THE STORY

With bright skies and bright promise, Heart Island seemed to be a place of never ending happiness. On one fateful day, an evil force changed all that. Suddenly, skies were dark and optimism turned to hopelessness. Yes, the happiness indeed ended...

A young boy, Ray, now struggles to understand the events in his life, past, present, and future. Ray's father suffered at the hands of the evil power that also shattered the tranquility of Heart Island. Thus, he was raised into a world of uncertainty, a world of darkness...

By searching himself, Ray now realizes he must seek more than just answers. He must meet and unite in friendship with other young warriors. Together, these children will establish their own identify. With it, they will have to establish a new world, and a new generation of peace.

Now, without a moment to waste, this magnificent adventure unfolds ...

THE ADVENTURERS

RAY

The hero of the adventure was raised without parents by a nurse named Sonia. He believes in and only seeks what is right; yet he always seems to find himself in the wrong place at the wrong time. Being of good nature has brought him many friends.

TINA

She is a mild mannered person who seems to get along with everyone. A regular goody two shoes you might say. Her non-attack magic spells will provide a great help for protection and recovery. You can meet her in BeeGees Town.

CODY

This polite, emotional character was captured by Garados, a member of the evil force. Cody can not only yield magic, but he is a strong fighter as well. It is worth it to put up with his moods to have him with you.

LEONA

Known as the lady leader of a gang of burglars who call themselves "Wild Cats". Leona likes to show off. She has an attitude and a real tom-boy label. Although she is fond of fighting, she hates the sight of blood. You can think of her as a "rebel without a clue or cause".

DAN

Since Dan is very young, he cannot physically fight very well. However, his magic skills are unmatched. Do not be fooled by his wimp appearance.

CONTROLLER OPERATION

Status:

Choosing this option allows you to know your strength and power level status. They are as follows:

“L” Level

The level of experience and ability. The higher the better.

“Star of Actoss”

This is the symbol of a hero who has awakened as a soldier, and only now can begin to use magic spells.

Note: “Kustera” cannot attain the “Star of Actoss” status.

“Pennon”

After the “Star of Actoss”, heroes can reach the “Pennon” status.

Note: Hero status continues from “Pennon” to “Banalette”, and eventually to “Aqutallion”.
Kustera is also a status level name.

“HP”

The number of hit points. This number will increase as you gain levels.

“MP”

The number of magic points. In order to use spells, you must retain some MP.

“EP”

The number of experience points. You earn these through defeating enemies in battle. You should try and earn EP at every opportunity. This will help you gain levels quickly.

OTHER PARTY OPTIONS

Order: You can change the order of members in each party. Typically, it is a good idea to put stronger party members first and have the weaker ones last. This tactic will help since enemies attack front party members more frequently.

Set: As noted earlier, you can change the name of anyone in your party at any time during the game. To do so, select the Set and Rename options and you will be asked to input a name.

Swap: The Swap command lets you switch to control your other traveling party. Going to the Swap command and pressing **A** will start you where your other party last was. The party not being used at the time will pitch a tent to signify that they are resting while you control the other of your two parties.

Note: This command can only be used after at least one Kustera person joins you.

Barriers: If your party encounters a barrier (like the one pictured), you can cross it by simply pressing the **A** Button.

Note: There will be some barriers that only one of your two parties can cross. Thus, if you cannot cross a particular barrier, use the Swap command and try crossing the barrier with your other party.

MODES OF TRAVEL

You can enhance your travel through use of the following:

"The Queen Elza"
(A ship for the hero's party only)

"The King Ocean"
(A ship for your non-hero party only)

"The Final Star Airplane"
(A helicopter for the hero's party)

"The Algos"
(Both parties may store their ship or helicopter)

Note: You can operate any of the above by approaching and pressing the **(A)** Button. Control using the **+** control pad. Be sure to get off in a place you and your party can walk.

BATTLING ENEMIES

At various enemies you will find that “Monsters appear”, and the scene automatically changes to a battle scene. When this happens you and your party will be drawn into a 3D battle scene. Here, you will have the following menu of options:

Press **(A)** to fight the enemy party. You must select which enemy you wish to attack, and confirm by using the **(A)** Button. Continue for each party member whom you wish to fight in battle. Use the **(B)** Button to cancel any or all undesired previous choices.

Fight: To fight using equipped weapons.

Magic: To fight using a particular character's magic spells. Also, to recover or aid a party during battle.

Guard: This will decrease the attack of an enemy on a particular party member.

Item This will allow you to use an item that you have during battle.

Auto: Choosing the Auto command will result in a battle with the enemy until someone is defeated. Party members will automatically fight the enemy party and use only those magic spells or items which will recover ailing ally party members. To cancel the Auto Battle Mode, press **(B)** Button repeatedly.

Run: If you do not wish to engage in battle with the enemy, you can select this option. Sometimes you cannot run from battle and must fight

Animate: You can select the option to have the enemies in battle animate (ON) or remain still (OFF) during battle.

Mes Spd: You can determine the speed of the dialogue of messages during battle using this feature. They are as follows:

0 = The fastest speed of messages

21 = The slowest speed of messages

∞ = The change in message speed is determined by the player who must press **(A)** to advance message.

FAINTING

YOU HAVE FAINTED!!

If your HP reaches 0, then you will become "Faint" and can no longer fight in a battle. You must be treated in order to change your "Faint" condition.

If you have become "Faint" and your party manages to make it through battle, you will return to the party with 1 HP only. Also, when you are treated for your "Faint" condition in battle, you will return to the active party with 1 HP only.

YOUR ENTIRE PARTY HAS FAINTED

Should all the members in your party "Faint" (reach 0 HP), you will be completely destroyed. Your party will now return to the last town you visited.

You will resume play with all the Experience Points (EP) and Items that you had previous to your last battle. However, you will lose 1/2 (50%) of your accumulated gold.

Note: Stop (paralyzed) condition of your entire party in battle will produce a similar result for your party. Remember though, characters may "Faint", but they never give up.

AROUND TOWN

There are various shops in each town or village which you can buy or sell both items and weapons. They include:

Item Shop:

A place to buy or sell items in your party.

Weapon/Armor Shop:

A place to buy or sell items (a sword for example) in which you must equip.

Hospital/Clinic:

Characters who suffer from illness or poison can be treated here.

Inn:

A place to recover lost HP and MP.

Note: You may be able to rest at a stranger's house, but you won't recover both HP and MP.

Uncle Save's House:

The place to save your adventure. Sometimes, however, Uncle Save may be roaming around town and you may have to look for him.

Storage:

When you are carrying more items than you wish to, visit and deposit them here for safe keeping.

BUYING AND SELLING

When you enter a place of business (Item, Weapon, Armor Shop), you have the following options:

Buy: In the case of items that can be equipped (e.g., Weapons and Armor), characters who can use the particular item you wish to buy will be indicated. Similarly, if a character cannot equip a certain item, the window will indicate such.

Sell: When you sell a particular item, you will receive 1/2 (50%) of its original gold price for that item.

Explain: When you are not sure what an item is or how it may help you, select the "Explain" option for an item.

WHAT IS KUSTERA?

The Kustera are a bunch of friends who help you in your adventure. There are eleven Kustera with different abilities. When you enter a town, make sure you speak to everybody, one of Kustera might be hidden.

Evelyn - Thief
Shark - Warrior
Murry - Wizard
Kathy - Archer
Ryu - Ninja
David - Warrior

Andy - Fighter
Ben - Priest
Jubei - Samurai
Beth - Doctor
Arthur - Witch

Kustera Registration

Whenever you've met more than five Kustera, you may register them at this place or you may exchange members of Kustera party. Select characters to exchange or register with a cursor and press **A** Button to decide. But you can not add members of Kustera to your main party (Aqutallion).

* Each party has individual access to money, items and weapons. You cannot share or exchange these with Kustera.

MAGIC

There are two types of Magic: Personal Magic and Unity Magic. As you would expect, Personal Magic involves one person and Unity Magic involves more than one person working together. Remember, casting magic spells requires a certain amount of MP each time a spell is cast.

Personal Magic:

Once attained, a character can cast a spell by using the cursor to select that spell. The spell you wish to use is done by pressing (A) Button provided you have enough MP to cast the spell.

Note: Each spell will indicate how many MP necessary to cast in the upper right hand corner of the screen.

Unity Magic:

This special magic can be used by 2 (sometimes 4) members of the hero's party (except Dan) only. Also, members in your hero's party must be at least of class "Banalette".

Using Unity Magic:

When in battle, select the "Magic" and "Unity" options as shown.

When "Unity" option is selected, decide upon 2 members of your party to attack the same enemy. Although you each choose to attack only a single enemy, your Unity Magic will attack the ENTIRE enemy party. The first member you select to unify will be shown with a "star" by their name. The second selected will show a "+" mark. Use the (A) Button to decide "OK". Remember ...

Note: Should one of your two or four characters "Faint" before the Unity Magic is cast, the spell will fail. Thus, it is a good idea to have your quickest characters unite.

TECHNIQUES OF USING UNITY MAGIC

Techniques of Using Unity Magic

Most importantly, your two party members must aim at the SAME enemy (otherwise Unity Magic will not work). Now, those two allies can unite as follows:

- 1) "Magic and Magic" - As expected, each member uses magic to attack an enemy.

or

- 2) "Magic and Weapon" - Basic operation of this Unity technique is the same as above. Except, one of the party members selects a weapon from the Items list, and equips with it. Now that character chooses to "Fight" (with his/her weapon). Finally, the other person who is to cast magic, selects a spell. Their Magic/Weapon Unity can result in a "Total Attack".

Kustera's Magic

The non-hero party also has some magic users. They master spells without relying on the power of Actoss Star. However, their magic is not as strong as the magic of the hero's party.

Note: Kustera learns magic as they gain levels of experience.
