Button. Play will alternate until both players have lost all of their frogs.

When playing a two-player game, each player's turn will continue until they have lost their current frog. After the current frog is lost, the *Get Ready Screen* will appear indicating that the next player can begin by pressing the Start

# THE GAME SCREEN

Most of the screen displays the Roadway and River Areas of the game. In the Roadway Area, which occupies the lower portion of the screen, you must maneuver the frog between the moving traffic. In the River Area, which occupies the upper portion of the screen, you must maneuver the frog into one of the five open bays located at the very top of the screen by way of the floating logs, turtles and crocodiles.

# THE GAME SCREEN

**Score:** The current score.

**Frogs Remaining:** This shows how many frogs the player has in reserve. When there are no more frogs displayed, the player is controlling their last frog.

**Timer Bar:** This indicates how much time the current player has to successfully maneuver their frog into an open bay. A warning sound will be heard when less than 8 seconds remains. If time runs out, the player will lose their current frog.

# HOW TO PLAY

Each player starts with 5 frogs. To maneuver the frog from its starting position to the safety of an open bay, use the Control Pad as follows:

Pressing Up hops the frog up the screen one lane.

Pressing Down hops the frog down one lane.

Pressing Left hops the frog to the left.

Pressing Right hops the frog to the right.

Avoid collision with all automobile traffic by hopping quickly between the moving cars and trucks. Once across the road, hop onto the logs, turtles, and crocodiles to safely maneuver into an open bay at the top of the screen. Once you have successfully placed the current frog safely into an open bay, the remaining time on the Timer Bar will be added to your score. Then you will begin again with a new frog at the bottom of the screen and a full Timer Bar.

If at any time during play the current frog is hit by traffic, or falls into the water, the player will lose that frog and will need to begin at the bottom of the screen again with a new frog. If there are no more frogs remaining, the game is over.

Press the Start Button at any time during play to pause the game. Pressing the Start Button once again takes the game out of pause and resumes play.
