First there was *Darkness*.

The *Darkness* lived alone for a long time.

Out of sorrow and despair, the *Darkness* shed a *Tear*.

From the *Tear*, two brothers were born: *Sword* and *Shield*.

Sword claimed it could cut through everything.

Shield claimed it would protect everything.

Thus the conflict was born and lasted for 7 days and 7 nights.

In the end, *Sword* cut through the *Shield*

And the *Shield* shattered the *Sword*

The shattered pieces of *Sword* became the Sky.

The pieces of the *Shield* became the Ground below.

The sparks from the battle became the Stars above.

The Jewels encrusted on the *Sword* and *Shield*

became the 27 *True Runes*

And thus the World began.

Suikoden®

— 幻 想 水 滸 伝 —

Nurtured by the beautiful Feitas River and blessed with the power of the Sun Rune, the Queendom of Falena flourished into a land graced with peace and prosperity.

Yet, it was not always so. For years, relentless power struggles amongst successors to the throne threatened to topple the very balance of power upon which Falena thrived. Fortunately, the illustrious Queen Arshtat emerged to power, and under her benevolent rule, peace was restored to Falena at last.

That is, until a single town – once presumed to be most loyal to the Queen – revolted against her rule.

Two years have now passed.

Under the orders of Queen Arshtat, a small ship travels to investigate the aftermath of that town's revolt, and upon that ship stands an unassuming young man...

A young man whose fate will forever change the course of history... That young man being none other ...than the Prince of Falena.
