Important Health Warning About Playing Video Games

Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

ESRB Game Ratings

The Entertainment Software Rating Board (ESRB) ratings are designed to provide consumers, especially parents, with concise, impartial guidance about the age-appropriateness and content of computer and video games. This information can help consumers make informed purchase decisions about which games they deem suitable for their children and families.

ESRB ratings have two equal parts:

- **Rating Symbols** suggest age appropriateness for the game. These symbols appear on the front of virtually every game box available for retail sale or rental in the United States and Canada.
- **Content Descriptors** indicate elements in a game that may have triggered a particular rating and/or may be of interest or concern. The descriptors appear on the back of the box next to the rating symbol.

For more information, visit www.ESRB.org.

Now, 10 years later, it seems that Rapture has moved on, and the Splicers' arms race has escalated. THE SOURCE OF ADAM

Rapture's demise began with the discovery of ADAM, a substance found only in a particular type of sea slug. ADAM enables people to instantly modify their own genes, using a process called Splicing. Splicing installs powerful genetic alterations

in the human body and mind in the form of Plasmids and Gene Tonics.

Both of these have the potential to make the user terribly intelligent, incredibly powerful and, if overused, homicidally insane. Chronic Plasmid and Gene Tonic users are called Splicers. They will kill for ADAM. They will kill for no reason at all. And now they account for almost all of Rapture's population.

ADAM is collected from dead Splicers by the Little Sisters, small blood-drinking girls armed with huge syringes. Symbiotic sea slugs inside them separate the ADAM from the blood they consume, so the ADAM can be reused. Since they must then carry the valuable ADAM inside themselves, without protection Little Sisters are vulnerable to attacks by Splicers as they travel throughout Rapture. So they seek out guardians—Big Daddies like you—to protect them while they gather ADAM.

When traveling with a Little Sister, press and hold **X** to reveal a scent trail leading to a corpse containing ADAM. Beware! While the Little Sister is drawing blood, Splicers will converge on the Little Sister and corpse.

NOTE

To see how many Little Sisters are present in the current level, press **START** to display the Pause screen.

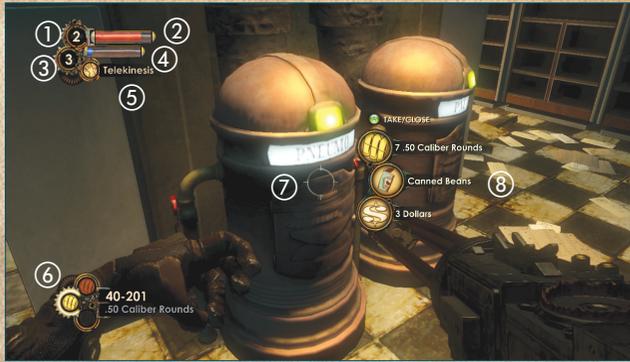

ADOPT, HARVEST OR RESCUE?

If you decide to **Adopt** a Little Sister, you become her protector, and she will depend on you to shield her from attacks while she gathers ADAM from corpses. Your job is to destroy whomever threatens the Little Sister—and in return, she will give you the ADAM she collects. Besides Adoption, at a Vent you have the option to either **Rescue** a Little Sister or **Harvest** her for ADAM.

Rescue destroys the ADAM slug, removing it from the Little Sister's system humanely, and returns the Little Sister to being a normal girl. She will then escape to safety through one of Rapture's numerous Vents. Rescuing lets you recover a smaller amount of ADAM remaining in the body of the slug she hosted.

Harvesting her for ADAM removes the live slug straight from the Little Sister's body, and gives you a huge dose of the vital substance—but she will not survive the process.

1 First Aid Kits

First Aid Kits fully replenish health. Press **R** to use one.

2 Health Level

When it's gone, you die. Increase maximum health by spending ADAM at a Gatherer's Garden.

3 EVE Hypo Count

Hypos replenish EVE. You will automatically inject one when your EVE runs out. Press **X** when a Radial Menu is displayed to manually inject an EVE Hypo.

4 EVE

Powers your Plasmids. Increase maximum EVE by spending ADAM at a Gatherer's Garden.

5 Active Plasmid

The Plasmid currently in use. Press **LB** to cycle to a different active Plasmid, or use the Plasmid Radial.

6 Ammo Menu or Drill Fuel Gauge

Identifies ammo type, number of rounds remaining and max number allowed. The currently selected ammo type is lit. Each gun is capable of firing different ammo types. When armed with more than one ammo type, press **△** / **○** / **◻** to change ammo. When the Drill is equipped, the Drill Fuel gauge appears here.

7 Reticle

Use this to aim your weapon. Click **R** to aim with the Iron Sights. Set Auto-Aim ON in the Options screen to enhance aim.

8 Items Available for Pickup

When you walk up to something that contains items available for pickup, you will see a Search prompt. Press **A** to view the items, then press **A** again to pick up all the items displayed.

Little Sister Icon (not shown)

Appears when you have Adopted and are traveling with a Little Sister. When she is gathering ADAM from a corpse, a progress bar appears until she finishes. If a Splicer starts attacking her, the progress stops and an **!** alert appears while she is gathering. Once your Adopted Little Sister has gathered ADAM from two bodies, the icon will change to a Vent. This indicates you must now return her to a Vent.

Quest Arrow (not shown)

Directs you to the current Goal. Can be turned OFF from the Options screen.

WEAPONS & PLASMIDS

You can use weapons and Plasmids simultaneously in a fight. One tactic is to disable or stun enemies with a Plasmid and finish them off with a weapon, though either might be fatal by itself.

WEAPONS

The Drill

You begin the journey through Rapture armed only with the Drill, a melee weapon. There are three ways to attack with the Drill:

Drill an Enemy Press and hold **RT**. This requires Drill Fuel. Check the Drill Fuel gauge on the HUD.

Club an Enemy Press **B** or quickly press **RT**.

Drill Dash an Enemy Press and hold **RT**, and then press **B**. This ability must be unlocked.

Guns

As you explore Rapture, you will find other weapons. There are two ways to attack with guns:

Fire Press **R1**. This will fire the type of ammo you have equipped.

Gunbutt an Enemy Press **B** to knock an enemy back.

Ammo

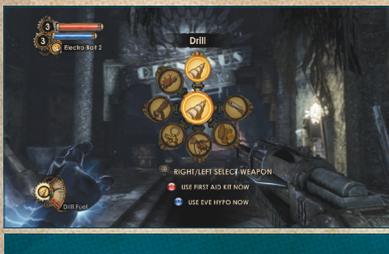

Weapons fire different ammo types. You will find special ammo that is more effective against certain targets. Once you have multiple ammo varieties, press **R1**/**R2**/**R3** to change ammo on your currently held weapon.

Switching Between Multiple Equipped Weapons

Once you have two or more weapons, you can quickly switch between them.

Cycle Next Weapon Press **RB** to cycle to the next weapon.

Use Weapon Radial Press and hold **RB**, move **L** or **R** to select a weapon, and then release **RB**.

PLASMIDS

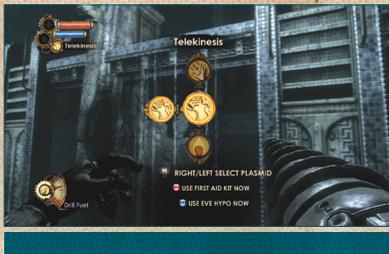

Plasmids are instantaneous genetic modifications you can splice into your DNA. Once installed, Plasmids empower you to inflict changes on the beings and objects around you. One Plasmid allows you to set people on fire. Another lets you freeze objects. There are many more.

Power your Plasmids with EVE injections. No EVE, no Plasmid power. Find it or buy it.

Use Plasmid Press **LT**. In some cases you may need to press and hold **LT** to charge a Plasmid before firing.

Cycle Next Plasmid Press **LB**.

Use Plasmid Radial Press and hold **LB**, move **L** or **R** to select a Plasmid, and then release **LB**.

Plasmid Slots

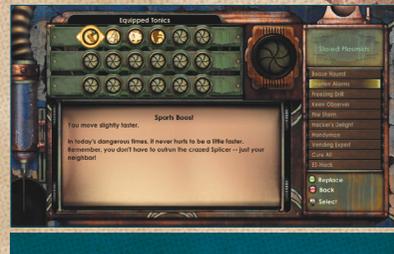

Plasmid slots are where you hold equipped Plasmids. The more Plasmid slots you have, the more Plasmids you can equip at one time. You can spend ADAM at a Gatherer's Garden to obtain additional Plasmid slots.

GENE TONICS

These genetic enhancements become part of your nature once spliced into you, and work automatically. You can unequip and replace them with other Gene Tonics by visiting Gene Banks.

GENE TONIC SLOTS

As with Plasmids, you can only equip a Gene Tonic if you have a slot for it. If you have enough ADAM, you can buy additional Gene Tonic slots at a Gatherer's Garden.

FINDING ITEMS

Search everywhere, including dead bodies, cabinets and trash cans, for important items to help you survive, such as money, ammo, and First Aid Kits. You will see a Search prompt when you approach a searchable container.

1 Enemy Health Bar

When you're fighting enemies, they display a Health bar so you can see the amount of damage you must inflict to kill them. When the meter is green, the enemy is strong. When it glows red and shortens, the enemy is weakening.

2 Attack Alert

This red signal points toward an enemy who is attacking you.

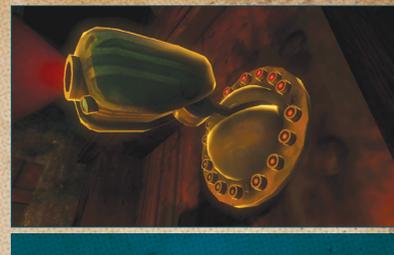

SPLICERS

Splicers are the citizens of Rapture, driven mad by Plasmid and Gene Tonic use. Housewives looking for a makeover have been transformed into homicidal maniacs. Former businessmen now think beating someone to death is a management skill. Despite their deranged nature, Splicers can be terrifyingly skilled and powerful opponents.

SECURITY CAMERAS & BOTS

Linger in front of a security camera and an alarm is set off, followed by Security Bot deployment. Bots are hovering machine-gun drones. The alarm system is on a timer (you will see a countdown on-screen). Turn bots into allies by Hacking them. You can also Hack the cameras to deploy bots against your enemies.

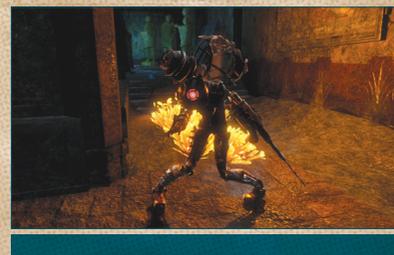

TURRETS

When Turrets sense your presence, they will open fire. Hack them to make them attack your enemies.

BIG SISTERS

Big Sisters are extremely swift, ruthless and tough to defeat. They look after Little Sisters, making sure they are able to gather in peace. Removing Little Sisters from their appointed rounds (by Adoption or Harvesting) will attract the attention of the Big Sisters.

BIG DADDIES

Like you, other Big Daddies are strong, heavily-armored enemies who will protect their Little Sisters with their lives. They will not attack until provoked, however.

VITA-CHAMBERS

Death is not the end in Rapture. If you die, the nearest Vita-Chamber will revive you.

NOTE

You can disable the Vita-Chambers on the Options screen so that when you die, the game is over.

DIARIES

Diaries are recorded messages left behind by the people of Rapture. Be sure to pick them up. They may contain a history lesson or vital information. If you want to listen to them again later, press **BACK** and select **Messages** to listen to all the diaries you have collected.

VENDING MACHINES

Vending Machines feature items important for survival. Select the item on the left to view a description. The quantity of the item you have and your maximum capacity appear in the center of the screen. Your current amount of money appears on the right. Hack the machine for a discount, to reveal hidden items, and, if you stop the needle in a blue zone, a free item.

CIRCUS OF VALUES

Purchase general merchandise including basic ammo, EVE Hypos, and First Aid Kits.

AMMO BANDITO

Sells ammo only. Look for specialized ammo types for each of your weapons. Different machines can have different things for sale—check them all!

GATHERER'S GARDEN

The amount of ADAM you have appears on the right. Spend your ADAM just like money to:

- Acquire additional Plasmids and Gene Tonics.
- Unlock additional Plasmid and Gene Tonic slots, allowing you to equip more at one time.
- Increase max health and EVE.

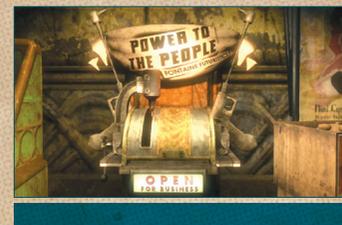

GENE BANKS

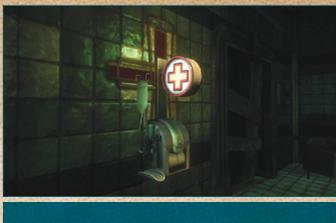

You may have collected more Plasmids or Gene Tonics than you are able to equip at one time. You can view and swap them at a Gene Bank. The Gene Bank has one Plasmid track and one Gene Tonic track. Select a track to see what is equipped and what is stored (listed on the right).

POWER TO THE PEOPLE MACHINES

Upgrades your weapon for free! Each machine closes down permanently after one upgrade of one weapon. Each weapon can be upgraded three times, but the third upgrade is only unlocked if you have already applied the first two.

HEALTH STATIONS

Pay to be completely healed. Your enemies also use Health Stations while fighting you. Hacking a Health Station turns the machine against your enemies, reduces the cost of healing, and gives you a free First Aid Kit if you stop in a blue zone. Destroying a Health Station also knocks out a free First Aid Kit.

BOT SHUTDOWN PANEL

If you find one of these after tripping a security alert, use it to deactivate attacking bots and end the alarm countdown.

VENTS

Vents are devices Little Sisters use to travel through Rapture on their own. Take an Adopted Little Sister to a Vent, where you can choose to Rescue or Harvest her. If you Rescue her, she will flee into the safety of the Vent.

HACKING

If a device is Hack-friendly, a Hack prompt appears. To Hack:

- Press **X** to open the Hack screen.
- Try to stop the needle over the green or blue zone of the meter by pressing **A**.
- Press **B** to cancel.

Hacking Zones

- Green** Successful progress.
- Blue** Successful progress, plus a bonus based on the machine type.
- White** Receive a nasty shock.
- Red** Set off a security alarm.

Hacking Uses

- Get items from Vending Machines more cheaply.
- Reprogram machines to turn them against enemies.
- Gain access to protected items and unlock doors.

- Find a Hack Tool and shoot Hack Darts from a distance.
- Find a Gene Tonic that makes your Hacks more effective.
- Find Auto-Hack Darts that let you Hack instantly.

NOTE

If you set off an alarm while Hacking, successfully retrying the Hack will end the alarm.

Set your camera rolling on a Splicer with **RT**, and attack him or her with a variety of Plasmids and weapons. The more kinds of damage you do, the more quickly your Research will progress.

After acquiring the Research Camera, you can review your progress on the Research tab in the Info Menu.

CAPTURE THE SISTER

Join forces and take turns capturing the Little Sister in each round in this team-based mode for 6-10 players. In each round, one team defends the Little Sister while the other attempts to capture her and rush her to a Vent. • The Little Sister icon points you to the Little Sister.

• The Vent icon points you to the closest Vent.

TURF WAR

Join forces and capture Rapture's territories in this team-based mode for 6-10 players. Win points by capturing and controlling territories.

Each territory is marked by a control point. There are three control points in each Map. Follow the on-screen guides directing you to a control point (showing you its number), then claim it for your team by filling the Capture meter.
