Important Health Warning About Playing Video Games

Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

PEGI ratings and guidance applicable within PEGI markets only.

What is the PEGI System?

The PEGI age-rating system protects minors from games unsuitable for their particular age group. PLEASE NOTE it is not a guide to gaming difficulty. Comprising two parts, PEGI allows parents and those purchasing games for children to make an informed choice appropriate to the age of the intended player. The first part is an age rating:-

The second is icons indicating the type of content in the game. Depending on the game, there may be a number of such icons. The age-rating of the game reflects the intensity of this content. The icons are:-

THE RACE-O-RAMA RACING SERIES

The Race-O-Rama racing series pits the best racers against each other in the widest variety of racing challenges ever!

THE RACE-O-RAMA CIRCUIT

You'll start the series in the amazing Radiator Springs Speedway. By winning the flashing gold Race-O-Rama events you will be able to visit new cities in the Race-O-Rama race circuit like super cool Santa Carburera, awesome Motoropolis and amazing Autovia!

GOLD EVENTS

To unlock new cities and work your way to the championship race you must beat all available Gold Events. The Gold Events are easy to find on your mini-map. Just look for the FLASHING GOLD STAR.

EXPLORATION MODE

Whenever you are not competing in a race or playing a mini-game you will be able to explore whichever city you are in, including Radiator Springs Speedway. Exploration mode is where you will find join points for all the events, including Gold Events!

MOVING ALONG

If you don't know what you need to do, talk to your buddy Mack. He will give you hints and let you know how many gold events you have left to beat before the next city is unlocked. When you are ready to go to the next city talk to Mack and he will take you there. The pause menu will also show you how many gold events you have completed.

STANDARD EVENTS

These events provide all kinds of fun outside of the Race-O-Rama racing series and allow Lightning McQueen to visit the various shops around Radiator Springs. Notice these events don't have a big star under them! Only Race-O-Rama circuit events have a star and flash.

REWARDS

Beating events for the first time will reward you with cool new ways to customise Lightning McQueen and his friends with things like paintjobs and new sets of wheels.

Gold Events have 3 Sparkplug Pickups hidden along the race course. Pick up all 3 of these during a single race and you will be awarded new playable characters!

Collect Bolts around Radiator Springs, Santa Carburera, Motoropolis and Autovia. Gold Pickups will award you with 500 Bolts, Silver Pickups will award you with 100 Bolts and Red Pickups will award you with 10 Bolts.

By collecting Bolts Pickups that are scattered throughout the world you will unlock new parts that you can place on Lightning McQueen at Doc's shop!

DRIFTING

Drifting is a cool new style of driving that Lightning McQueen is really excited about! Now he can use Doc's secret driving techniques everywhere he goes. Remember, sometimes you have to turn left to go right!

Drifting

While driving fast hold the **LT** to enter drift mode. In drift mode you can do cool loose drifts or tight drifts that help you make those tight, difficult turns. Pushing the Left Stick lightly while in drift mode will allow you to drift loosely and rack up a lot of points! The more you push the stick the tighter the drift becomes, making turning easier!

Drift Meter

The Drift Meter shows you the angle that Lightning is drifting. A more extreme angle will put the meter in the green. Combining an extreme angle with a lot of speed will help you score a lot of points!

GAMEPLAY PAUSE MENU

Press the **○** button at any time during gameplay to pause the game and access the Pause Menu.

Continue	Resume gameplay and get back in the race.
