A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation®2 console, may induce an epileptic seizure in these individuals. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

THE GAME SCREEN

PLAYER 1 INDICATOR

Every Superstar has a Player Indicator, which shows the name of the Superstar and who is controlling the Superstar (1P, 2P, COM, etc.). The Player 1 Indicator appears in the upper left corner of the screen.

SMACKDOWN!™ METER

As your Superstar successfully pulls off moves and taunts, his *Smack Down!*™ Meter gradually fills up; the higher you have the Charge Speed option set, the quicker the meter fills up. Once the meter is full, one of the hollow S's next to the meter lights up. For every S you have, you can perform a finishing move. When the *Smack Down!*™ icon appears over the *Smack Down!*™ Meter, press the **LS** button to deliver the final blow! Each Superstar has his/her own unique finishing moves. Experiment with different locations to find a Superstar's finisher. Try it off the top rope!

TIME ELAPSED

In a timed match, the clock in the lower right corner of the screen counts the length of the match, starting from 0:00. Be sure to keep the time limit in mind, as the match will end in a draw if it reaches the time limit.

REFEREE COUNT

The referee counts during a pinfall, ring out, or any situation that calls for a disqualification. The ref's count is hard to miss—it appears right in the center of the screen.

PLAYER 2 INDICATOR

The Player 2 Indicator contains all of the same information as the Player 1 Indicator. It appears in the upper right corner of the screen.

Note: If there are more than two Superstars competing in the match, other characters' indicators appear in the lower corners of the screen.

DOUBLE TEAM MOVES

There are two different types of Double Team moves in *WWE SmackDown!™ Shut Your Mouth*—Normal and Tag Team.

Normal

To perform a Normal Double Team move, one Superstar must lift an opponent into a grapple. A second Superstar must approach the two of them and press any of the four directional buttons and the  button to execute the Double Team move.

Tag Team

Because tag teams have good chemistry, Tag Team Double Team moves are easier to execute than Normal Double Team moves. Simply Irish whip an opponent into your team's corner and execute a grapple (any directional button + ) to tag your opponent and deliver a devastating double dose of destruction. After the move, your partner will be the legal Superstar in the ring.

EXHIBITION

SINGLE

In a Single Match, two Superstars face off in one-on-one action. Choose **NO MANAGER** to take on your opponent single-handedly, or choose **WITH MANAGER** to have a Superstar accompany you to the ring and help you out when the ref isn't looking.

TAG

Two teams of two Superstars slug it out in this match type. You can choose to have a Tag Match **WITH MANAGER** to beef up your team, and you can also choose a **TORNADO TAG**, in which all four Superstars are in the ring simultaneously, without having to worry about tagging in or out.

SIX-MAN TAG

Take a Tag Match to the next level with a Six-Man Tag, in which two teams of three Superstars go at it. You can choose to have a **TORNADO Six-Man Tag**, which allows all six Superstars to be in the ring at once.

HANDICAP

Prove just how tough you are by taking on more than one opponent at a time. Not tough enough? Team up with a partner and take on a single Superstar. You can choose a ONE ON TWO match to face two opponents at once, a ONE ON TAG match to compete against a tag team, or a ONE ON THREE match for the fight of your life.

ROYAL RUMBLE®

Normally, the *Royal Rumble*® comes but once a year, but in *WWE SmackDown!™ Shut Your Mouth*, you can take on up to 29 other Superstars anytime you want. Eliminate your rivals by throwing them over the top rope, and then get ready to take on the next opponent to run down the ramp.

KING OF THE RING™

The *King of the Ring*™ tournament puts eight Superstars in a single-elimination event where only one can reign supreme. Choose a SINGLE TOURNAMENT for Single Matches or a SPECIAL TOURNAMENT for Special Matches.

HARDCORE

Welcome to a match where anything goes and you go anywhere. Move through backstage areas by walking through doorways marked with a blue icon. You can have SINGLE, TORNADO TAG, and TORNADO SIX-MAN TAG Hardcore Matches, as well as a TRIPLE-THREAT™ TORNADO TAG match with three teams of two Superstars. And if teamwork isn't your style, try a TRIPLE-THREAT™, FATAL FOUR-WAY™ or TIME LIMIT match that pits up to six Superstars against each other.

SURVIVAL

Survival Matches push you to the limit against multiple opponents. TRIPLE-THREAT™ and FATAL FOUR-WAY™ Matches end when the first Superstar is pinned or submits, but 4-, 5-, and 6-MAN BATTLE ROYALS end when there is only one Superstar who hasn't been eliminated.

SPECIAL

Special Matches push *WWE* Superstars to their limit and never fail to thrill and amaze the fans who witness them. Nothing gets the adrenaline flowing like a death-defying Ladder Match or a brutal Hell in the Cell™! What follows is a list of the Special Matches available in *WWE SmackDown!™ Shut Your Mouth*:

CAGE

The classic "two men enter, one man leaves" match, the Cage Match has been a staple of sports-entertainment since the very beginning. You can play **TORNADO TAG**, **TRIPLE THREAT™**, and **FATAL FOUR-WAY™** Cage Matches, in which your Superstar must wear down his opponent and escape the cage. If an opponent is making a break for it, attack the cage wall to make him fall. You can also play a **PIN & GIVE UP** variation on these matches, where the action is strictly confined to the cage and only ends with a pinfall or submission!

ELIMINATION

In an Elimination Match, the bell doesn't ring with the first pinfall or submission—you must eliminate your opponents until a member of your tag team is the only one left! You can compete in a **NORMAL** or **TORNADO 4- or 6- MAN TAG**, or up the brutality factor with a **TABLE TORNADO SIX-MAN TAG**. In a **CAPTAIN FALL TORNADO SIX-MAN TAG**, the match ends when one team's captain is pinned or submits.

HELL IN THE CELL™

Hell in the Cell™ has made as many careers as it has ended. The only rule is that the match ends when a Superstar is pinned or submits in the ring. Use the cell walls as a weapon by whipping opponents into (and sometimes through) them! A **SINGLE Hell in the Cell™ Match** pits two Superstars against each other, while an **ARMAGEDDON™ HELL IN THE CELL™ Match** is a brutal six-Superstar affair.

"I QUIT"

Getting pinned after you have nothing left to give is tough, but actually shouting the words "I Quit!" into a microphone is downright humiliating. To win an **I Quit Match**, beat your opponent down, pick up a nearby microphone, and execute a pin while holding the mic—if your opponent has had enough, he'll let everyone in the arena know!

IRONMAN

Pin your opponent or make him submit to score a point in an Ironman Match. When the time limit has expired, the Superstar with the most points wins. Can you go the distance?

LADDER

Ladder Matches are where the risk-taking daredevil  Superstars get to strut their stuff. Use a ladder to reach the belt suspended above the center of the ring to win the match. Make sure to place the ladder carefully and put your opponent(s) out of commission before reaching for the gold, because it's a long way down!

LAST MAN STANDING

Similar to a Hardcore Match, there are no rules in a Last Man Standing Match. The match ends when one Superstar is literally unable to stand up before the referee counts the disqualification.

LUMBER JACK

In a Lumber Jack Match, you can leave the ring—but you won't want to! Several Superstars surround the ring to lay the *SmackDown!*[™] on any competitor foolish enough to leave the canvas.

SLOBBER KNOCKER

You've got a time limit and a never-ending stream of opponents—how many can you defeat before the clock runs out?

SPECIAL REFEREE

Don't count on a fair fight in a Special Referee Match, because the player- or COM-controlled referee can't be trusted to call 'em like he sees 'em. The ref not only makes all count-out, pinfall, and DQ calls at his own pace (by pressing the  button), he can also get involved in the match—after all, who's going to DQ the ref?

STREET FIGHT

A one-on-one Street Fight Match is the perfect place to settle old scores. Anything goes, and victory is won by pinfall or submission in the ring!

SUBMISSION

The only way to win in a Submission Match is—you guessed it—by getting your opponent to tap out. Choose an ULTIMATE SUBMISSION Match to score a point on each submission within a time limit, similar to a submission-only Ironman Match.

TABLE

Losers don't walk away from Table Matches, for one simple reason: the only way to lose a Table Match is for your opponent to put you through a table! Whip your opponent on top of a standing table and execute a power move to put him through it, or just lean the table up in a turnbuckle and Irish whip him through it for the win.

TLC™

Tender Loving Care? Try Tables, Ladders, and Chairs (oh my)! A TLC™ Match is identical to a Ladder Match, except for the fact that you are provided with chairs and tables with which to knock your opponents senseless.

THREE STAGES OF HELL™

Choose three Special Matches and compete one-on-one against another Superstar in this vicious test of endurance. The first Superstar to win two of the three Special Matches wins the Three Stages of Hell™ Match.

SEASON MODE

The Season Mode in  *SmackDown!™ Shut Your Mouth* allows you to pick a Superstar (including a created Superstar) and take him all the way to the Undisputed  Championship. Select NEW SEASON to begin a new career, CONTINUE to keep playing through an existing season, ENTRY SUPERSTAR to determine which Superstars will appear in your season, STABLE to assemble and disassemble tag teams, and SAVE & EXIT to save data to the memory card and return to the Main Menu.

NOTE: Only male created Superstars can be controlled in the Season Mode. Female created Superstars can only be placed on the roster, to be included in the story lines.

DRAFT

When you choose NEW SEASON from the Season Menu, a  draft begins, dividing Superstars between *Raw*® and *SmackDown!*™. Choose the Superstar you want to play as during the season, and then choose which  brand you want to represent. Finally, representing Ric Flair™ or Vince McMahon™, select the Superstars you want for your program.

LIGHTS, CAMERA, ACTION!

Each  broadcast begins with your Superstar backstage in front of the entrance to the arena. You can choose to enter the arena and interfere in a match or compete in one of your own by moving forward and pressing the  button.

You can also explore the backstage area, find Superstars, and make allies or enemies depending upon what you say to them. You can even leave the arena and travel around New York looking for a fight. To enter a new area, walk towards it and press the  button when the icon appears in the lower right corner of the screen.

VIP ROOM

After the rosters have been finalized, the Season Mode begins. Enter the VIP Room when you are not involved in a match to check on the progress of your Superstar's career or to request a title shot from the show's owner.

UNLOCKING ITEMS

Winning high-profile matches on pay-per-views unlocks alternate Superstars and videos, costumes,  arenas, and additional Create Mode options, like Superstar parts, ability points, audience signs, and moves. Talking to the merchandise vendor outside of the arena gives you information on which items are available.

***Title Shot:** The roster shows how many star points each Superstar has gained during the course of a Season. Before approaching your boss for a Title Shot, build up your star points so you have an equal number of points as the reigning Title Holder then visit your boss in the VIP room. Star points are given out based on the importance of a match and the status of your opponent. Created Superstars start at the bottom with no star points.*

***Note:** Due to exciting storylines involving the nWo™, you will need to play through an entire Season before you are able to select any of these Superstars.*

Only the following options can be changed during Season Mode:

- ▶ Superstar Name Bar - On/Off
- ▶ Targeting
- ▶ Camera Angles - On/Off
- ▶ Player Indicators - On/Off
- ▶ Sound - Stereo/Mono
- ▶ Vibration - On/Off

- ▶ Edit: Edit an existing movement
- ▶ Copy: Copy an existing movement (if you want to Edit a movement but not overwrite the original, for instance)
- ▶ Delete: Delete a movement
- ▶ Save & Exit: Save the movement and return to the Create an Animation menu

Once you start creating an animation, select BASE to determine the animation's starting point, and then choose MODIFY to fine-tune it. Once you have the movement set the way you want it, choose DECISION to return to the previous menu. Once you save an animation, it is available from the list of animations in the Create Mode.
