

ASSASSIN'S —CREED III—

UBISOFT®

WARNING Before playing this game, read the Xbox 360® console, Xbox 360 Kinect® Sensor, and accessory manuals for important safety and health information. www.xbox.com/support.

Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.**

Parents, watch for or ask children about these symptoms— children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

ACCESSING THE IN-GAME MANUAL

The instruction manual for the game is conveniently embedded within the game itself.

The in-game manual can be found in the Animus Training Centre, located in the Pause menu while you play the game. Not only does the in-game manual make it quick and easy to get the answers you need, but it will never get worn, torn, or lost. Implementing this feature is just one step Ubisoft has taken to help save the Earth's natural resources.
