Important Health Warning About Playing Video Games

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

PLAYING THE GAME

Join the soccer revolution. Whether you're hitting the streets in a Play Now game, taking the FIFA Street Challenge, or calling out a friend in Playground Picks mode, choose from more than 250 of the world's greatest players representing 18 of the top international teams, plus a few hidden extras! Challenge your rivals in the hottest locales around the world, from the urban playgrounds of South America to the rooftops of Asia to the streets of Europe, and more.

USER PROFILES

Before storming the streets and taking on the world's best players it's highly recommended that you create a User Profile for yourself. In fact, you'd be silly not to. A User Profile tracks and saves your personal accomplishments, such as user stats, unlocked items, and more, to an Xbox 360 Hard Drive or Xbox 360 Memory Unit. Don't let all of your hard work go to waste!

GAME SCREEN

ON THE PITCH

THE PLAYERS

No matter which game mode you choose, your destiny lies in the hands—or feet—of the players assembled on your team. Decked out in an authentic kit, every player boasts his own distinctive style of play with unique abilities to match. Whether you're after brawn, brains, or a player with an offensive- or defensive-minded skill set, the perfect street player is out there. Choose from Tricksters, Enforcers, Playmakers, and Finishers to help leave your mark on the street.

PLAYER ICONS

Playmakers

Playmakers are the best passers in the game. Try to use them when crossing from the wings. They also like to shoot from long range.

Enforcers

Enforcers are the best defenders on the pitch. Use them to counter your opponent's best players.

Tricksters

Tricksters are the most skillful players on your squad. Try using Drags when they are in possession of the ball.

Finishers

Finishers are simply the best goal scorers in the game. These players can score at will shooting from different heights and angles.

TRICKS AND SHOTS

Tricks and shots on net are the name of the game in *FIFA Street 3* and there are an endless number of awe-inspiring moves you can pull off to dominate your biggest rivals. A successful shot fills up your Gamebreaker meter during a game, and the more you shoot, the faster you'll trigger a Gamebreaker moment (see below).

Get a feel for the game by experimenting with different button combinations on both sides of the ball. In time you'll be a master of your game.

GAMEBREAKERS

Performing Drags and Tricks will cause the Gamebreaker meter to fill with a yellow bar. However, the yellow bar only indicates potential Gamebreaker points. You must take a shot in order to get those points added to your Gamebreaker meter. The better the shot, the more trick points you'll receive. When the Gamebreaker meter is completely filled, pressing **RB** will activate a Gamebreaker moment. During a Gamebreaker all of your players perform with maximum skill boosts. Hurry though; you don't have all day to shoot.

JUGGLING

Juggling is another way to pull off a trick move, and you can run around while juggling or stand in place. Do you have the skills to move the ball around your body, or bounce the ball on your head, shoulders, or knees?

KEEPER CONTROL

When outside the box, goalkeepers can be controlled like normal players. Just move your keeper outside his area to automatically drop the ball.

SAVING AND LOADING

Before exiting a game mode or menu where changes (e.g., settings, roster moves, etc.) have been made, be sure to save your progress to an Xbox 360 Hard Drive or Xbox 360 Memory Unit. All unsaved information will be lost otherwise.

GAME MODES

When you first play *FIFA Street 3*, only some of the teams are available. However, with successful play, you can unlock many, if not all, available items.

PLAY NOW

The best way to get a feel for the game is by playing in Play Now mode. Although the final results don't carry over, the level of play is still intense. Before you take the pitch, you have the option to choose your favorite team, the venue, and the rules before kick off.

FIFA STREET CHALLENGE

It's time to take things global for some righteous, in-your-face play with the FIFA Street Challenge. Work your way through nine different tournaments each with their own rules and challenges. The better your team performs, the better the perks that await you thanks to unlockables attained through successful, show-boating play.

So pick your teammates, and get the rundown of the objectives that unlock cool stuff and you'll be well on your way to showing the world what a legendary FIFA Street player is all about.

HEAD-TO-HEAD

Why play one match when you can play several? Play a best-of series against a friend and customize the rules of each match for a true test of skill. Six different formats to choose from including matches decided upon Time, Score, Score Difference, Headers & Volleys, Gamebreakers, and Five-A-Side.

PLAYGROUND PICKS

Take the world's best players, line them up, and take turns selecting one to join your team. It's just like you used to do in the school playground.

PRACTICE

The last thing you want to do is hit the pitch and get made to look like an amateur. There are three things that can make you into a star: practice, practice, practice. Perfect your dribbling, shot targeting, and trick-making abilities before you set the world ablaze with your sweet street moves.

PLAYING FIFA STREET 3 ON XBOX LIVE

Once you've got your game nailed down, bring your skills and attitude and challenge the world. And remember: it's not enough to win—you have to win with style!

- Quick Match** Hit the streets the quick and easy way by finding the next available opponent online.
- Playground Picks** Create a fantasy team like no other as you bring your game online. Draft from an assortment of the world's best players, but choose wisely: players who are passed over will remember you snubbing them. Beware of bruised egos!
- World Challenge** Wear your country's colors with pride as you represent your nation online. Every game counts, as you and your fellow supporters combine results in the World Challenge tournament featuring all 18 international teams.
- Custom Match** Tweak the game settings to your liking, then challenge anyone to play your game.

HINTS AND TIPS

- The more spectacular the shot, the better chance you have to score. Try doing flicks and juggles before you shoot to gain an extra advantage.
- Pulling off Drags and Juggles close to your opponent's goal will fill up your Gamebreaker meter the fastest.
- Drags and Tricks are context sensitive so experiment using them in different situations. You'll get different tricks depending on if you are moving, standing, close to a defender, or near a wall.
- For some help on Defense, use Auto Tackle if you're close enough to the ball carrier.
