**WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

**HANDLING YOUR PLAYSTATION 2 FORMAT DISC:**

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## USING A MULTITAP (FOR PLAYSTATION®2)

For three or more players, connect a controller to controller port 1. A Multitap should be inserted into controller port 2 of the console, and a controller should be inserted into controller port 2-A of the Multitap. Any other controllers should be inserted sequentially into controller port 2-B and controller port 2-C. **NOTE:** A controller connected to controller port 2-D of the Multitap will not function.

# BASIC SHOTS

Take care to learn the characteristics of each shot and select the right shot in the right situation.

## SERVE

Press the , the , or the  button to automatically hit a serve. To unleash a powerful serve, wait until the ball is encircled in mid-air by a white ring before hitting it.

## TOPSPIN

With topspin, the ball will spin in the direction it is travelling. A special characteristic of this shot is that the ball will rebound much faster and rise higher than it would from a flat shot.

## SLICE

The slice stroke applies underspin and makes the ball more likely to change direction when it bounces. The pace of the ball is reduced when a slice is applied and therefore makes it easier for your opponent to strike.

## LOB

A lob sends the ball in a higher arc than a topspin shot or a slice shot does, and is used to aim the ball over your opponent's head. By hitting a lob while pressing , you can unleash a topspin lob. By hitting a lob while pressing , you can hit a drop shot, killing the ball's energy and dropping it just over the net into your opponent's court.

Press  and the  button at the same time, to hit a Super Topspin Lob, or press  and the  button at the same time, to hit a Super Drop Shot.

## FLAT SHOT

In a flat shot, the ball is hit with the flat surface of the racket, and very little spin is imparted. This is a powerful shot, but it makes it all too easy to hit the ball out, so use it with care.

# BASIC SHOTS

## SMASH

If your opponent is caught off-balance while returning your shot, the ball will sometimes rise up high in an uncontrolled return. Known as a miss-hit, when this happens, a white "Smash Point" will appear on the ground where the ball is going to land and can be exploited by experienced players. Simply stand on the Smash Point until the Smash Point turns yellow, then hit the falling ball to unleash a powerful smash.

## VOLLEY

Press the  button or the  button before the ball bounces, to execute a volley at the net.
