THE STORY

Scooby-Doo and the gang are back on the case, trying to solve a supernatural mystery. What starts out as a routine ghost-hunting caper, soon turns into a task of monstrous proportions! A mysterious villain is using an ancient book, the Tome of Doom, to unleash some of the creepiest creatures the gang has ever met. Scooby, *Shaggy* and the gang will need your help to find the Tome of Doom, defeat the creeps and solve the mystery. Who knows? They might even let you share their *Scooby Snacks!* Zoinks! Let the mayhem begin!

ON-SCREEN DISPLAY

“Cool Meter” (A)

When Scooby and Shaggy get a little spooked, the bar on their “Cool Meter” goes down. If the Cool Meter gets completely empty, the next time a ghost or monster catches up with them, Scooby and Shaggy will run away and have to start over at their last save point. Bummer, Scoob!

Radar (B)

Check the radar to see if ghosts and monsters might be lurking nearby. The arrow at the center represents the direction Scooby and Shaggy are headed. Be careful! That’s not really a little red dot behind you – it’s a ghost!

Action Icon (C)

Whenever an object can be interacted with, this handy icon will appear on screen. Use the button indicated to do things like climb, open, crawl and catch those pesky monsters. Beware – catching monsters isn't always as easy as tapping away on a single  button!

File Folder Icon (D)

When a file folder appears at the bottom right corner of the screen, it means you must complete a new objective. Access the Episode File through the Pause Menu or just press the L1 button. Once an objective has been met, the folder will reappear with a checkmark to show that you have successfully completed your task!

Inventory (E)

Press the  button to see the items you currently have in your inventory.

Sandwich Ingredients (F)

Press the  button to view the Sandwich Ingredients you've collected in the current episode. There are 5 ingredients in each episode. Find them all to unlock mini-games! Ret's eat!

EPISODE FILE SCREEN

Use the directional buttons or the left analog stick to scroll through the Episode File for important information about your progress in the game.

Objectives

Here is where you can view a list of your current goals. You can also see which tasks you've already completed. Great job, Scoob!

Clues

Which clues have you found, and how many do you still need to find? Check here to see! Also, remember to ask *Velma* for more information about each clue. There are five clues in each episode. Finding clues unlocks game art at the end of the episode.

Ghosts & Monsters

This is where you can see which Ghosts and Monsters you've captured with the Tome of Doom. Zoinks! That's one captivating book!

PAUSE MENU

Press the **START** button to pause the action and view several options:

Continue

Choose this option to re-enter the game where you left off.

Game Options

Change camera mode, controller vibration and sound settings.

Episode File

Bring up the Episode File Screen and see how you're doing.

Quit

You just munched your last Scooby Snack and need to run to the store. No problem! Just quit the game and reload it when you're ready to start again. See you after lunch!

SAVING AND LOADING

Smile! Floating cameras are located in various places throughout the game to snap your photo and mark your current location. Simply stand in front of the camera, say “cheese” and press the  button. Voila! Your game has been saved. When you want to restart, select Load Game from the Main Menu, then choose the game file containing your previously saved game. There you are! Right where you left off!

PLAYING THE GAME

Walking & Running

When Scooby and Shaggy are ready to set out on their quest, use the left analog stick to steer them in the right direction. Go, Scooby and Shaggy!

Sneaking

Press and hold the R1 button to Sneak past Ghosts and other Monsters – but be careful! If one of the creeps manages to touch Scooby or Shaggy, they may panic and lose their cool!

Climbing

Some obstacles in the game require teamwork – and good climbing skills. If a crate can be climbed, the  button will appear when you are near it.

Crawling

Some obstacles may require Scooby to crawl underneath to get through to the other side. If you are playing as Scooby-Doo and an obstacle can be crawled under, the  button will appear when you are near it. Scooby will automatically crawl under the obstacle. Now, if he can just figure out a way to get Shaggy!

Camera Control

Use the right analog stick to change your viewpoint. If you move the right analog stick in the direction you want to see, you'll get a whole new perspective.

ITEMS

Costumes

Sometimes the only way to sneak past a ghost - is to BE a ghost. If you find a costume chest, walk up to it and press the **X** button to put on the costume. If Scooby and Shaggy can get past the monsters before the costumes disappear, they might stand a ghost of a chance!

Clues

Throughout the game, you must search for 5 clues to help solve the central mystery in each episode. Some clues give you background information about the case and some may even unlock bonus art in the Extras menu! Be sure to collect them all - you wouldn't want to be left totally clueless!

Switches

By turning Switches ON or OFF you can unlock doors or move ladders.

The Tome of Doom

This is the most powerful item in the game because it allows Scooby and Shaggy to capture Ghosts and other Monsters.

- 1. Opening the Tome:** Press the  button to pull out the Tome of Doom. A cone of light will erupt from the book and shine in the direction you are facing.
- 2. Locking on Target:** The Tome of Doom automatically targets the first supernatural creature it encounters.
- 3. Capturing the Ghost:** Once the Tome of Doom has locked on a target, repeatedly press the button shown in the bottom left corner of the screen in order to capture it. Be alert - sometimes you'll need to press more than one button.
- 4. Recharging the Tome of Doom:** Scooby and Shaggy can recharge the Tome of Doom with Wisps. There are three ways to collect Wisps:
 - 1. Walk over them.**
 - 2. Open the Tome of Doom and attract them from a distance.**
 - 3. Stand over or attract Wisps from a Wisp generator.**

COLLECTIBLES

Scooby Snack

Munch on Scooby Snacks to recharge your "Cool Meter."

Keys

The right key will automatically open a locked door, but will disappear from your inventory after being used.

Sandwich Ingredients

Scooby and Shaggy love to make sandwiches – and to eat them! When you finish an Episode with all five sandwich ingredients a Mini Game will be unlocked. There are five Mini Games to unlock – one per episode. Also be aware once Mini Games are opened and saved. Upon a game/console boot up, the Mini Games will be available by loading that particular save and quitting out of the game. Back at the Main Menu, the user can access the Mini Games the user has unlocked on the save.

Wisps

Wisps are floating balls of glowing energy used to recharge the Tome of Doom. When you walk over Wisps, they will instantly be picked up and disappear from the screen. You can capture the Wisps by using the Tome of Doom to target and draw them in. If you are lucky, you may even run across a Wisp generator, which are easy to spot with their three ghostly green skulls. These will supply you with as many Wisps as you need.

LEVELS

Episode 1: The Haunting of Hambridge

Velma's old neighborhood librarian, Mr. Dinsdale, has called upon the *Mystery, Inc.* to investigate the recent invasion of ghosts in the Hambridge University Library where he now works. It's up to Scooby and Shaggy to find the clues that will help Velma solve this mystery.

Episode 2: Mayhem at the Movies

Their search leads to the Milton Brothers movie lot, where they are asked to help out with yet another supernatural infestation. This time, armed with the Tome of Doom, Scooby and Shaggy stand ready for anything. Is the movie lot really haunted, or is it something more sinister? What is Zabrinski's role in all this?

Episode 3: Weird Wild West

The trail of clues found in the Milton Brothers movie lot leads the gang to the Gold Mountain Western-themed amusement park, where owner Johnny Channayapatra is at his wits' end. The ghost sightings have turned his amusement park into a ghost town, and Johnny is not amused!

Episode 4: Bad Juju in the Bayou

The plot thickens as the gang investigates why Greenwood Development would be interested in purchasing land in the Bayous that was abandoned by its inhabitants. Scooby and Shaggy soon find out there's more than just the garden-variety ghost haunting the area! They must learn more about the mysterious zombies -- and the creepy dudes who are trying to round them up!

Episode 5: Hi-Tech Terror

Having figured out ShermanTech's involvement, Mystery, Inc. sets out to investigate the high-tech company. It isn't easy, however, since Scooby and Shaggy must cleverly evade security guards while gathering more clues. Will they be able to stop the master villain, or will they succumb to the worst enemies they've ever faced: the rest of Mystery, Inc.?

HINTS & TIPS

HINTS & TIPS

- Open Ghost-Locked doors by defeating all the monsters in that area.
- If you are playing as Shaggy, you will not see areas that you can crawl through. If you get stuck, try switching to Scooby.
- Check the Episode File regularly, especially if you're lost.
- You don't need all clues to complete an Episode, but they unlock Game Concept Art.
- You don't need all sandwich ingredients to complete an episode, but finding all five ingredients in each episode will unlock a mini-game.
- Practice moving around the monsters to avoid their attacks.
- Yellow and black striped hazard tape is used to mark important spots.
- Look for shortcuts around areas and alternate paths, such as climbing over bookcases.

THE HAUNTING OF HAMBRIDGE

The first section of the Library gives you lots of pointers. Be sure to read the text that appears on screen, as this functions as the game's Tutorial.

MAYHEM AT THE MOVIES

If you get lost, try to climb something tall to see where you are.

WEIRD WILD WEST

- Someone has scattered the sheet music for the piano all over town - try to find them.
- If you can't open the bank vault, you obviously didn't study hard enough - time to go back to school!
- Search the hotel basement for Shaggy - he's alone in the dark and needs your help!

BAD JUJU AT THE BAYOU

- Scooby won't be caught in the water without his snorkel!
- Going as fast as possible on the Trail Bike Ride isn't always the smartest idea.
- The zombies will shake wisps out of the truck when you go to visit Velma, who will throw you Scooby Snacks. Use these to your advantage.

HI-TECH TERROR

- If you can't hide from the guards, at least try to look like you belong there.
- Even the guards get lost sometimes. Check out the signs in case you get lost.
- Be nosey; search all of the lockers.
- Robots are also man's best friend when moving items out of the way of security cameras or turning valves.
- Fire Ghosts are really nasty. Lure them under the sprinklers to soak their spirits.
- Trick the Fire Boss Ghost into throwing fireballs at the bushes. Once you've turned on all the sprinklers, the Fire Ghost gets doused and you can use your trusty Tome of Doom on him!
