### Important Health Warning About Playing Video Games

#### Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

# Story

Neverland... A world where gods reside in Heaven, the dead in the Underworld, and humans, demons and various other races struggle for dominance amongst each other on the earth.

War was constant between the races, and as each conflict came to a close, the rulers would change.

The year is Magic Era 996...

Janus, Overlord of the demons and ruler of Neverland for countless ages, was defeated by human heroes.

Soon afterwards, Hiro, daughter of the late Overlord, raised the banner of a new nation: the "New Overlord Army"... And so, the Great Neverland War began...

Conflicts causing conflicts... Endless fighting...

In this war-torn world, small bands of warriors known as mercenaries began forming. Not restrained by the bounds of race or nationality, these mercenaries would grow to become a ubiquitous factor in the intensifying battles...

## CHARACTERS

BEGINNA

Gender: Male  
Race: Human  
Occupation: Mercenary  
Class: Fencer  
Age: 18

The son of farmers, he had a fairly nondescript upbringing. This probably fueled his longing for the excitement of heroes and knights. When the Neverland War broke out, he decided to become a mercenary and became a member of the Norius Mercenaries.

EUNICE

Gender: Female  
Race: Human  
Occupation: Ex-Priestess  
Class: Mage  
Age: 19

Eunice is a former priestess of Coleia. As the war started intensifying, she decided to become a healer to aid those hurt by the war. Because she wants to help others, she's normally pretty easy to get along with, but she can get kind of annoying when it comes to her ideals.

DIAZ

Gender: Male  
Race: Human  
Occupation: Mercenary  
Class: Healer  
Age: 18

He was raised in the same village as Beginna, and they've known each other as long as they can remember. Diaz decided to tag along with Beginna after Beginna decided to become a mercenary, despite his reserved nature. He is very indecisive, and ends up getting bossed around by the other members of the group.

### DRAGON

Gender: Male  
Race: Half-human, half-demon  
Occupation: Mercenary  
Class: Gladiator  
Age: 26

Due to his mixed blood, Dragan was teased mercilessly in the human village he was raised in. He belongs to the Norius Mercenaries and admires the leader, Judo. His goal is to become stronger so he can show the villagers that he's a force to be reckoned with. He has a foul mouth and loves to fight, and despite his brusque exterior he's secretly against bullying the weak no matter what he may say.

### CASSIUS

Gender: Male  
Race: Human  
Occupation: Mercenary  
Class: Spearman  
Age: 26

He was a child from a noble family, however, his family's property and possessions were taken because of the war. He joined up with the Norius Mercenaries in order to survive, and is methodically trying to earn back everything that he lost. He is cunning, calm, and calculating.

### JUDO

Gender: Male  
Race: Human  
Occupation: Mercenary (Leader)  
Class: Gladiator  
Age: 43

Judo is the founder of the Norius Mercenaries. There is a rumor that he used to work for the army of some kingdom but no one in the Norius Mercenaries really knows the captain's past in any real detail.

### CULCHA

Gender: Female  
Race: Human  
Occupation: Warrior  
Class: Goblin  
Age: 24

She was abandoned by her parents at a young age, but luckily, she was found by the Goblin Queen. Because of this stroke of "luck," Culcha was raised as a princess. She is kind hearted, and has elegant manners, but for the most part she's pretty dumb due to her goblin upbringing.

## NATIONS

### Special

When a character has sufficient SP and you meet the morale requirements, you can unleash a special attack. Specials have two categories: Unique Specials and Universal Specials. Unique Specials are skills one character will gain when leveling up. Universal Specials can be acquired by crafting items at the Smithy, or via earning them as battle rewards.

*(See P15 for details.)*

Specials consume 1 AP and SP used will vary.

### FG (Friendship Gauge)

This is a communal gauge for the allies and it charges as any ally attacks. Assists and Teamwork can be used by consuming this gauge. Utilize this gauge wisely to achieve victory.

*(This gauge cannot be used when either Diaz has been forced to retreat, or he is knocked down.)*

#### About Assist

Assist can only be done after a character attacks a target. When an ally can attack the locked on enemy (with normal attack or Pursuit attack), that ally can attack by consuming 1 FG. (Each ally can only Assist once during that character's turn.)

#### About Teamwork

Before ending the current character's turn, you can initiate the Teamwork command by using 2 units of FG. This will not use up the linked character's turn. (For example, if Begina uses a Teamwork to link in Dragan for an attack, and Dragan's turn is next, Dragan will effectively take 2 consecutive turns.) A character can only get linked into a Teamwork once per round of turns.

#### Using Assist/Teamwork

Hold down on **LB** bumper during the Attack Phase to switch to the Command Circle for Assist/Teamwork. While holding the **LB** bumper, press the button that corresponds to the ally you wish to have Assist/Teamwork. If an ally already Assisted or is unable to Assist, the face of the ally will be gray, and if an ally is knocked down or has retreated, the face of the ally appears in red.

## RG (Rush Gauge)

Similar to the Friendship Gauge, Rush Gauge is a communal gauge for the allies. RG charges when you use Assist and Teamwork commands, and the strength of Battle Formation varies depending on the percentage of the RG charged.

+5% for each Assist  
+10% for each Teamwork

RG 25% : Battle Formation Level 1  
RG 50% : Battle Formation Level 2  
RG 75% : Battle Formation Level 3  
RG 100% : Battle Formation Level MAX

## Battle Formation (BF)

A deadly attack that involves all allies in the battle. It cannot be used if there are fewer than six allies in battle.

Battle Formation Additional Effects:

The total of the attributes for the four allies in the Formation besides Begina and Diaz will determine the added attribute effect. If the total of attributes are equal, the attribute closest to the left side of the following chart is the attribute that will be added.

Normal Light Dark Fire Wind Earth Water

Added effects for each attributes:

- Wind = Raise all allies' AP for the next turn
- Water = Heal HP for all allies, and cure status ailments
- Fire = Raise all allies' SP
- Dark = Raise all allies' stamina
- Light = Raise all allies' resistance
- Earth = Raise the Morale
- Normal = Raise all allies' luck

## Boost Point

As the story proceeds, Boost Points will begin to appear on the battlefields. A variety of stat boosts can be received each turn when a character ends their turn on a Boost Point. The effect differs from the color (4 different colors) of a Boost Point.

There exists Boost Points which affect single members as well as points that affect all allies.

Moreover, as the story proceeds, Diaz will be able to create magic circles that provide the same effects as a Boost Point. There are three types of magic circles.

During Diaz' Attack Phase, target an empty space to create a magic circle.
