**WARNING: READ BEFORE USING YOUR PLAYSTATION®2  
COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

**HANDLING YOUR PLAYSTATION 2 FORMAT DISC:**

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

# GAUGE SYSTEMS

## GAUGES USED IN EACH GAME

Gauges in all the games fill up as you pull off normal and special moves (for **SUPER GEM FIGHTER MINIMIX** only, the gauge fills up as you collect Gems). But what you can do with the gauges differs from game to game.

## USING THE GAUGES

When a gauge fills up, it enables you to perform various Super Combos, Custom Combos, etc., depending on the game.

# GAUGE SYSTEMS

## SUPER COMBO LEVEL GAUGE

Pull off normal and special attacks to fill up the Super Combo Level Gauge. When the gauge fills up to a certain amount, the level of the gauge will go up, enabling you to use a Super Combo or Alpha Counter.

Pull off normal and special attacks to fill up the Super Combo Level Gauge. When the gauge fills up to a certain amount, the level of the gauge will go up, enabling you to use a Super Combo, Alpha Counter or Custom Combo.

## MIGHTY COMBO GAUGE

The Mighty Combo Gauge at the top of the screen fills up as you perform attacks and pick up Gems. You can store up to 9 full gauges, and use the gauge to perform powerful Mighty Combo attacks.

## SUPER COMBO

When the gauge is at Level 1 or higher, you can perform Super Combo moves unique to each character. There are three levels of Super Combos, and the number of P or K buttons pressed simultaneously determines the level of the Super Combo performed.

When using Z-ISM, if the gauge is at Level 1 or higher, you can perform Super Combo moves unique to each character. There are 3 levels of Super Combos; the strength of the P or K button you press determines the level of the Super Combo you perform. When you're using X-ISM, the Super Combo gauge has only 1 level, and it must be full to perform a Super Combo move.

## CUSTOM COMBOS

If your Super Combo Level Gauge is at Level 1 or higher, press P + P + K or K + K + P together (or HP + HK for **STREET FIGHTER® ALPHA 2 GOLD**) to bring up the Gauge Timer. While the timer is going, combine the directional buttons with P and K buttons to create your own Custom Combo. If you get hit and take damage while the Gauge Timer is active, the Custom Combo ends.

When using V-ISM, if the Super Combo Level Gauge is at 50% or higher, press P + K of the same strength simultaneously to bring up the Gauge Timer. While the timer is going, combine the directional buttons with P and K buttons to create your own Custom Combo. If you get hit and take damage once while the Gauge Timer is running, the Custom Combo ends.

# GAUGE SYSTEMS

## GEM SYSTEM

When you damage your opponent, attack treasure chests, pull off successful Guard Crushes, etc., collectible Gems appear. There are different types of gems, identified by different colors. Collect enough Gems and you can perform a Level Up Special Move.

### Power Gem

The Gem Gauge that matches the Gem color increases by one bar.

### Rainbow Gem

All Gem Gauges and Combo Gauges increase.

## LEVEL UP SPECIAL MOVES

When you collect Gems and fill up the Gem Gauge, the Special Move levels up according to the color of the Gems, to a max level of three.

## GUARD CRUSH

Press the Special button to perform a Guard Crush move and steal your opponent's Gems. Hold the Special button down longer to steal even more Gems away. If your opponent tries to do a Guard Crush against you, use the Standing Guard plus the Special button to counter it.

## ITEMS

Attack the Item carrier who appears at the top of the screen to get him to drop Item Balls and food. Food restores health, and you can use Item Balls for Item Ball Attacks. There are seven types of Item Balls, and you can hold up to three of each type. Use the Taunt button to switch between Item Balls.

# GAME RULES

## MATCHES

Each match is made up of 3 rounds. The first player to win 2 out of 3 rounds wins the match. You can change the number of rounds in the Options menu (*page 21*).

## WINNING

Each round has a time limit of 99 counts. You must reduce your opponent's health to zero before time runs out for a KO. If time runs out, the person with the most remaining health wins.

## DRAW GAME

If both characters knock each other out and reach zero health at the same time, or if both characters have the same amount of health when the timer runs out, a draw is called. If the 3rd round in a match ends in a draw, the match will go to a 4th and final round, with the winner of the round winning the match. If the 4th round again ends in a draw, both sides lose.

# GAME MODES
