Call Timeout** - Call timeout if you want to give your players a quick rest. You can only call a timeout during a break in play (for example, before the face-off gets up).
- **Pull Goalie / Replace Goalie** - If you have the puck late in the game, and you're losing, it may make sense for you to pull your goalie and replace him with a skater to increase your chances of scoring. Just keep in mind that, if the other team gets the puck, your goal will be vulnerable. You can pull the goalie on the fly by pressing L1 and R1 and pressing START.

NEW FEATURES

This screen lists all the new features available to you in NHL 2K7.

EXIT MENU

Don't like how the game is going? You can restart the game here, or simply quit out. Keep in mind that if you quit out before the end of the game any unlocked Challenges and accumulated statistics will be lost.

OPTIONS

Change the game's options, customize your stadium music, and test your audio setup!

SETUP:

SETUP RULES

Press L1 or R1 to cycle through Rules, Penalties, Features, Game-play – Human and Game-play – CPU

Press L2 or R2 to cycle through Custom, Default, Sim, Arcade and Physical.

Press left or right on the **directional buttons** or **left analog stick** to toggle the highlighted options.

- **Skill Level:** Amateur (Default), Rookie, Pro, All-Star, or Hall of Famer – Customize the game's difficulty.
- **Period Length:** 5 minute(s) (Default) – Adjust the real time period length from 1 to 20 minutes.
- **Penalties:** On (Default) or Off – Turns this option OFF and no penalties will be called.
- **Off-sides:** Off, Regular, or Tag-Up (Default) – Tag-Up uses the new NHL off-sides rules, while Regular uses the older classic NHL rules.
- **Icing:** Auto (Default), Off, NHL, or International – In NHL rules, an Icing infraction is called when a player behind the red line in his end of the rink shoots a puck past the goal line in his offensive zone when both teams are playing at equal strength or the offending team is on a power play, and a player on the opposing team touches the puck first. The teams then face-off at the face-off circle closest to

where the play occurred.

In INTERNATIONAL rules, it doesn't matter who touches the puck first; icing is called automatically after the puck crosses the goal line. Set this option to AUTO, and the game will automatically switch the rules from NHL to INTERNATIONAL depending on the Arena's location. Turn this option OFF, and teams will not be whistled for icing.

- **Two-Line Pass:** Auto (Default), Off, NHL, International – In the NHL, a Two-Line Pass infraction is called when a player passes to a teammate across both the red line and a blue line. It carries the same penalty as Off-sides: the two teams face-off at the location of the infraction. In INTERNATIONAL rules, there is no penalty for Two-Line Passes. Set this option to AUTO, and the game will automatically switch the rules from NHL to INTERNATIONAL depending on the Arena's location. Turn this option OFF, and players will be permitted to make passes that cross both the red line and either blue line.

- **Overtime Type:** None (no overtime is used); Auto (Selects the overtime type that applies to the situation, i.e. Postseason: Continuous, 5 min, 5 on 5); Single 5 min, 4 on 4 (X single, 5-minute sudden death overtime period, with four players on each team); Continuous 20 min, 5 on 5 (Five players on each team, with unlimited 20 minute overtime periods until one team scores.); Single 10 min, 5 on 5, SO (X single 10 minute overtime period, with 5 players on each team. If the game still isn't decided after the 10 minute overtime period, the game is decided by a Shootout.); Single 5 min, 5 on 5 (X single, 5-minute sudden death overtime period, with five players on each team); Continuous 5 min, 4 on 4 (Five players on each team, with unlimited 5 minute overtime periods until one team scores.); Single 5 min, 4 on 4, SO (X single, 5-minute sudden death overtime period, with four players on each team. If the game is tied after this overtime period, the game is decided by a Shootout.); Single 5 min, 4 on 4, 3-Man SO (Default, X single, 5-minute sudden death overtime period, with four players on each team. If the game is tied after this overtime period, the game is decided by a 3-Man Shootout.); Single 5 min, 5 on 5, SO (X single 5 minute overtime period, with 5 players on each team. If the game still isn't decided after the 5 minute overtime period, the game is decided by a Shootout.); Shootout (Games tied at the end of regulation are decided by a shootout. Five players on each team take turns shooting on goal. The team with the most goals wins.)

- **Net Off Moorings:** On (Default) or Off - The net can or cannot be

dislodged depending on this option's setting.

- **Game Clock:** Accelerated (Default) or Real Time – **ACCELERATED:** At the beginning of each period, the game clock will start at 20 minutes and may count down at an accelerated pace depending on the Period Length (e.g. clock ticks twice as fast if the Period Length is set to 10 minutes). **REAL TIME** – At the beginning of each period, the game clock will start at the number of minutes selected on the Period Length option (see General Options). Keep in mind that, in Real Time, if you set the Period Length to less than 20 minutes, then any penalties that remove a player from the ice for a given amount of time (2 minutes or 5 minutes) will remove a the player for an abnormally large proportion of the game.
- **Clock Type:** Auto (Default), NHL, International – **AUTO:** NHL Arenas use NHL Clock and International Arenas use International Clock, **NHL:** Clock counts down to 0:00, **INTERNATIONAL:** Clock counts up from 0:00.
- **Last Minute Real Time:** On or Off (Default) – When ON, the last minute of every period will be played in Real time instead of Accelerated time. Example: If you set the Period Length to 3 minutes with an Accelerated Game Clock, 2 real minutes will blow down the countdown from 20:00 to 1:00, and the last minute is played in Real Time. With this option OFF, in this example the 3 minutes will countdown from 20:00 to 0:00.
- **Freeze Puck Time:** This slider adjusts how long a pinned player has to hold on to the puck before the referee stops play and whistles it frozen.
- **Goalie Freeze Puck Time:** Use this slider to adjust how long a goalie has to hold on to the puck before the referee stops play and whistles it frozen.
- **Puck Friction:** Use this slider to adjust how freely the puck slides around the ice. Increasing puck friction will cause the puck to slow more quickly.
- **Ice Friction:** Use this slider to adjust how much friction the ice exerts on the puck and player's skates.
- **One-Timer Difficulty:** Normal (Default) or Sim – Changes the level of difficulty for one-timers.

FOR IN DEPTH INFO ON SETTING UP PENALTIES, VISIT IN-GAME MANUAL. SETUP PENALTIES

SETUP FEATURES

- **Game Speed:** Use this slider to adjust the game's speed.
- **Home Line Change:** Auto (Default), Semi-Auto, Off or Manual –
AUTO: The CPU automatically handles swapping lines for the home team. SEMI-AUTO: Allows both the user and the CPU to make changes to the home team's lines. OFF: Doesn't allow the user or the CPU to change the lines, but players do not fatigue. MANUAL: Leaves line swapping entirely in the hands of the user.
- **Away Line Change:** Same as the Home Line Change only it's for the away team.
- **Pro Control:** On (Default) or Off – Turning this feature OFF will prevent you from using Pro Control.
- **On The Fly Coaching:** On (Default) or Off – Turn this OFF and you will not be able to use On The Fly Coaching.
- **Enforcers:** On (Default) or Off – Turn Enforcers OFF and Enforcers will play just as regular skaters.
- **Pinning:** On (Default) or Off – Turn this option OFF and players will be unable to pin one another to the wall.
- **Fight Win Speed Burst:** On (Default) or Off – After a fight, the winning player temporarily gets an infinite amount of Speed Burst.
- **Fighting:** Use this slider to adjust how often fights occur.
- **Players Who Fight:** Decide who will be able to fight in a game, All Human-Controlled will be any skater controlled by a person whether they are a fighter or not. Fighters Only is just that, only players designated as fighters will drop the gloves.
- **Referee Collision:** None (Default), Puck Only, Players Only, or All – This option determines what objects will collide with the referees when they come in contact.
- **Glass Breaking Frequency:** Use this slider to adjust how frequently the glass breaks when hit by an errant slap shot.

SETUP GAME-PLAY

Customize your game-play experience by adjusting sliders to determine players' effectiveness at various game skills. You can set

each slider option for human-controlled or computer-controlled (CPU) teams.

- **Goalie Skill:** This slider sets the skill level of the goalie when he's not under direct user control.
- **Offense Skill:** This slider sets the skill level of the offensive players who are not under direct user control.
- **Defense Skill:** This slider sets the skill level of the defensive players who are not under direct user control.
- **Speed Burst Effect:** Sets the amount of speed that is gained by performing a speed burst.
- **Speed Burst Time:** Sets the length of time that a speed burst will last.
- **Speed Burst Recovery:** Sets the length of time necessary for a player to replenish his speed burst meter.
- **Fatigue Effect:** This slider determines how strongly fatigue affects players' performance.
- **Fatigue Recovery:** This slider determines how long it takes a player to recover once he has become fatigued.
- **Fatigue Time:** This slider determines how long it takes a player to become fatigued.
- **Hitting Power:** This slider determines the average strength of players' hits.
- **Shot Accuracy:** Sets the overall level of accuracy of players' shots.
- **Pass Accuracy:** Sets the overall level of accuracy of players' passes.
- **Pass Speed:** Sets the overall speed of players' passes.
- **Pass Interceptions:** Sets the frequency and ease of pass interceptions.
- **Rebound Distance:** Sets the frequency that shots will rebound off of the goalie.
- **Shot Blocking:** Sets the frequency and ease with which defenders block shots on goal.
- **Puck Retention:** Sets the overall ability of players to retain the

puck regardless of defensive harassment.

- **Puck Control:** Adjusts the players' overall skill at puck control.
- **Goalie Anticipation:** Adjusts the goalie's skill at anticipating where the player/puck will be.
- **Goalie Cover Depth:** Adjusts how far out the goalie will play.
- **Goalie Saves:** Adjusts the goalie's skill at making saves.

CONTROLS:

CONTROL SETTINGS

- **Current Profile:** Sets the User Profile to which these Controls will be assigned.
- **Controller:** Classic, Intermediate (Default), or Advanced - Select your desired Control Configuration.
- **Goalie Control:** Semi-Automatic (Default), Automatic, and Manual - SEMI-AUTOMATIC: User controls the goalie when the goalie has the puck. AUTOMATIC: The computer controls the goalie. MANUAL: User controls the goalie when he has the puck, and can manually switch to the goalie by pressing L1 and R2 simultaneously.
- **Pass Aim Assist:** With this slider empty, the user's passes go where they are aimed with the left analog stick. The more the slider is filled, the more help the user will get with aiming passes.
- **Shot Aiming:** Auto (Default) or Manual - MANUAL: The user controls where his or her shot goes. AUTO: The computer handles aiming shots for the user.
- **Auto Puck In Air Grab:** On (Default) or Off - ON: The user-controlled player automatically grabs pucks shot up in the air. OFF: The user must press L2 (in Intermediate and Advanced Controls) or press L1 (in Classic Controls) to grab the puck from the air.
- **Player Lock Type:** Semi-Manual (Default), Manual, and Full Lock - SEMI-MANUAL: You control the player with the puck. On defense, you can switch players by pressing X. MANUAL: Stay controlling one player until you press X to switch. FULL LOCK: User always controls one player, and cannot switch players at all (the Change Player button ceases to function).

- **Preferred Start Position:** C (Default), LW, RW, LD, RD, G - Choose the position that the user will start the game controlling.
- **Icon Switch:** On (Default) or Off - Turn this OFF, and you will be unable to use the player icon switch feature.

--Note: press L1 + X to perform an Icon Player Switch

- **Puck Protection:** Auto (Default) or Manual - **MANUAL:** When you press and hold O to protect the puck, you can move the puck around with the **left analog stick**. **AUTO:** When you press O to protect the puck, the player automatically moves the puck for you to keep it away from opponents.
- **Vibration Feature:** Off (Default) or On - When ON, the controller will vibrate when your player is involved in a check.
- **One Timer Passing:** On (Default) or Off - Turn this OFF, and one-touch passes will not occur in the game.

CONTROLLER LAYOUT

Learn the button commands for each situation or customize them to your liking.

- Press R2 or L2 to cycle through the command scenarios.
- Press L1 or R1 to view the controls as modified by L1 or R1.
- To customize the face buttons (X, Δ, □, and O) controls, press O to initiate Button Swap Mode. If you want to back out of the Button Swap Mode, double tap the O button and then press the Δ button.
- To select a button whose function you wish to reassign, press O, then press that button. The button's function will appear highlighted in red. Press the other button whose functionality you wish to swap with the first button. The buttons will swap and you will automatically exit Button Swap Mode.

PRESENTATION:

PRESENTATION CAMERA

- **Camera: SIDE:** This is a diagonal view from the side of the rink, similar to the 3/4 camera. **3/4:** This is a diagonal camera view of the action. It also tries to stay ahead of the action to allow you to see

what's going on around you better.

OVERHEAD: This is a top-down view from directly above the puck.

ACTION: This camera brings you the very closest to the action.

PARAMETRIC:(default) This is a cinematic view of the action.

- **Camera Zoom:** Adjusts the zoom of the in-game camera.
- **Camera Direction: NORMAL:** Default camera direction. During the 1st period the home team will have the top goal and the away team will have the bottom goal. After each period they swap goals but the camera perspective remains the same- in the case of the 2nd period the away team will have the top goal and the home team will have the bottom goal. **HOME ALWAYS UP:** Regardless of period, the home team goal is located at the top of the screen. **AWAY ALWAYS UP:** Regardless of period, the away team goal is located at the top of the screen. **REVERSED:** Goal locations are opposite of default settings, but the period change is still in effect.

PRESENTATION AUDIO

- **Audio Presentation:** Move the **directional buttons** or **left analog stick** to cycle through a number of presets. This option automatically switches to Custom if you modify Audio Volume Sliders individually.
- **Volume Sliders:** Adjust the volume of the Commentator, Announcer, Crowd, their Chants, Arena Music, Sound FX, and Arena Horn sound channels. - Move **LEFT** or **RIGHT** on the **directional buttons** or **left analog stick** to increase or decrease the sliders.
- **Fan Mail:** On (Default) or Off - When this is off you will not hear fan mail questions while the game is paused.

PRESENTATION VIDEO

- **Show Picture-In-Picture (PIP):** Off or On (Default) - Turn this OFF and PIP of referee dropping the puck will be removed.
- **Show Enforcer Indicator:** Off or On (Default) - Turn this OFF and Enforcer Indicators under players will be removed.
- **Show Player Type Indicator:** Off (Default) or On - When On, a symbol will appear next to the player's name, showing what type of player the user has control of.

- **Intense Contact Bar:** On (Default) or Off - When ON, a circular bar (about 1/8th the size of the selection circle) is displayed for all players. That bar fills with red relative to the number of Intense Contact moves that individual player connects an opposing player with.
- **Puck Shadow:** On (Default) or Off - When ON, a shaded circle appears around the puck to make it easier to see.
- **Player Name Indicator:** Name and Position (Default), Name, Position, None - Select the text that appears beneath each user's player.
- **Challenge Mode Notification:** On (Default) or Off - When ON, an overlay will appear to notify you when you've accomplished one of the game's Challenges.
- **Line Change Overlay:** Adjusts the duration that the Line Change Overlay stays on screen.
- **Music Player Popup:** On (Default) or Off - When ON the music player overlay will appear when called up.
- **Score Overlay:** On (default) Off - Toggles in game score overlays on or off.
- **Pro Control Overlay:** On (Default) or Off - Turn this feature OFF and Pro Control will be disabled.
- **OTF Coaching Tips:** On (Default) or Off - Turn this feature OFF and Coaching Tips will not appear in-game.
- **Progressive Scan:** Turn this feature ON to change the resolution to 480p (Note: TV must be able to support 480p)

MUSIC:

MUSIC 2K BEATS

- Select which audio tracks you hear in the menus and in game.
- Check out the artist info for your favorite tracks.

ROSTERS: (SEE ROSTER SECTION)

ONLINE DESK:

This menu will give you access to different online features when you are signed in.

SAVE / LOAD:

Save / Load Load, (Settings, Profile, Franchise, Season, Tournament et al.)

- Press **L1/R1** to switch between the HDD and Memory Card.
- Press **X** to load the file.

Save / Load Save Settings, (Profile, Franchise, Season, Tournament et al.)

- Press **L1/R1** to switch between the HDD and the Memory Card.
- Press **X** to select the save slot.
- Use the Virtual Keyboard to enter a name for the save.
- You can only save over existing files that are the same type of file you are saving.

SAVE / LOAD DELETE

- Press **L1/R1** to switch between the HDD and the Memory Card.
- Press **X** to Delete the selected file.

MANAGE PROFILES:

The Manage Profile screen enables you to create a Profile, load a Profile, remove a Profile as well as perform other profile related actions.

- Press **L1** or **R1** to switch between Profile Slots. Move the **left analog stick** to highlight the desired Profile Action. Press **X** to use that profile action.
- **Set as Active:** Set the current profile as active.
- **Edit Profile Name:** Change the name of the current profile.

- **View Stats Book:** Allows you to view the stats for the active profile.
- **View User Challenges:** View the user challenges for the active profile.
- **View All-time Records:** View any records that have been set.
- **Favorite Team:** Set the favorite team for the active profile.
- **Unload Profile:** Close the active profile.
- **Save Profile:** Save the active profile.

SAVING: PROFILES VS. GAME MODES VS. SETTINGS VS. ROSTERS

It's important to note that NHL 2K7 has multiple SAVE TYPES. Saving one type of file will not save another type. So, for example, saving your User Profile while in Franchise mode WILL NOT also save your Franchise mode. The saves can generally be divided up as follows:

Game Modes – Saves for Franchise, Season, or Tournament. In order to save your progress within one of these game modes, you MUST make a save for the specific game mode.

Profiles – Save for User Profiles. Saving this will save everything that is tied to your profile – overall statistics, personal bests, unlockables, etc.

Settings – A Settings save will save all of your modified options, such as NHL rules, Presentation style, etc.

Rosters – Saving a Rosters file will save any rosters that you have modified from the front end. In other words, you can't save a roster from within your Franchise, but any changes done from the Main Menu can be saved and quickly loaded in the future.

To actually perform a save, select Options from any menu out of game-play and then Save/Load. You will see all applicable save types. For example, Options → Save/Load within Franchise will then show you menu selections for both "Save Franchise" and "Save Profile."

NETWORK PLAY

ONLINE

NHL 2K7 SUPPORTS ONLINE GAMING.

Setting Up Your PlayStation®2 Console for Network Online Play

NHL 2K7 is compatible with network configuration files from other PlayStation®2 online games. To play online with NHL 2K7 you'll need to have a network configuration file saved on your memory card (8MB) (for PlayStation®2). You can use the Network Adaptor Start-Up Disc that came with your network adaptor (Ethernet/modem) (for PlayStation®2) or the Network Configuration GUI in this game to create a network configuration.

You'll need to know the setup information for your Internet Service Provider (ISP), such as your user ID and password if applicable. You may want to have the documentation from your Internet Service Provider handy when you begin.

To setup our Network/Internet connection, select Launch network configuration utility from the **NETWORK CONFIGURATIONS** menu. This will open the Network Settings main menu.

QUICK MATCH:

Quick Match is the fastest way to challenge an opponent. It is intended for players to easily find and enter a game. When you select Quick Match, you will automatically challenge another user to a game. If they accept the challenge, the Team Select screen will appear.

Use the following options to select an opponent

- Opponent Rank: Top 900 to top 100.
- 2K Feedback: Select the feedback rating for your opponent.
- Press **START** to find a match.

LOBBIES

Lobbies are where you can challenge other users or chat. Once in the Lobbies menu, select a specific game type to enter a lobby.

- Press R2 to chat open the chat window.
- To perform a lobby related action, highlight a player name and press X. The actions you can perform are Send Challenge and Mute user.
- Press R1 to see challenges from other users.

LOBBY ACTIONS:

- **Send Custom Challenge:** Use this screen to create a game with the options you desire.
- **Send Lobby Challenge:** Use this screen to create a lobby challenge with the options you decide.
- **Game Style:** Default, Sim, Arcade, Physical - Pick the set of game options to use.
- **Game Type:** Exhibition, Battle Mode, and Mini-Rink - Pick the game type you wish to play.
- **Ranked:** Yes or No (Default) - Set whether the game you will play is ranked or not.
- **Max players per team:** 1-6.
- **Difficulty:** Amateur (Default), Rookie, Pro, All-Star, or Hall of Famer - Set the difficulty for your Exhibition game.
- **Period Length:** 1 through 20 (5 is Default) - Set the period length (in minutes) for your Exhibition game.
- **Offside:** Regular (default) Off and Tag-up
- **Two Line Passing:** On (Default) or Off
- **Icing:** NHL (Default) International, Auto or Off
- **Game Speed:** Use this slider to adjust the game's speed.
- **Penalties:** On (Default) or Off

- **AI Sliders:** On or Off (Default) - Adjust the CPU's playing skill.
- **Sequence Type:** (Battle Mode only) Winner Pick (default) Random. Decides if the winner gets to select the party game type or if the game type is random.
- **Game Count:** (Battle Mode only) The amount of Battle Mode games per session.

LEAGUES

You can set up Tournaments and Seasons that friends can participate in without leaving home.

Create Season or Tournament: (You are the Admin)

First you must set your Tournament's options.

- **League Name:** Type in the name of your league.
- **League Password:** Make a password for your league. Be sure to send your friends the password so they can join. If you want to make the league open to all players, do not set a password.
- **Private:** Yes or No (Default) - To make your tournament a private league.
- **Number of Players:** 8 (Default) - Choose from 4 to 30 players in the league. You can only have an even number of players in this type of league.
- **Interval Between Rounds:** 1-7 Days (Default) - Choose how many days in-between rounds you want your regular season games to be played.
- **Series Length:** 1 (Default) - Choose the length (number of games) of your season.
- **Trading:** (On is Default) - ON allows players to trade during the season.

JOIN SEASON OR JOIN TOURNAMENT

This screen allows you to browse through active Seasons or Tournaments. Press **X** on the Season or Tournament to display the users who are currently in that league, and press **START** if you want to join.

MY LEAGUES

Enter into your Tournament or Season you've created or joined. Press **START** on the Tournament or Season you participate in. You cannot enter your league until it is full and a schedule has been generated by the league admin.

If you are the league admin you have the following options before the league actually starts:

- **Manage Players** - Highlight an undesired player and press **X** to opt to ban or drop them. It is highly recommended that you Manage Players before Generating a Schedule.
- **Generate Schedule** - You have to generate your schedule before your league can begin. Press **X** to highlight a team, then move the left analog stick to highlight another team with whom you want to swap placement. Repeat this until the schedules are what you envisioned them to be. When you've finished changing match-ups, press **START** to generate your League's Schedule.

After your league is full and the admin has generated the schedule you have the following options:

- **Lobby** - Enter the lobby to accept or challenge your next opponent as determined in the schedule. The lobby also displays the other players in your league and their next game. Pressing **X** on your next game will bring up an overlay filled with these options: Ready to Play, Send Message (via 2K Sports Messaging), or Filing a Complaint.
- **View Schedule or Tournament Tree** - Here you and the players in your league can see the schedule.
- **Notifications** - View all the news around the online league here.
- **Trades** - In the Trades screen you can trade the players on your team by selecting **CREATE** and pressing **X**. You can also see the

Received, Sent, and Pending trades by moving your **left analog stick**. The player whom you've offered a trade has to accept the trade and the Admin has to clear it before it can be completed.

- **Stats - Standings** – Displays the current standings for your league.

Team Stats - Displays the stats of the teams in your league.

Player Stats - Displays the stats of individual players of teams in your league.

Player Leaders - Displays the stats of top players in your league.

- **Edit Line** - See (Edit lines) in the In Game Pause Menu.

- **Roster** - Scratch players or send players to minors using this screen just like you would offline.

- **View Options** - View the leagues Settings and Options here.

- **Administrator Options** (available to the admin only) - Here the admin can manage players and schedule. The admin can drop players from the league in Manage Players. In the Manage Schedule option you can simulate (select Determine Winner) a League game instantly. This allows the current week to be finished and the next week to begin in the case of tardiness.

ONLINE DESK:

- **Leaderboards** - The Leaderboards screen downloads the current leaders from the server complete with their records and player statistics.

- **News** - Here you can check the latest news for up to date info on 2K SPORTS NHL 2K7.

- **Downloads** - The Downloadable Content screen will download the latest NHL rosters to keep your game up to date with the pros. Highlight an update and press X to download it.

- **Online FAQ** - This is where Frequently Asked Questions about online play will be posted, oh and we'll give the answers too.

- **My Player Card** - This screen gives you all the information for Stats and Feedback.

MAIN MENU: RETURNS YOU TO THE MAIN MENU.**Note:**

If you frequently experience difficulty joining a NHL® 2K7 online game and are using an Internet sharing device (e.g. broadband router or firewall) you may need to enable Port Forwarding (sometimes called Virtual Server) on the device. Please refer to the manual that came with your Internet sharing device for specific setup instructions. You will need to forward UDP port 3658 to the IP address assigned to your PlayStation®2 console. This may require changing Your Network Configuration file from an "Auto" IP address (DHCP) to a "Manual" IP address.

NHL® 2K7 includes a Network Configuration GUI for setting up and modifying these files. If you continue to experience difficulty joining online games, try bypassing your Internet sharing device by connecting your PlayStation®2 console directly to your DSL, modem, or cable modem. In this case, you may need to create a new Your Network Configuration file before your PlayStation®2 console will connect to the Internet.

2K Games Videogames reserves the right to discontinue online service for this title with 30 days notice.

This game is presented in Dolby Pro Logic II. Connect your game console to a sound system with Dolby Pro Logic, Dolby Pro Logic II, or Dolby Pro Logic IIx decoding to experience the excitement of surround sound. You may also need to select "Dolby Pro Logic II" from the audio options menu of the game.

LIMITED SOFTWARE WARRANTY AND LICENSE AGREEMENT

YOUR USE OF THIS SOFTWARE IS SUBJECT TO THIS LIMITED SOFTWARE WARRANTY AND LICENSE AGREEMENT (THE "AGREEMENT") AND THE TERMS SET FORTH BELOW. THE "SOFTWARE" INCLUDES ALL SOFTWARE INCLUDED WITH THIS AGREEMENT, THE ACCOMPANYING MANUAL (S), PACKAGING AND OTHER WRITTEN, ELECTRONIC OR ON-LINE MATERIALS OR DOCUMENTATION, AND ANY AND ALL COPIES OF SUCH SOFTWARE AND ITS MATERIALS. BY OPENING THE SOFTWARE, INSTALLING, AND/OR USING THE SOFTWARE AND ANY OTHER MATERIALS INCLUDED WITH THE SOFTWARE, YOU HEREBY ACCEPT THE TERMS OF THIS LICENSE WITH 2K SPORTS. ("LICENSOR").

LICENSE. Subject to this Agreement and its terms and conditions, LICENSOR hereby grants you the non-exclusive, non-transferable, limited right and license to use one copy of the Software for your personal use on a single console. The Software is being licensed to you and you hereby acknowledge that no title or ownership in the Software is being transferred or assigned and this Agreement should not be construed as a sale of any rights in the Software. All rights not specifically granted under this Agreement are reserved by LICENSOR and, as applicable, its licensors.

OWNERSHIP. LICENSOR retains all right, title and interest to this Software, including, but not limited to, all copyrights, trademarks, trade secrets, trade names, proprietary rights, patents, titles, computer codes, audiovisual effects, themes, characters, character names, stories, dialog, settings, artwork, sounds effects, musical works, and moral rights. The Software is protected by United States copyright law and applicable copyright laws and treaties throughout the world. The Software may not be copied, reproduced or distributed in any manner or medium, in whole or in part, without prior written consent from LICENSOR. Any persons copying, reproducing or distributing all or any portion of the Software in any manner or medium, will be willfully violating the copyright laws and may be subject to civil and criminal penalties. Be advised that Copyright violations are subject to penalties of up to \$100,000 per violation. The Software contains certain licensed materials and LICENSOR's licensors may protect their rights in the event of any violation of this Agreement.

LICENSE CONDITIONS

You agree not to:

- (a) Commercially exploit the Software;
- (b) Distribute, lease, license, sell, rent or otherwise transfer or assign this Software, or any copies of this Software, without the express prior written consent of LICENSOR;
- (c) Make copies of the Software or any part thereof;
- (d) Except as otherwise specifically provided by the Software or this Agreement, use or install the Software (or permit others to do same) on a network, for on-line use, or on more than one console at the same time;
- (e) Copy the Software onto a hard drive or other storage device and must run the Software from the included CD-ROM (although the Software may automatically copy a portion of itself onto your console during installation in order to run more efficiently);
- (f) use or copy the Software at a computer gaming center or any other location-based site; provided, that LICENSOR may offer you a separate site license agreement to make the Software available for commercial use;
- (g) Reverse engineer, decompile, disassemble or otherwise modify the Software, in whole or in part;
- (h) Remove or modify any proprietary notices or labels contained on or within the Software; and
- (i) transport, export or re-export (directly or indirectly) into any country forbidden to receive such Software by any U.S. export laws or accompanying regulations or otherwise violate such laws or regulations, that may be amended from time to time.

THE SOFTWARE UTILITIES.

The Software may contain a level editor or other similar type tools, assets and other materials (the "Software Utilities") that permit you to construct or customize new game levels and other related game materials for personal use in connection with the Software ("Customized Game Materials").

In the event the Software contains such Software Utilities, the use of the Software Utilities is subject to the following additional terms, conditions and restrictions:

- (a) All Customized Game Materials created by you are exclusively owned by LICENSOR and/or its licensors (as the case may be) and you hereby transfer, assign and convey to LICENSOR all right, title and interest in and to the Customized Game Materials and LICENSOR and its permitted licensors may use any Customized Game Materials made publicly available to you for any purpose whatsoever, including but not limited to for purposes of advertising and promoting the Software;
- (b) You will not use or permit third parties to use the Software Utilities and the Customized Game Materials created by you for any commercial purposes, including but not limited to distributing, leasing, licensing, renting, selling, or otherwise exploiting, transferring or assigning the ownership of such Customized Game Materials;
- (c) Customized Game Materials must be distributed solely for free; provided, that you may contact LICENSOR for a license to commercially exploit the Customized Game Materials which LICENSOR may grant or deny in its sole discretion;
- (d) Customized Game Materials shall not contain modifications to any other executable files;
- (e) Customized Game Materials must be used alone and can be created if the Customized Game Materials will be used exclusively in combination with the commercially released retail version of the Software.
- (f) Customized Game Materials cannot contain libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party, or contain any trademarks, copyright-protected work or other property of third parties (without a valid license); and
- (g) All Customized Game Materials must contain the proper credits to the authors of the Customized Game Materials and must indicate that LICENSOR is not the author of the Customized Game Materials with additional language that "THIS MATERIAL IS NOT MADE, GUARANTEED OR SUPPORTED BY THE PUBLISHER OF THE SOFTWARE OR ITS AFFILIATES."

LIMITED WARRANTY: LICENSOR warrants to you (if you are the initial and original purchaser of the Software) that the original storage medium holding the Software is free from defects in material and workmanship under normal use and service for 90 days from the date of purchase. If for any reason you find a defect in the storage medium during the warranty period, LICENSOR agrees to replace, free of charge, any Software discovered to be defective within the warranty period as long as the Software is currently being manufactured by LICENSOR. If the Software is no longer available, LICENSOR retains the right to substitute a similar program of equal or greater value. This warranty is limited to the storage medium containing the Software as originally provided by LICENSOR and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied

warranties prescribed by statute are expressly limited to the 90-day period described above. Except as set forth above, this warranty is in lieu of all other warranties, whether oral or written, express or implied, including any other warranty of merchantability, fitness for a particular purpose or non-infringement, and no other representations or warranties of any kind shall be binding on LICENSOR.

When returning the Software subject to the limited warranty above, please send the original Software only to the LICENSOR address specified below and include: your name and return address; a photocopy of your dated sales receipt; and a brief note describing the defect and the system on which you are running the Software.

IN NO EVENT WILL LICENSOR BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE SOFTWARE, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. LICENSOR'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR USE OF THE SOFTWARE. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS THAT VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION: This Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of the Software and all of its component parts. You can also end this Agreement by destroying the Software and all copies and reproductions of the Software and deleting and permanently purging the Software from any client server or computer on which it has been installed.

U.S. GOVERNMENT RESTRICTED RIGHTS: The Software and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is the LICENSOR at the location listed below.

EQUITABLE REMEDIES: You hereby agree that if the terms of this Agreement are not specifically enforced, LICENSOR will be irreparably damaged, and therefore you agree that LICENSOR shall be entitled, without bond, other security, proof of damages, to appropriate equitable remedies with respect any of this Agreement, in addition to any other available remedies.

INDEMNITY: You agree to indemnify, defend and hold LICENSOR, its partners, licensors, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Software pursuant to the terms of the Agreement.

MISCELLANEOUS: This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under New York law as such law is applied to agreements between New York residents entered into and to be performed within New York, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in New York, New York.

IF YOU HAVE ANY QUESTIONS CONCERNING THIS LICENSE, YOU MAY CONTACT IN WRITING 2K SPORTS, 575 BROADWAY, NEW YORK, NY 10012.

This Software uses "DNAS" (Dynamic Network Authentication System), a proprietary authentication system created by Sony Computer Entertainment, Inc. ("SCEI"). "DNAS" retrieves information about a user's hardware and software for authentication, copy protection, account blocking, system rules, or game management and other purposes. The information collected does not identify the user personally and will not be shared with any non-SCEI company. A Publisher can combine this information with personally identifying information from Publisher's records if the user provides the personally identifying information. Before providing any personal information to a Publisher, please be sure to review the Publisher's privacy policy and terms and conditions of use. Do not provide personally identifying information to a Publisher unless you accept the conditions of use and terms of their privacy policy. SCEI, Sony Computer Entertainment America ("SCEA") and their affiliates cannot guarantee the continuous operation of the "DNAS" servers. SCEA shall not be liable for any delay or failure of the "DNAS" servers to perform. If you receive a message during login identifying a "DNAS" authentication error, please contact SCEA Consumer Services at 1-866-466-5333. For additional information concerning "DNAS", visit www.us.playstation.com/DNAS. In the event of a systems incompatibility or inoperability with DNAS, the sole liability of SCEI, SCEA and their affiliates shall be limited to the repair or replacement of the user's affected game software, console, or peripherals at the option of SCEA. SCEA, its parents, affiliates, or licensed Publishers shall not be liable for any delays, system failures, authentication failures, or system outages, which may, from time to time, affect online game play or access thereto.
