# LOOK OUT!

## THE ALIENS ARE COMING!

When the Celestial Beings that inhabit Mischief Planet way out in the Milky Way turn three years old, they must travel to another planet in the Solar System to undergo Mischief Training.

During training, they face many different and difficult challenges. If they pass all the tests, they "come of age" and receive wonderful prizes from all over the universe.

But the training courses are tough! Little Cosmi, the most mischievous of all Celestial Sprites, keeps failing! That's why he's put all his hopes and dreams on the line one last time and has come to Planet Earth to take the final challenge!

Earth is a dangerous planet inhabited by Humans, the fiercest, most barbaric life forms in the galaxy.

The planet is the "Mt. Everest of Mischief" that even the most skillful and dexterous Mischief Masters cannot easily approach.

If Cosmi successfully passes this arduous test on Earth, he will become legendary!

Can our Cosmi cope with the trials on Earth and return home to a hero's welcome?

Only you can make that dream come true!

# CREATURES FROM OUTER SPACE

## COSMI

Scatterbrained and lighthearted, he is the top personality in the game. He harbors fevered delusions of grandeur in which he becomes a huge hero!

## ANNIE CAMPBELL

An announcer for Cocotown TV, she is also an Intelligence Bureau agent and a real go-getter in TV interviews.

## MASTER ITAZURA

A legendary, though retired, Master of Mischief, he oversees the rigorous Mischief Exam process on Earth. He's secretly on the look-out for the chance to make his come-back.

He tends to mumble, so Liar, the little puppet on his left hand, does the talking for him.

If you sustain damage while in your alien form, you will lose even more Coins!

# THE SECRET WRITINGS OF MASTER ITAZURA

## ITEMS

- Select Humans who have good items and scan them!
- Combining items and using them in order is a winning strategy!

## VIRUS!

- Be wary of ? **ITEMS** because you won't know what they are until you use them. Only **SPECIAL** items will appear from ? **ITEMS**.
- Be careful, though, since **SPECIAL** items could contain a virus. As time passes, the virus eats away other items. When all items in your Item Slot are consumed, you resume alien form.
- If a virus appears, you can either use it before it eats up your other items, or transform. Using the virus causes you some damage, so be sure **NOT** to use it when you're wearing your bathing suit.

## CLEARING STAGES

- Items in the stages you clear in Single Mode reappear in later stages and in VS Mode. This means that there is a strategy to the order in which you should clear the stages. Can you figure it out?
- For each stage, an elaborate plan called **PANIC TIME** has been set up. **PANIC TIME** strategy is the key to victory. Figure out how to use it to win!

## COOPERATE AND WIN!

- The Master of Mischief Examination is not just about face-off battles. There is also a tough trial in which you must cooperate as a 2 Player team. For instance, if your partner gets done in and drops Coins, you can help your buddy out by picking up the Coins.
- Work as a team and help each other. That's the way to win!

## SCAN PLAN

- Once you scan Humans, they won't recover items for a little while, so don't scan them more often than you have to.
