WELCOME TO UNDERGROUND

This racing scene is not advertised in the paper, it has no official sponsors, and there are no grandstands at the finish line. Races happen late at night under the cover of darkness, on public streets but away from the public eye. In short, they happen underground.

Need for Speed Underground immerses you in the rolling party that is underground racing, a world where races come together quickly and quietly, and where reputation counts for more than any trophy. Make a reputation for yourself by matching cars and reflexes with the top urban drivers—AI, multiplayer, and online—as you strive to gain respect in this dangerous world.

Drive highly tuned imports against the best drivers at their favorite hometown haunts. Win races and use your earnings to tweak every detail of your car; then see your machine rendered on-screen in lustrous detail. Take it back to the streets for an even bigger race.

The streets are made for cars, and these cars are made for racing, so get ready to run 'em in the ultimate vehicular rush: *Need for Speed Underground*.

CUSTOMIZING YOUR CAR

A new breed of low-slung street machines has taken over the roads, and yesteryear's steel hotrods just can't compete. Today's lightweight alloy and carbon-fiber tuners use revolutionary engine modifications to propel them to absurd speeds. Their bold visual effects turn heads, even when moving at a crawl.

SELECT A CAR

Your ride makes or breaks your reputation in the underground. Looks are important, but no one pays much attention to any car if it's running dead last.

MAKE AND MODEL

Browse through the available cars but don't think of them as finished products. With a few wins under your belt you'll be customizing these base vehicles into exquisite street machines that car dealers can barely recognize.

- * When picking a car, check out the Acceleration, Top Speed, and Handling ratings at the bottom of the screen. Performance modifications can improve these characteristics later, but you'll need to win some races with your stock vehicle in order to fund any serious work under the hood.

CUSTOMIZING

New cars are nice at the showroom, but there's plenty of room for improvement once they hit the streets. Make your car your own with *Need for Speed Underground's* extraordinary customization process. A vast array of modifications is available for your ride—if you've got the bank, that is.

➔ To customize a Quick Race car, select CUSTOMIZE RIDE from the Main menu and press the **X** button.

TO CUSTOMIZE YOUR UNDERGROUND CAR:

1. Select UNDERGROUND from the Main menu and press the **X** button. The Underground menu appears.
2. Select CUSTOMIZE RIDE from the Underground menu and press the **X** button. The Customize screen appears. You may now begin customizing your car.

REPUTATION (YELLOW STARS)

Your car can contribute to your style point score just by looking smooth. The more you modify your car visually, the more reputation you'll get. Each yellow star in the Reputation meter is a bonus multiplier for style points. For example, two yellow stars automatically doubles your style point score.

In addition, reputation is required to enter Underground Mode tournaments. Cars without enough reputation are considered "not cool" and have to upgrade their look to get into the tournament.

VISUAL MODS

Style is in the details, so *Need for Speed Underground* leaves the details up to you. Choose from dozens of styles of hoods, rims, bumpers, exhaust tips, spoilers, side skirts, and more. Transform your car's surfaces with luminescent paint, vinyl graphics, positional decals and window tints; and if that's not enough you can float the whole package over glowing neon.

VINYLS

Vinyls are distinctive graphics that stick to your car's bodywork. They can be placed in up to four layers, allowing you to stack graphics for a collage effect. Each vinyl's color can also be customized, to further individualize your car's look.

- ➔ To stack vinyls, place the first vinyl on the bottom layer and then select a different layer for the next vinyl. The new vinyl is placed on top while leaving the first one undisturbed.

DECALS

Decals are manufacturer's stickers that come with the products you purchase for your car. For example, if you purchase a performance modification package, you will gain access to all the companies' decals associated with that package which you can place on your car. Decals can be placed in a number of zones including windows, doors, quarter panels, and the hood.

PERFORMANCE MODS

Let's face it, the automotive engineers who designed these cars never thought they could go this fast. Today's tuner culture hungers for speed, so they've enhanced every aspect of automotive performance with computer-designed aftermarket parts. *Need for Speed Underground* offers hundreds of modifications from brand-name manufacturers. Everything from chips to nitrous oxide to weight reduction kits are available. Add all of this available power to your car and just keeping it under control could be a challenge.

- * Highlight a modification to see how it would improve your car's performance. Note the effect of the modification on the Acceleration, Top Speed, and Handling status bars.

OPTIONS MENU

Customize your settings for the entire game.

DRIVE YOURSELF CRAZY

You can drive like your dad when you get old, but now is the time to drive like your reputation depends on it... because it does.

STYLE POINTS

During every race you gain or lose points for your driving moves. Gain points for sliding sideways, getting airborne, avoiding traffic, drifting, and so on. Lose points for hitting traffic cars or failing to clear a big jump. After each event your style points are added to an ever-growing total, and as your total swells you'll unlock new cars and new vinyl graphics.

* Some events, such as drift races, are purely style competitions. Score more points than your opponents and you win.

Tip: Customize your car to gain street respect and increase your style points. A wildly tweaked car can score up to five times the style points in every race. ➤ *Reputation (Yellow Stars)* on p. 8.

MAP

The map shows your relative position to other racers. You are the orange arrow, the other racers are blue arrows.

JUMP CAMERAS

Special cameras pull back to capture the action when you catch air or pile into another car. The sensitivity of these cameras can be adjusted (➤ *Options menu* on p. 10).

UNDERGROUND

Underground racing is not a one-night stand. It's a challenging series of races that require dedication and skill. Completing underground challenges unlocks visual and performance car modifications, as well as the decals that go with them.

CAREER STATUS

You can review your status in underground mode by selecting one of the following options from the Underground menu:

STATISTICS	Your stats in each race mode.
RANKINGS	Player rankings in each race mode.
MAGAZINES	See magazine covers that feature your car.

BANK

It takes cash to tune your car and you'll get plenty by winning races. Each victory will add to your bank. Spend it on visual and performance modifications when you customize your ride.

➔ To move on to the next Underground race, select RACE MAP from the Underground menu.

TRADE IN YOUR OLD CAR

Getting tired of your ride? Consider trading it in for a new one. You can swap for a stock model of a different vehicle, and you get to customize a fresh machine. All previously unlocked modifications remain available for the new car.

➔ To trade in your ride, select TRADE IN from the Customize menu and press the  button.

SPLIT-SCREEN

Two-player racing puts you up against your friends and their custom rides on a variety of tracks in any race mode.

- * Races appear on a split-screen with Player 1 on the top of the screen and Player 2 on the bottom.

TO BEGIN A NEW TWO-PLAYER GAME:

1. Select SPLIT-SCREEN from the Main menu and press the  button. The Quick Race screen appears.
2. Select a race mode and press the  button. The Car Select screen appears.
3. Select each player's car and press the  button. This can be done simultaneously. The Location screen appears.
4. Select a location and press the  button.
5. Set mode options and press the  button. Gameplay begins.

PAUSE MENU

Press the **START** button during gameplay to access the Pause menu.

- | | |

| RESUME RACE | Get back into the race. |
| RESTART | Do this race over. |
| OPTIONS | Adjust game settings (➤ <i>Options menu</i> on p. 10). |
| QUIT | End the race and return to the Main menu. |

RACE MODES

What kind of race are you down for?

CIRCUIT

See the city in seconds on the circuit tour. Race on a big looping course, and when all race laps are done you'll finish right where you started: at the party.

SPRINT

Racing plain and simple: this point to that point. Get there first.

DRAG

Wind your motor to the limits in a pedal-mashing, speed-shifting drag race.

- * All self-respecting drag racers use manual transmissions, and that includes you. Watch your tach carefully and shift up by pressing the **R2** button when the tach needle turns green.
- * Classic drags test the acceleration limits of your machine, and don't think the driver isn't tested as well. Shift too early and you waste your car's power; shift too late and overrevving could fry your precious engine.

DRIFT

Slide to the side to get props from your peeps. If your tires don't break loose, then you're impressing nobody.

- * Drift racing is your chance to win massive style points by sliding around turns. Slide sideways on these courses to accumulate points. But beware, the walls come up quickly and stopping ain't easy.
 - * Your car won't behave the same on a drift track as it does on a regular city street. The center of the road is oiled down to reduce friction and let you break loose a little easier.
- ➔ Tap your emergency brake to initiate a slide, then steer with the skid and feather the throttle to keep it going.

LAP KNOCKOUT

Don't save all of your nitrous for the last lap, because the racer in last place is eliminated at the end of each lap.

FREE RUN

No competition, no time limit, no rules. The open road beckons. This is a great way to thoroughly check out each track.

TOURNAMENT (UNDERGROUND MODE ONLY)

In Underground Mode, you must race in tournaments. These are multi-race events where each race gives you points depending on how you finish. The winner is the driver at the end of the tournament who earns the most points.

- * Remember, you have to meet a tournament's reputation requirement (Yellow Stars) to enter. If you don't have a high enough reputation then you won't be allowed to race. Buy visual upgrades to increase your reputation!

POST RACE SCREENS

At the end of each race a status screen displays the finish position of the cars. The winner's overall race time is displayed and each losing car displays its time behind the leader at the finish line.

- To display your score for this race, press the  button.
- For more information about the race you just finished select STATISTICS from the End of Race menu and press the  button.
