WHAT IS THE UFC®?

In 1993 the best fighters from a variety of martial arts were brought together to battle it out in a 6-foot tall, 8-sided ring called the Octagon to see which fighting style was the best. The Ultimate Fighting Championship® was born and with it came a new era in mixed martial arts.

Royce Gracie shocked the world when he dominated the first UFC® tournament using his family's proven form of Brazilian Jiu-Jitsu. Suddenly it seemed that too much faith was put in traditional stand up fighting as Royce took each fight to the ground and submitted all of his opponents.

Since the first UFC, the world of martial arts has morphed to produce fighters with a variety of skills, drawing from kickboxing, jiu-jitsu, boxing, wrestling, karate, and other styles. Now fighters such as Tito Ortiz, Ken Shamrock, and Chuck Liddell pride themselves on being mixed martial artists possessing a variety of abilities.

There never was a plan to proceed beyond one or two shows, but the fans' response and international support for the event was enormous. In 2001 the event was sold to Zuffa, LLC, a company headed by Lorenzo Fertitta, a former member of the Las Vegas Athletic Commission. With Dana White handling the event's affairs, what began as a mere spectacle has been transformed into one of the world's most entertaining sporting events. Over the course of its 10-year existence and more than 45 events in the U.S., Brazil, Japan, and Great Britain, the UFC has become the premier mixed martial arts event in the world.

HOW TO BEGIN THE GAME

Press the START button on the title screen, and you will see the game mode select screen (Main Menu). Use the directional buttons or left analog stick to select the mode and press the X button to confirm.

K.O.

Knock out the opponent by lowering their health to zero.

TAPOUT

DECISION

If there is no winner after the final round, then the fight goes to the judges' decision. This decision is based not only on the amount of damage taken, but also on aggressiveness.

ARCADE MODE

In this single player mode, you can fight as one of 37 real-world UFC® fighters or your own created fighter

reward. The best record will be saved in Arcade Record (in the Options menu).

CHAMPION ROAD

In this single player mode, the goal is to win the UFC® championship in the chosen weight class. You can use

a UFC fighter or a created fighter from the same weight class. You will have to win 5 fights in a row to win a title belt. In the case of a draw or double knockout, you will be disqualified and unable to continue. Once you become a

champion, you will unlock Legend mode in which you will try to defend your title and become a legendary champion. You cannot use Story mode fighters to unlock Legend mode although you can load them in both Champion Road and Legend mode, once unlocked.

TOURNAMENT MODE

Set up a single elimination tournament between 8 characters. Each character can be controlled by either a player or CPU. Use two controllers for multiplayer.

VERSUS MODE

Set up a match between any two fighters in the following play modes:

GRAPPLING

Opponent will perform grappling moves.

The player can adjust button configurations, difficulty levels, and other settings such as number of rounds and round duration. Also, you can save and load your progress from this menu.

FIGHTER PROFILES

Here you can learn about your favorite UFC fighters, read their profiles, and see their fight records.

CONTROLS - STANDING

In standing position, you can use punch and kick strikes. If you are using a fighter who is a grappler, try to take down the opponent.

STANDING OFFENSE / DEFENSE

Punch or Kick – Pressing punch and kick buttons will perform single and combo strikes.

Step moves (FS: front step, BS: back step, RS: right step, and LS: left step moves) – Quickly tap a directional button relative to your opponent, then press a punch or kick button. Performing step moves requires precise timing, but can yield a variety of moves.

Rival Stun moves – You can stun the opponent by countering his attack (hitting your opponent after he has already begun an attack). If you do it right, you can also stun your opponent by hitting him hard against the fence. Doing this will give you a split second to perform a powerful move known as a "Rival Stun" move.

STORY MODE

WHAT IS STORY MODE?

In story mode you can create a custom fighter and complete 3 years of training. You can then take him to the UFC® and see if he can become the champion!

You will start out as a street brawler, discovered by a professional trainer. Your fighter will experience 2 sets of training challenges every month. Depending on how you select these training challenges, you will affect your fighter's abilities and move repertoire.

You can change your fighting style once a year. Changing fighting styles every year will give you techniques from various styles. There is potential to be a very balanced fighter, although your techniques may lack more advanced moves. Sticking to one fighting style all the way through will give you more in-depth combos and decisive moves in that particular style, although you may not be as versatile.

CREATE NEW FIGHTER

- 1. CHOOSE FACE** – Select from various face types.

- 2. CHOOSE TRUNKS**
Select from 3 types of trunks.

- 3. CHOOSE TRUNK DESIGN**
Select from various trunk designs.

- 4. CHOOSE TATTOOS**
Select from various tattoo designs and place them on the fighter's body.

5. ADJUST HEIGHT AND WEIGHT

Adjust fighter's height and weight. This will determine the fighter's weight class.

- 6. FIGHTER PROFILE FIRST/LAST NAME**
Enter the fighter's name.
D.O.B.
Enter the fighter's date of birth.

FIGHTING OUT OF NICKNAME

Enter the fighter's place of origin.
Enter or select a nickname for the fighter.

STRENGTHS

Enter or select the fighter's 3 strengths.

THE STORY BEGINS

1. SELECT ACADEMY

Scroll up and down, and select from 15 academies. Some academies are not initially available. But keep trying different academies and play through the entire story mode – you may get an invitation from academies that were previously not available to you! Select the academy carefully as you are selecting the fighting style of your training for the year.

2. BEFORE TRAINING

Select **BEGIN TRAINING** or **CHANGE FIGHTER SETTINGS** (see p.17).

3. BEGIN TRAINING

Select **LEARN A NEW MOVE** to learn new moves, or **FOCUS TRAINING** to work on your technique.

4. TRAINING

Select a Challenge

Select **NEW MOVE CHALLENGE** or **FOCUS TRAINING CHALLENGE**. If a new move is labeled with SP1, SP2, SP3, etc., this means it is one portion of a combo. You must learn the moves in sequence to learn the whole combo. (For example, if you learned "SP1

Rush Punch" in the first year of training, but chose not to learn "SP2 Rush Punch" in the second year, you will not be able to learn "SP3 Rush Punch" in the third year).

NOTE: Some challenges that are not available initially may become available later depending on what you do and which challenge you select in this mode.

COMPLETING A CHALLENGE

Each challenge comes with success conditions (press the **START** button to pause and view the success conditions). Meeting the success conditions will give

you a better move in **NEW MOVE CHALLENGES**, and better skill points in **FOCUS TRAINING CHALLENGES**. If you fall short of meeting the conditions, you will learn a weaker version of the move or earn fewer skill points.

CHALLENGE RESULTS

Check out the results of the training challenges. If you successfully completed a New Move Challenge, a ★ will appear next to the move name that you've learned. If you have learned more than one move for the same button command, make sure to go to FIGHTER SETTINGS, select EDIT MOVES, and edit your moves (see below).

5. EVENT

End of Month/Year Events – There are some events at the end of the month such as internal practice tournaments at your academy, Vale Tudo tournaments, UFC® qualifying tournaments, etc. Then there are some events that are just a part of your daily life as you train to become a fighter. If there is no special event planned, you will have to prove your skill on the punching bag. Try to hit it when it reads "GOOD".

CHANGE FIGHTER SETTINGS

Change Profile

Change the fighter's profile.

Entrance Actions

Change the fighter's tournament entrance actions.

Entrance Music

Change the fighter's tournament entrance music.

Edit Appearances

Change the fighter's appearance (trunks, trunk design, and tattoos).

Edit Moves Edit fighter's moves list. In Story mode, you can learn new moves from selecting NEW MOVE CHALLENGES. Once you unlock new moves, they will show up in your moves list. If you own more than one move for the same button command, the last move you learned (the newest) will become your default move for the button command. You can change the default move by editing moves here.

Sparring

Spar with a partner to practice.

TIPS + HINTS

OCTAGON POSITION

Maintaining superior Octagon position is a real-world tactic that can be used in UFC Sudden Impact. Attempt to keep your back away from the fence. Also, performing a takedown when your opponent is close enough to the fence could get you in the Fence Mount Top position, one of the most advantageous positions in the game.

STAMINA vs. ENDURANCE

Watching your stamina gauge is just as important as watching your endurance gauge. If you over-exert yourself by attempting to perform too many powerful moves in a short amount of time, you can get knocked out with one punch and still have a full endurance gauge.

MOVES LIST

During a bout, press START button to pause the game, and from pause menu, go to the moves list to check out the move repertoire of each fighter. Use L1 and R1 to search through moves categorized by positions.

HOLD - hold then release the button(s). DELAY - delay the timing of the button press.

ENTRANCE ANIMATIONS

Try psyching up your fans by pressing the X button during your entrance in Versus, Tournament, and Champion Road.
