BIG SCREEN EVIL!

The tyrannous organization Jadow had attacked the peaceful "Movieland!"

The hope of all people seemed doomed in the grip of this overwhelmingly powerful evil army. But then one brave man took a stand, and pulverized the evil empire into oblivion!

However, that was not the end of evil. Another nightmare now looms. Earth is in danger once again!

Come back, Red Hero! If Joe can't do it, no one can!

HEROES

**VIEWTIFUL
JOE**

Loves hero movies down to his very core! The Viewtifully passionate hero of this story solves problems with style and tenacity. Now he is about to come face to face with a new challenge, a new fight, but he seems to be laughing in the face of danger!

SEXY SILVIA

Joe's girlfriend. Last time around she was held captive by the bad guys, but got fed up and said, "Ain't no way this heroine is just gonna sit around waitin' to be rescued." Managing to get her hands on a V-Watch, she's out there playing the hero, right alongside Joe! Hopefully she knows what she's getting herself into!

CAPTAIN BLUE

Legendary superhero who has been the focus of Joe's adoration for many a year. Begged (or was it "threatened"?) by Silvia, he ended up giving her a V-Watch, and sends the two off to face danger once again.

"Wait, was she supposed to become a superhero too?"

JET BLACK

Joe's father and old pal of the big Blue, this movie theater owner/projector technician has a deep love for the art of cinema. He'll end up helping Joe and Silvia's cause from his side of the screen.

VILLAINS

FLAT - M3...

...unofficially known as "Flaty," are regular soldiers of the alien Gedow Invasion Army sent in to Movieland as advance guards. They try their hardest day and night to blend in as residents of Movieland.

SLY - SLI...

...souped-up versions of Flaty, these meanies have giant parts where their arms should be. With gravity control devices installed inside them, their smooth sliding attacks are a sight to behold!

SPACE GUNMAN BLAU - TOPO...

...are hired gunmen sent in from an "outer space tough guy" job placement agency. Because they get paid based on how many heroes they stick it to, they can be pretty serious when trying to zap you with their laser beam guns.

BIG JOHN, DINOSAUR SERGEANT...

...played the starring T Rex role in a bunch of dinosaur movies. He got duped into joining the Gedow Invasion Army where he now serves as a sergeant. Watch out for his body slams. When he gets into his role, he comes up with some pretty crazy attacks!

MAIN MENU

On the Main Menu, highlight your choice with the left analog stick or directional buttons and press the **X** button.

- **GAME START** - Start a new game. First off, choose a difficulty level:
 - **KIDS** - You're brand new to the game.
 - **ADULTS** - You already have some action under your belt.
- **DATA LOAD** - Load game data.
 - **CONTINUE** - From the Select Your Files screen, select a file to restart that game with all your progress intact from the point where you saved.
- **OPTIONS** - Adjust game settings.

GAME SCREEN

SCREEN PROPS

- **LIFE MARKS** - Joe's and Silvia's energy levels. When you run out of Life Marks, it counts as one life or "take."
- **V-MARKS** - Appear when you defeat enemies with any special attack. V-Marks are then converted to V-Points.

- 
- **VFX GAUGE** - As long as this has energy, you can use your VFX Powers. If you completely run out of VFX energy, your hero returns to non-hero form and loses all use of VFX Powers until the gauge refills to the first bar and your hero transforms back. This gauge recharges automatically when you aren't using any VFX Powers.
 - **V-FILMS** - Every time you collect 50 V-Films, your VFX Gauge max increases by one unit. (The gauge resets to its initial level at the end of each stage.)
 - **V-POINTS** - Use these to purchase Power-Ups for Joe and Silvia on the Power-Up screen at the end of each stage.
 - **L.I.V.** - Short for "Life Is Viewtiful!" Shows how many "re-takes" (lives) you have left.
 - **TASK** - Gives a hint about the task you must fulfill to finish the scene.

MORE SCREEN PROPS

- **ENEMIES** - Defeat enemy characters to win V-Medals that you can then use to purchase Power-Ups. You also get V-Marks based on how Viewtifully you dispatch the opposition. You can even win Bonus Points!
- **ITEMS** - Pulverizing objects and enemies causes valuable items to appear spontaneously. Find out how these can save your bacon! Some of them are:
 - **CHEESEBURGER** - Restores one Life Mark.
 - **BLUE BOTTLE** - Pumps up VFX Power a bit.
 - **RED BOTTLE** - Makes VFX Power infinite - while it lasts!
 - **CONTROLLER** - Makes all enemies dizzy for awhile.
- **BOSS LIFE GAUGE** - Appears during a Boss fight to monitor the Boss's remaining health. When all the markers disappear, the Boss is finished!

ABOUT THE GAME

- **GAME MISSIONS** - As the hero, your mission is to fight the movie villains and solve various riddles and puzzles that stand in your way.
- **GO FOR IT!** - Each stage has a number of tasks you must complete in order to proceed. These tasks can be anything from punching out a certain bully to finding hidden loot.
- **RESULT** - When you finish a task, you get a scene score or ranking. You might even get Bonus Points if your performance was up to snuff. The faster you complete tasks, take out enemies and clear the scene, the higher your Bonus Points will be. So get the lead out!
- **SAVE** - Save your game from the Break Time screen after completing stages. (You must have a memory card in MEMORY CARD slot 1 to save data. Each saved game requires 202KB of free space.)
- **POWER UP!** - During and after scenes there will be places where you can upgrade with Power-Ups. Use the V-Points you racked up to get better and even more Viewtiful Power-Ups!
- **GAME OVER** - Villains vanquished? Bad guys banished? Nobody left to fight and all your tasks complete? Then you win and the game ends! But the game also ends if you run out of "takes." When the Game Over screen appears, you can either retry the same game, save it and start another game, or quit.

LOW DODGE - Duck down to evade an enemy's high attack.

SIX MACHINE

SIX DRILL

Six Machine's earth-drilling form. Its huge drill lets it dig holes with immense power. Plus, with jet propulsion, it moves along so fast you'd swear it was flying! Zoom in to bust up even the toughest ice!

- Switch out anytime!
If Joe needs a rest...
Silvia hops in and tags
Joe out!

- You've gotta know
when to switch...
If Joe can't reach
a switch, bring Silvia
in and give her a shot!

- If things get too
hot for Silvia...
bring Joe in to
prove he's a real
hottie!

- Build up the gauge for a Combo attack! Hold down
the button to build up the gauge...then switch for
explosive tag-team attacks!

VFX RULES!

➤ ****SLOW**-mo attack boost! Even normal attacks pack more punch!**

VFX POWER 2
R1 BUTTON

MACHSPEED

VFX POWER 4

REPLAY

FOR SILVIA
ONLY

By replaying Silvia's last action, you can deal three times the damage, or if you're not careful, take three times the hits with this high-risk, high-return super-move. Check out the lightning all over the screen! You're white-hot!

- Stick it to 'em three times! Start recording and get in an attack to REPLAY the scene and do triple the amount of damage! Knock 'em out in one fell swoop!

- Silvia glows with electricity! Pull off a successful Replay and become "Lightning Silvia"! Electricity attacks and obstacles are no shock for Lightning Silvia!

VIEWTIFUL COMBOS & X-BONUS

Earn V-Marks by defeating enemies with Viewtiful Combos. These V-Marks are then converted into V-Medals, or V-Points, which you can turn around and use to purchase power-ups. Use SLOW to up the ante and get a Double-Up Point Bonus.

- Make an enemy dizzy and go into SLOW for a target-lock!
- Stick it to your locked-on target to really teach 'em a lesson!

- Stay in SLOW to get target locks on other on-screen enemies!
- For every locked-on enemy attacked, your V-Marks increase by leaps and bounds!
- Dodge an enemy's attack to make him dizzy, then sock it to 'em for some V-Marks!

➤ Use VFX Powers for more V-Marks!

➤ Rack up more V-Marks and convert them into V-Medals!

TIPS FROM THE TOP

ENEMIES TOO TOUGH?

There are plenty of low-level enemies to practice your Viewtiful moves on, but along the way you'll find enemies that can block your attacks or shoot bullets at the speed of light. When normal attacks are too weak, it's time to bring out the VFX Powers! Use **SLOW** to observe the enemy's moves and watch for the perfect opening for an attack. When in doubt, VFX Power it out!

POINTS TOO HARD TO GET?

It's hard to collect V-Medals, the true symbol of heroic deeds, just by punching and kicking enemies. Observe their movements and dodge their attacks with Viewtiful grace to render them dizzy and wide open to attack. That's your big chance rack up the V-Marks! And of course, don't forget the VFX Powers...

TRICKS GOT YOU TRAPPED?

In order to get through scenes, you'll have to solve puzzles and traps using your intellect and skills. If you ever get stuck and can't figure out what to do, check out your hero's right arm! When your V-Watch is shining, that's your signal to use one of your VFX Powers.
