## **PUSHING TO THE EXTREME**

Pushing beyond the limits of human performance. A single athlete. A single goal. What drives an athlete to excel past any expectations? "The Ulysses Factor" is an element that forces an individual to excel beyond one's own limitations. Few individuals possess this quality. Some become heroes. Some become legends.

What drove Sterling Sharpe to break the NFL record for the most receptions in one year, then break his own record the following season? Desire? Courage? Love for the Game? The only way to truly know is to have that drive in yourself.

Experience the feeling of making reception after reception. Dive through a wall of muscle and blood for the game-winning touchdown. Throw a pass farther than you've ever thrown before. Rush in on a quarterback so fast that he begs to be taken out before he's carried out. Can you feel the drive? Take it to the limit, then go beyond. Take it END 2 END.
