The Story of Clint and Annie

The young and beautiful Annie went to see Clint, the renown space bounty hunter. "My entire family was abducted and killed by the Kid family. I will pay you whatever you want to help me get rid of those villains." "I don't need any help," said Clint in a haughty voice. "I insist on helping you," replied Annie. "I have a personal vendetta against the Kid family, and besides, I bet I am as good a shot as you are." "We'll see about that. Let's go!"

Welcome to Wild Guns: The one and only original Sci/Fi Western shoot 'em-up game.

Starting The Game

Press start to begin the game. Select either: Game start/Vs. Start Options and press start.

Game start will take you into the main game. Vs. start is a target shooting practice round. Recommended for beginners.

Continue

You can continue your game from the beginning of the stage you left off by pressing start before the timer counts down to 0.

Shooting The Bad Guys

The object of the game is simple. Shoot at all the bad guys on the screen by aiming your sight with the control pad and pressing the Y button to shoot. As you shoot your opponents, you will get different guns, and you will be able to pick up bombs, gold etc...

Items

Item boxes will appear after defeating certain enemies. Get these items by shooting at them. Some boxes will appear out of nowhere as well.

Gold - 500 points

Silver Rock - 1000 points

Blue Rock - 1500 points

Bomb - These are precious. Blowing off one of these will damage all the enemies on the screen. You can't have more than 5 bombs at any one time.

Weapons

You begin the game with a normal gun. Weapon boxes will appear after defeating certain enemies. Shoot at them to change your gun.

Shot Gun - Successive shots are not as fast as with other guns, but the diffusion of the bullets can do damage to many enemies at once.

Machine Gun - can fire shots in rapid succession, but its destructive power is about the same as the normal gun.

Grenade Gun - The firing speed is slow, but the big explosion will damage at least 2-3 enemies at a time.

Pop Gun - The pop gun is contained in one of the ? items. This weapon is ineffective, so try to avoid getting it.

Weapons *cont.*

Vulcan Gun - Definitely the most awesome weapon, and it will be yours when the green gauge is full. As you use your vulcan gun, your green gauge will gradually go back down to nothing. At this point, you will get your old weapon back. While you are using the vulcan gun, you are invincible.

Dynamite, Lasso, Target Practice

DYNAMITE

Some enemies will throw sticks of dynamite at you. By pressing the B button you can pick up and throw the dynamite right back at them.

LASSO

By consecutively pressing the B button and then releasing, you will be able to hit your opponent with a lasso which will cause him to freeze for a little while.

TARGET PRACTICE

Match your skill against a friend or the computer in this unique round of target practice. Just choose the VS. option in the start menu.
