

The cover art features the three main Power Rangers in the foreground: the Red Ranger (center, red and white striped suit), the Yellow Ranger (left, yellow and white striped suit), and the Blue Ranger (right, blue and white striped suit). They are all in dynamic, action-oriented poses. Behind them are three large, stylized dinosaur heads: a red and white striped one at the top, a yellow and white one on the left, and a blue and white one on the right. The background is a bright blue sky with white clouds. The title 'POWER RANGERS' is written in large, white, 3D block letters with a black outline, and 'DINOTHRUNDER' is written below it in a similar style but with a yellow-to-orange gradient fill and a black outline. A small 'TM' trademark symbol is visible to the right of the title.

THE ZORD ADVENTURE

Dr. Tommy Oliver, the Black Ranger, along with Dr. Anton Mercer originally constructed the DinoZords by combining actual dinosaur DNA with technology. Built to aid the Rangers in their fight to protect humanity, they link up to form the Thundersaurus Megazord!

Growing weary of countless defeats at the hands of the Power Rangers' mighty Thundersaurus Megazord, Mesogog formulates a sinister plan to remove the pesky Power Rangers from his path once and for all. He realizes that while the Megazord has been invincible thus far, perhaps he can divide and conquer. He devises a devious trap for each of the Power Rangers' DinoZords. By separating them, he will prevent them from forming the Megazord and foiling his plans!

Mesogog places Zeltrax in charge and creates an army of obedient giants with a single purpose: cripple the DinoZords by draining their energy and imprisoning them in a prison dimension! Without the DinoZords, the Power Rangers cannot form the Megazord, and Mesogog would have an unstoppable force. One by one, the DinoZords begin to vanish!

From his secret lab under the Reefsides City Tar Pits, Dr. Oliver detects the DinoZords disappearing. He sends Conner, Kira, and Ethan on a mission, taking their DinoZords to the last known location of the missing Parasaur Zord. When they arrive, the Parasaur Zord is gone without a trace. Mesogog, watching from his hidden base, sends a full wave of his new forces as a surprise attack, hoping to capture the DinoZords and rid himself of the Power Rangers once and for all.

Overwhelmed by Mesogog's army, Kira and Ethan struggle to defend themselves. Little by little, their DinoZords continue to lose energy until it is too late. With their DinoZords drained completely, an Invisiportal opens and in an instant, Kira in her Ptera Zord and Ethan in his Tricera Zord disappear. Conner and his Red Tyranno Zord fight on, alone and grossly outnumbered with time running out.

With almost no energy left, Connor escapes and returns to the Reefsides City Tar Pits. Within the new research facility below the Anton Mercer Museum, Dr. Oliver will monitor the Tyranno Zord and form a plan for rescuing Kira, Ethan, and the lost DinoZords. From here, Conner and Dr. Oliver can work together on repairing the Tyranno Zord.

Until then, the Megazord cannot be formed and Mesogog's giant creations scour the land, searching for the last DinoZord and its pilot Power Ranger, Conner McKnight...
