INSTRUCTION MANUAL

## **⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES**

### **READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

### **RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.**

---

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
  - Avoid large screen televisions. Use the smallest television screen available.
  - Avoid prolonged use of the PlayStation® 2 system.  
Take a 15-minute break during each hour of play.
  - Avoid playing when you are tired or need sleep.
- 

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

### **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation® 2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

### **HANDLING YOUR PlayStation® 2 FORMAT DISC:**

- This disc is intended for use only with PlayStation® 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

# WELCOME TO SINGSTAR™ '90s

It's time to live the dream of being a rock star!

Whether you've got perfect pitch or your singing skills are reserved for the shower only, everyone enjoys singing. But now there's no excuse for keeping that voice to yourself; step up to the mic, and into the spotlight!

Playing **SingStar™ '90s** is so easy anyone can join in. You can sing along to some of your favorite tracks and score points as you perform—it doesn't even matter how well you sing; when you take that microphone, YOU are the star, and that's all that counts.

So let's get moving—round up your friends, plug in those mics and be the star you really are!

## SETTING UP

Set up your PlayStation®2 computer entertainment system according to the instructions in its instruction manual. Make sure the MAIN POWER switch (located on the back of the system) is turned off. Attach game controllers/other accessories as appropriate, BEFORE you switch your system on. It is advised that you do not insert or remove accessories once the power is turned on.

Now turn the system ON at the MAIN POWER switch and press the  button. When the  indicator lights up green, press the  button and the disc tray will open. Place the **SingStar™ '90s** disc on the disc tray with the label side facing up. Press the  button again and the disc tray will close. Finally, press the  button again before commencing play.

# SETTING UP THE MICROPHONES

1. Plug the SingStar™ USB converter into one of the USB connectors on the front of the PlayStation®2 system.
2. Plug the microphones into the red and blue sockets on the front of the SingStar™ USB converter. A 'click' sound will confirm that each connector is inserted correctly.
3. Once the game has loaded, a bright blue light on the top of the SingStar™ USB converter will indicate that it is inserted correctly and working.
4. When singing, hold the microphone approximately 1 - 2 inches from your mouth. Sing directly into the top of the microphone.
5. Keep some distance between yourself and the TV. If the microphone gets too close to the TV, you will get a loud, high-pitched audio feedback.
6. Just sing!

**NOTE:** Only the official SingStar™ red and blue microphones can be used to play SingStar™ '90s. Ordinary microphones cannot be inserted properly into the SingStar™ USB converter and will therefore not be picked up by the game. If the SingStar™ USB converter is connected, but with incompatible microphones inserted, the game will still appear to run, but players' singing will not be detected, nor will their voice be drawn on screen.

## MEMORY CARD (8MB)(FOR PLAYSTATION®2)

**NOTE:** Throughout this manual, the term “Memory Card” is used to describe the memory card (8MB) (for PlayStation®2). Memory Cards designed for use with the PlayStation® format software are not compatible with this game.

To save game settings and progress, insert a Memory Card into MEMORY CARD slot 1. Make sure there is enough free space (590KB) on your Memory Card before commencing play.

On boot up, any saved **SingStar™ '90s** options data present on the Memory Card will autoload.

## DIRECTIONAL BUTTONS – MOVEMENT

In this manual, **↑**, **↓**, **←**, **→** etc. are used to denote the direction of the directional buttons on the DUALSHOCK®2 analog controller.

# CONTROLS

In SingStar™ '90s, your vocal performance will be emitted from your TV's speakers, while also being transferred into on-screen data, allowing you to score points and see how well you are singing. In this game the only thing you need to control is your voice!

In order to navigate through menu screens and adjust volume levels in-game you will need to insert a DUALSHOCK®2 analog controller into controller port 1 before commencing play:

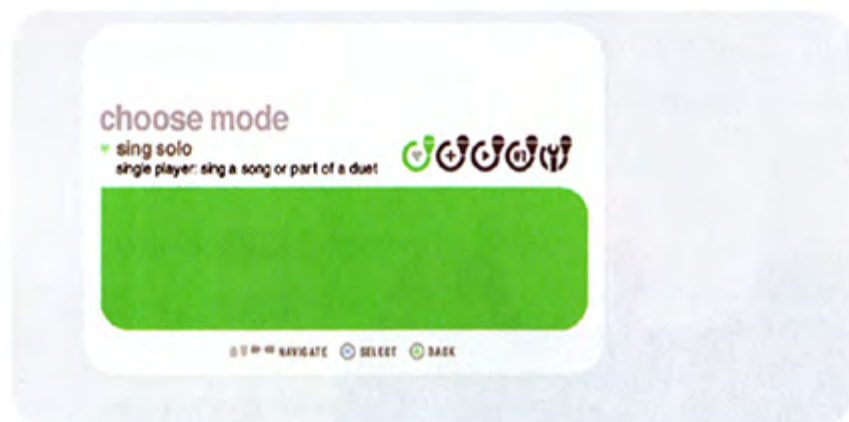

- ↑, ↓, ← or → | Highlight Option/Select Song
- ⊗ button | Confirm/Continue
- △ button | Back/Cancel
- ▶ button | Pause
- L1 button | Increase Player Volume
- L2 button | Decrease Player Volume
- SELECT button | Disc-swapping

# GETTING STARTED

Following the start-up sequence, the Title Screen will be displayed. Press the **X** button to access the Choose Mode Screen.

## CHOOSE MODE SCREEN

Press **←** or **→** to highlight an icon and press the **X** button to confirm. Choose from Sing Solo for a quick song, Party for a multiplayer or two player game, Freestyle, or Game Options to change game settings.

**NOTE:** Details on each of the individual SingStar™ '90s game modes can be found later in this manual.

## PLAYING THE GAME

To play **SingStar™ '90s**, all you have to do is pick a game mode, hold the mic and... SING!

The different modes each have various set-up options to help you configure the game you are about to play. These options include things like choosing a song, organizing teams in Party Mode, or selecting whether to perform a full song or a short version, and are made by following a screen-by-screen series of simple instructions.

When the game begins and you start to sing into one of the microphones, the **SingStar™** technology recognizes your pitch, tone and rhythm and is therefore able to give you a score depending on how well you perform. With rapping, you are given a score based on timing and recognition of the words that you are saying.

Player 1 always uses the blue microphone and their vocal performance is drawn in blue on screen. In multiplayer games, Player 2 uses the red microphone and their vocal performance is drawn in red on screen.

**NOTE:** In a Pass the Mic game, the Red Team might sometimes use the blue mic and the Blue Team might use the red mic, for example, in a Duet.

# THE GAME SCREEN

This is the game screen for Sing Mode. Other game screens may differ slightly depending on the mode you are playing, the number of players, specific competition rules and so on.

As you score points by singing well, the score indicators at the top of the game screen will rise.

## PITCH AND TIMING INDICATORS

These gray bars show the pitch of the note you should be singing in a similar way to the musical 'stave' (the parallel horizontal lines on which musical notes are written). The 'higher' the note, the further up the screen it will appear. The bars also indicate the sustain and timing of the note, telling you when to sing and how long to hold a note.

## YOUR PERFORMANCE

As you progress through a song, the notes that you sing will be displayed in relation to the notes you should be singing. Your vocal performance is color-coded and the bars that are displayed on-screen will be either blue or red, depending on the game mode, number of players and microphone you are using. By comparing your performance with the pitch and timing indicators, you can quickly tell if you are singing flat or sharp, are out of time or are simply not holding onto the notes for long enough. If you are singing well, the notes you sing will be drawn over the pitch and timing indicators, fitting perfectly over the top, and you will begin to rack up points.

## LYRICS

In each game mode, the lyrics for the current song will appear on-screen just before you are required to sing them into the microphone—sing in time by watching the words and singing as they fill up with color.

## PERFORMANCE METER

The performance meter is an indicator of how well you are doing overall at any point in the song. Keep your meter in the bonus zone to get extra bonus points for a consistently good performance.

## PHRASE RANKING

At the end of each sentence, you will receive a ranking to let you know how well you sung on that line.

## TRACK TIME

This device lets you see how far through the song you are.

## GOLDEN NOTES

Every song has special golden notes – these are the particularly high or long notes. Hit these golden notes to accumulate more points.

## USING THE EYETOY® USB CAMERA (FOR PLAYSTATION®2)

Singing, dancing and looking cool all at the same time... it's a tall order but if you want to try, and have an EyeToy® USB camera (for PlayStation®2), you can watch yourself perform on screen as you sing. Whenever you hit a golden note, it's time to 'Pose for Paparazzi' – so strike a pose and relive those glory moments at the end.

Set up the camera by following these instructions:

Insert the USB connector of the EyeToy® USB camera (for PlayStation®2) into either the upper or lower USB connector on the front of the system. The LED power indicator (blue) should be on.

Place the EyeToy® USB camera (for PlayStation®2) on top of, or immediately below your television and stand back between 5 feet and 7 feet.

From the Game Options Screen, choose EyeToy® USB camera, and then highlight EyeToy® video. Use the ← and → toggle and switch to On.

Once activated, rotate the manual focus ring to focus the lens. Try to ensure that your body shape is clearly defined on the screen. If your television is positioned on the floor, simply tilt the EyeToy® USB camera (for PlayStation®2) for extra elevation. Alternatively, swivel the base around to reposition it. Players of different heights should tilt the angle of the EyeToy® USB camera (for PlayStation®2) for extra convenience. DO NOT move the whole EyeToy® USB camera (for PlayStation®2), just tilt it gently.

**NOTE:** For further information, please refer to the 'Quick Start Guide' that came with your EyeToy® USB camera (for PlayStation®2).

## MASTER THESE AND YOU'RE ON YOUR WAY

### Pitch

The pitch of the note determines how in tune your voice is with the song and ultimately determines the quality of the vocal performance. **SingStar™ '90s** monitors the pitch of the notes you sing and compares this data with the correct note on the original recording, allowing it to calculate how many perfect notes you are hitting or bad notes you let slip through. If you find yourself struggling to achieve perfect pitch, try adjusting the difficulty setting to the Easy or Medium settings.

### Timing

Your timing determines whether or not a note is being sung at the correct point during a song. **SingStar™ '90s** constantly checks your timing and the data collected will be reflected in your score.

### Sustain

This is simply how long the note is held. **SingStar™ '90s** compares the correct sustain times taken from the original recording with your sustain and awards or subtracts points accordingly.

## TIPS TO HELP YOU SING LIKE A STAR

1. Don't hold the microphone too close or too far from your mouth; about 1-2 inches will pick up your voice most effectively.
2. When you first start practicing or playing Party Mode, pick songs that you know well and find easy to sing.
3. Listen to the song and in particular to the artist's vocals to make sure you know when and where to sing and which bits are instrumental.
4. The more you sing a tune the better you will perform as practice helps you to figure out when to breathe and thus improve your timing.
5. If you're about to play Party Mode and get an attack of nerves, try singing a duet with a friend to gain some confidence—just relax and have fun!
6. The hardest thing for many newcomers to SingStar™ '90s is to stand up and perform for the first time. It gets easier after you've done it once, so get up and sing!
