Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

INTRODUCTION

Have you ever wanted to destroy your opponent—and the ring—with a bone-crushing Superplex from the top turnbuckle? How about revisiting WWE’s “Attitude Era” firsthand, or holding championship gold above your head at the end of the main event of *WrestleMania*?

If the answer is yes, then you’ve come to the right place! Because if you’ve seen it in WWE, you can experience it in **WWE '13**!

The all-new “Attitude Era” mode lets you relive some of WWE’s greatest moments of the 90’s by putting you in control of Stone Cold Steve Austin, The Rock, Hunter Hearst-Helmsley and other WWE Legends. New and reimagined Spectacular Moments give you the chance to tear apart the arena while you do the same to your opponent. WWE Universe mode has even more options for customizing your WWE experience. And new match types, like King of the Ring, “I Quit” and Special Referee give you even more ways to prove that you belong in the WWE Hall of Fame.

So what are you waiting for? Lace up your boots and hit the entrance music—WWE immortality awaits!

CONTROLS

MOVEMENT

Whether you want to run at an opponent and smash a forearm into his face, slide out of the ring to settle things on the arena floor or climb up onto a turnbuckle to drop a flying elbow on a helpless victim, it all starts with knowing how to navigate.

Most of the time, moving around the environment is as simple as pushing **⬆️** in the direction that you want to go and pressing **LB** if you need to climb over, under or onto something.

Move Superstar	Push ⬆️
Go To Apron From Ring	Push ⬆️ toward outside of ring + tap LB
Move Around Ring Post From One Apron To Another	Push ⬆️ toward ring post
Go Outside Of Ring From Inside Ring	Push ⬆️ toward outside of ring + hold LB
Descend From Apron To Outside Of Ring	Push ⬆️ toward outside of ring + press LB
Ascend To Apron From Outside Of Ring	Push ⬆️ toward ring + tap LB
Enter Ring From Outside Of Ring	Push ⬆️ toward ring + hold LB
Enter Ring From Apron	Push ⬆️ toward ring + press LB
Dash	Hold LT + push ⬆️
Climb Turnbuckle	Hold LB + push ⬆️ toward corner post or run toward corner post
Run Up Turnbuckle	Dash toward turnbuckle
Climb Corner From Outside Of Ring	Run toward steel post from outside of ring

STRONG STRIKES AND STRIKE COMBINATIONS

Striking is the quickest way to inflict damage on your opponent. Pressing **X** performs a quick strike against your opponent. Holding **X** unleashes a powerful but slower (and easier to counter) heavy strike. Combining **X** while pushing **Ⓕ** in a direction gives you a variety of different strikes.

Pressing **X** as each strike lands creates a strike combination that sends your opponent reeling and builds momentum in a hurry.

Strike Attack	Press X
Alternate Strike Attacks (4 different kinds)	Press X + Ⓕ ←/→/↑/↓
Strong Strike	Hold X
Alternate Strong Strike (1 kind)	Hold X + Ⓕ ←/→/↑/↓
2-hit Combo	X during Strike Attack
3-hit Combo	X during 2nd combo hit
4-hit Combo	X during 3rd combo hit
Gut Kick	X + Ⓕ ↙ or ↘

Note: A successful strike combination (all four strikes connect) leaves the opponent in a standing groggy state and vulnerable to groggy grapple moves, top rope diving attacks and other devastating attacks.

CHAIN GRAPPLES

All grapple attacks in **WWE '13** start from one of four chain grapple states. To enter a chain grapple state, approach a standing opponent and press **A** while pushing **Ⓕ** in up, down, left or right.

Waist Lock:

A + **Ⓕ** **↓** facing opponent or **A** from behind opponent

Wrist Lock:

A + **Ⓕ** **→** facing opponent

Front Face Lock:

A + **Ⓕ** **↑** facing opponent or **A** by itself

Side Head Lock:

A + **Ⓕ** **←** facing opponent

Once your opponent is locked in a grappled state, you've got them right where you want them. Use the following commands to dish out the punishment or set them up for something even worse:

Grapple Attack (5 different kinds)	A + Ⓕ ←/→/↑/↓ or just A without Ⓕ
Breaking Point Submission	Hold A
Strike	Press X
Strong Strike	Hold X
Irish Whip	B
Transition to Front Face Lock	Ⓕ ↑
Transition to Wrist Lock	Ⓕ →
Transition to Rear Waist Lock	Ⓕ ↓
Transition to Side Head Lock	Ⓕ ←
Walk Opponent Around the Ring	Hold Ⓕ + Ⓕ and push Ⓕ
Release Chain Grapple Hold	Ⓕ

GROGGY GRAPPLES

When your opponent is standing but stunned, you've got him right where you want him. To perform a groggy grapple, approach an opponent from the front or behind while they're in a groggy state and simply press **A**, or press **A** and push **←/→/↑/↓** in any direction to execute a strong grapple attack.

To make an opponent groggy, land all four strikes in a strike combination, lift up a downed opponent and reverse attacks from a heavily damaged opponent. The Limb Targeting System can also be utilised (see "Limb Targeting System" below).

Front Grapple Attack (5 different kinds)	A , or A + ←/→/↑/↓ facing opponent
Rear Grapple Attack (5 different kinds)	A , or A + ←/→/↑/↓ behind standing opponent
Front Breaking Point Submission	Hold A facing opponent
Rear Breaking Point Submission	Hold A behind standing opponent
Switch to Front Facelock/Drag	Hold LB + LT and push ←

IRISH WHIP

Sending your opponent running out of control with an Irish Whip is a great way to take control of the match. Press **B** to Irish whip your opponent in the direction that you push **←**. Catch them on the rebound with a strike (**X**) or grapple (**A**).

Irish Whip Opponent	B (push ← to aim opponent)
Counter Strike	X when opponent is running at you
Counter Grapple	A when opponent is running at you
Alternate Counter Grapple	Hold A when opponent is running at you
Duck or Leap Frog Running Opponent	LB when opponent is running at you
Pull Back Grapple	Press A in the midst of performing an Irish whip (before opponent is released)
Pull Back Strike	Press X in the midst of performing an Irish Whip (before opponent is released)

REVERSALS

Just because some jabroni throws a punch at you, that doesn't mean you have to stand there and take it! Press **RT** as soon as your opponent begins their strike to reverse or block it.

If you reverse a punch or a kick, you grab hold of your opponent's arm or leg and have a short window of opportunity to counter attack!

*Note: If you're the attacker, and your opponent attempts to reverse your strike or grapple, you can reverse their reversal with **RT** and good timing!*

From a Punch Reversal State

Strike	X
Chain Grapple	A
Finishing Move	Y , if you have a Finishing Move Icon and your Superstar has a front or rear finisher
Breaking Point Submission	Hold A
Reverse the Reversal	RT as soon as your opponent attempts to reverse your attack

Chain Grapple	B
Kick Reversal Grapple	A
Finishing Move	Y , if you have a Finishing Move Icon and your Superstar has a front or rear finisher
Breaking Point Submission	Hold A

POSITIONING

When you have the upper hand, *WWE '13* gives you the power to put your opponent exactly where you want him. Once you have him at your mercy—either in a grappled state, or down on the canvas or groggy—use **Ⓢ** to reposition them strategically and hit them with your most powerful attacks.

RUNNING ATTACKS

What's better than walking up to an opponent and smacking them around? Running at them and ploughing straight into them! Run at your opponent by holding Ⓢ and pushing Ⓢ toward him, and then use X or A to hit him with a strike or grapple attack.

Dash At Opponent	Hold Ⓢ and push Ⓢ toward opponent

DIVING ATTACKS

Ring posts aren't just there to hold the ropes up—you can also climb up onto them and unleash devastating aerial attacks against an unwary opponent. Use diving attacks against standing or downed opponents, but be careful not to let your foes turn them against you. It's a long way down!

Down Diving Attack	X when opponent is down
Alternate Down Diving Attack	ⓧ+X when opponent is down

FINISHERS AND SIGNATURE MOVES

The best way to pop the crowd and put your opponent down for the count is to hit him with a Finishing Move, like John Cena's Attitude Adjustment or CM Punk's GTS.

Fill your momentum meter by successfully landing attacks and taunting your opponent. Once it's full, you'll have 20 seconds to perform your Superstar's Signature Move.

If you perform it successfully, you're rewarded with a Super Finishing move icon (which looks like a red "F"). If you can't perform your Signature Move within the given time, you wind up earning a normal Finishing move icon (a white "F").

Signature Move	Y when momentum is full
Finishing Move/Super Finishing Move	Y when you have a Finishing Move/Super Finishing Move icon stored

You've also got to be in the right position to perform your Superstar's Finishing Move. Each Superstar has different conditions, and you can check them out by viewing them in the Superstar Select Menu, or by having a look at his move-set in the Create modes.

Front	You're standing and facing a standing opponent
Back	You're behind a standing opponent
Irish Whip Rebound	The opponent is coming off the ropes towards you following an Irish whip
Running	You're running toward a standing opponent
Side	You're standing next to the torso of a downed opponent
Lower Body	You're standing next to the legs of a downed opponent
Upper Body	You're standing next to the head of a downed opponent
Corner vs. Grounded Opponent	You're standing near a corner, and your opponent is down on the mat.
Dive Vs. Ground Opponent	You're on the top turnbuckle within leaping range of a downed opponent
Dive Vs. Standing Opponent	You're on the top turnbuckle within leaping range of a standing opponent
Top Rope, Front	The opponent is groggy on the top turnbuckle, and you're standing in front of him
Top Rope, Back	The opponent is groggy on the top turnbuckle, facing away from the ring, and you're standing in the ring behind him
TB Front	You're standing facing an opponent who is on their feet but leaning against the corner turnbuckle
TB Seated	You're standing facing an opponent who is down (seated) in the turnbuckle
Rope Down	The opponent is hanging over the middle ring rope

TAUNT

Add a little insult to injury by taunting your opponent during the match. A successful taunt builds up your momentum and brings the crowd to their feet. Press any direction on ⓪ to taunt your opponent, but be careful—a quick adversary can interrupt your taunt with a strike or grapple and get the last laugh.

When you've got a Finishing Move icon stored, you can force a downed opponent to his feet with a Wake-Up Taunt. The opponent stumbles to his feet—hit him with your Finishing Move quickly, or you'll lose it!

Taunt (4 different kinds)	⓪ ←/→/↑/↓
Wake-Up Taunt	⓪ ↑ when opponent is down and you have a Finishing Move icon

Note: There are three situations where you can perform a Wake-Up Taunt: standing next to a downed opponent, standing on the apron near a downed opponent, or standing on the top turnbuckle above a downed opponent.

PINNING AN OPPONENT

Once you're sure that your opponent has had enough, it's time to hook the leg and go for the three-count.

When your opponent is down on the mat, approach him and press **B** to go for the pin. To kick out, the opponent must hold **A** to fill the kick-out meter and release **A** when it's in the target zone.

If you are the pinning Superstar and want to toy with your opponent a little longer, you can cancel the pin at any time by pressing **LB**.

Attempt Pin	B when opponent is down
Kick Out of Pin	Press A to fill kick-out meter and release in the target zone
Release Pin (Attacker Only)	LB

BREAKING POINT SUBMISSIONS

When your opponent is down, groggy or in a grappled state, hold **A** to lock them in a Breaking Point Submission. Your opponent must quickly struggle free of the submission hold, or they will tap out and lose the match.

You must mash **A/B/X/Y** to increase the pressure. Your opponent has to do the same to escape. But watch out—you can exhaust yourself if you try to get a strong opponent to tap out! To break the submission hold before this happens, press **LB**. Be aware that doing so will cost you a sizable amount of momentum.

Breaking Point Submission	Hold A when opponent is grappled, down or groggy
Increase Pressure (Attacker)	A/B/X/Y repeatedly
Release Submission (Attacker)	LB
Break Free (Defender)	A/B/X/Y repeatedly
Crawl Toward Ropes (Defender)	Push LB toward ropes to crawl and initiate a rope break (when prompted)

OMG! MOMENTS—NEW!

There are some moments that will live forever in WWE history, like Brock Lesnar hitting Big Show with a Superplex that collapsed the ring, or Undertaker hurling Mankind off of the roof of Hell in a Cell. **WWE '13** gives you the power to create these OMG! Moments in your own matches and secure a place in highlight reels for all time.

BARRICADE BREAK

Requires 1 stored Finishing Move icon.

Irish whip your opponent into one of the four corners of the ring barricade that surrounds the arena floor. Approach the opponent, and the OMG! icon will appear. Press **Y** to either spear or smash your opponent through the barricade, depending on the weight class of your Superstar.

RING BREAK

Requires 3 stored Finishing Move icons; attacker must be a Super Heavyweight

Irish whip your opponent into any of the four corner of the ring. While they are groggy in the corner, approach them and press **Y** when the OMG! icon appears. You will execute a top-ropo Superplex that collapses the ring and instantly awards you a victory by KO! Ring Breaks can only take place during the following 1-On-1 Match Types: Normal Match, Extreme Rules, Last Man Standing and Submission.

ULTRAPLEX

Requires 3 stored Finishing Move icons; attacker cannot be a Super Heavyweight

The setup for the Ultraplex is exactly the same as the Ring Break—this is what happens when a Superstar who is not a Super Heavyweight performs the move. Instead of Superplexing the opponent into the ring, the attacker Ultraplexes them out of the ring. The defending Superstar must then follow the on-screen button prompts to get to his feet, or he will be counted out (if the match can end via count-out DQ).

CATCH FINISHER

Requires 1 stored Finishing Move icon and specific finishing moves

If your Superstar has the RKO, Go 2 Sleep, Chokeslam, Superkick, World's Strongest Slam, Attitude Adjustment or Tombstone Piledriver as his finishing move, you can catch a diving opponent with the finisher by pressing **Y** when OMG! appears on the screen. This is an excellent way to counter high-flying opponents, who won't dare to use their aerial abilities while you have a stored icon.

ANNOUNCE TABLE FINISHER

Requires 1 stored Finishing Move icon

Remove the cover of the announce table by pressing **LB**. Irish whip the opponent into the table and press **A** to roll them up on top of it. When the OMG! icon appears on the screen, press **Y** to get up onto the announce table and perform a finishing move that drives them right through it.

LIMB TARGET SYSTEM

Any rookie can step between the ropes and throw wild punches and kicks, but the truly elite WWE Superstars come into every match with a game plan to pick their opponent apart and have him begging for mercy.

WWE '13's Limb Target System gives you the power to zero in on specific body parts and work them over until your opponent can't do anything except watch the ref raise your arm in victory.

You can target the limbs of a standing groggy opponent, a grappled opponent or a downed opponent.

Target Standing Groggy/Grappled Opponent's Head	Hold RB + press Y
Target Standing Groggy/Grappled Opponent's Arm	Hold RB + press B or X
Target Standing Groggy/Grappled Opponent's Leg	Hold RB + press A
Target Downed Opponent's Head	Hold RB + press A while standing near opponent's head
Target Downed Opponent's Arm	Hold RB + press A while standing near opponent's side
Target Downed Opponent's Legs	Hold RB + press A while standing near opponent's legs

You'll know that your attacks are taking their toll when your opponent holds that part of their body in agony. Once you see that, victory is close at hand!

Targeting different body parts has different effects on your opponent:

Head:

- Striking or grappling their head is more likely to force them into a standing groggy state.
- Attempting a submission against their head increases the odds that they'll tap out

Arm:

- Opponent's Breaking Point Submission strength is reduced
- Attempting a submission against their arms increases the odds that they'll tap out

Leg:

- Opponent's walking speed is reduced
- Running is impaired, and the opponent may randomly collapse while running
- Attempting a submission against their legs increases the odds that they'll tap out

Torso:

- Opponent's adrenaline meter is reduced
- Standing groggy grapples can now be executed following a Gut Kick (Ⓢ ↘ or Ⓢ + X). While the opponent is bent over from the kick, push the Ⓢ ←/→/↑/↓ + A to perform one of four different groggy grapple moves.
- Attempting a submission against their torso increases the odds that they'll tap out

SPECIAL REFEREE CONTROLS—NEW!

In a Special Referee Match, you have the power to call the match right down the middle—or not! You can count as quickly or as slowly as you like during ring-out counts and pinfalls, you can choose to perform a submission check (or not!) when a Superstar is locked in a Breaking Point Submission, and you can even pull off an infamous Screw Job finish to end a match prematurely!

To perform a Screw Job, you must build up the Special Referee meter by calling the match fairly, warning cheating Superstars and performing taunts. If you attack Superstars or are too fast or slow on counts, the meter depletes. When the meter is full and your preferred Superstar has his opponent locked into a submission hold, you can press **Y** when prompted to call for the bell and declare victory by submission—now get out of the arena as fast as you can, or you might regret it!

Count Pin/Ring Out	A
Submission Check	A
Announce Submission	A during submission check
Screw Job	Y when Special Referee meter is full and Superstar is locked in a Breaking Point submission
Violation Count	A

***Note:** Just because you're the referee, that doesn't mean you have absolute power. If you fully deplete your Special Referee meter by showing obvious bias and not doing your job, John Laurinaitis will come down to ringside and replace you with a more impartial official!*

"I QUIT" CONTROLS—NEW!

Want to leave absolutely no question in anyone's mind who the better Superstar is? Then challenge them to an "I Quit" Match, where two Superstars beat each other down until one of them literally announces that he quits the match.

In an "I Quit" Match, inflict damage on your opponent any way you can—objects are legal in these matches. When you think he's had enough, either lock him in a Breaking Point submission hold (hold **A**) or press **B** near him when he's down, as if you were going for a pin attempt.

At that point, your opponent must stop the cursor in the "I Quit" meter within the target zone in order to resist losing the match. You can perform an intimidating taunt (Ⓢ) to shake up the meter and make it tougher for your opponent to keep going. If the words "I QUIT" fully materialise at the bottom of the screen, the match is over!

Attempt to Make Opponent Quit	B near downed opponent or perform Breaking Point submission
Intimidate Opponent	Ⓢ during "I Quit" minigame
Escape From Quit Attempt	A at the correct time
Instantly Escape From Quit Attempt	Y (costs 1 stored Finishing Move icon)

Note: Intimidating an opponent can push them over the edge and force them to quit, but don't try it against a foe who's still strong, because it costs you momentum every time you do it.

EXTREME RULES CONTROLS

In an Extreme Rules Match, the only rule is that there are no rules! Brawl outside of the ring, smash your opponent with a steel chair and battle until you're both wearing the proverbial crimson mask!

All of these moves apply to any match where you can use objects against your opponent—though if you try to use them in non-Extreme Rules Matches, you might wind up disqualified.

Object Strike	X while holding object
Object Grapple	A while holding object
Grab Object	LB
Set Table On Fire	Y when standing next to a set-up table while in possession of a stored finishing move icon (Extreme Rules Match or Fire Table Match only)
Running Object Strike	X while holding object and dashing toward opponent
Throw Object At Downed Opponent	Push Ⓢ toward downed opponent and press LB
Drop Object	B or LB
Slide Object Into Ring	While outside of ring, push Ⓢ toward ring and press LB
Run Into Ring With Object	Dash toward ring while holding object
Slide Object Out of Ring	While in ring, push Ⓢ toward ring rope and press LB
Run Out of Ring With Object	Dash toward ring rope while standing near ring rope and holding object
Look For Object Under Ring	LB while standing outside of ring near middle of ring apron

BRAWL CONTROLS—NEW!

Sometimes things get even more extreme than an Extreme Rules match—sometimes it's not even a match at all! If you wind up in a backstage brawl, keep in mind that the following moves replace some of your default moves.

Throw Opponent (Irish Whip w/No Rebound)	B
Brawl-Specific Quick Grapple	A
Environmental Grapple	A when opponent is leaning on interactive environmental object

To win a Ladder Match, TLC Match or Money In the Bank Match, you must climb a ladder to get within range of an object suspended over the ring (usually a Championship). Use the shadow under the suspended object to line up the ladder, and then climb all the way up the ladder.

When you reach the top, hold **↵** + **↑** to grab the object. When the Superstar has grabbed hold of the object you will be prompted to PULL the item by moving the **↵** + **↓**. Time it correctly to receive another opportunity to pull the item down. And time your move carefully—if your timing is off, you'll be forced to start over.

*Note: When you want to knock over a ladder without picking it up, striking it (**X**) is the quickest way to do it. But if there are one or more Superstars on it, the fastest and most effective way to topple it (and the opponents on it) is to approach it and press **A**.*

Climb the ladder and push **↵** + **↑** to grab the suspended object above the ring.

When the prompt to remove the object appears, push **↵** + **↓** to pull it down.

Chair Moves

Chair Downed Corner Attack	While holding a chair, run toward opponent downed (seated) in corner and press X
Wedge Chair in Corner	Push ← toward corner while holding a chair and press B

Note: During Table, Ladder and TLC matches, Breaking Point Submission moves are replaced with Directional Grapple moves that you can use to smash your opponent into and against objects. Enjoy!

STEEL CAGE MATCH CONTROLS

Steel Cage Matches are among the most brutal matches in **WWE '13**. Superstars are surrounded by four unforgiving walls of chain link fence. Not only does the cage keep the action in the ring, it can also be used as a devastating weapon against a Superstar.

Climb Up Cage	👉 toward cage wall + 🎮 (triggers escape minigame)
Escape From Cage	🟢 at the top of the cage
Diving Attack From Top of Cage	🔴 at the top of the cage vs standing or downed opponent
Pull Opponent Off Cage	🟢 or 🔴 below opponent trying to climb the cage

Smash Opponent Into Cage Wall	Hold 🔴 and push 👉 toward cage; must have the Hammer Throw ability
Throw Opponent Into Cage Wall	🟢 near opponent who is groggy against the ropes

HELL IN A CELL MATCH CONTROLS

Steel Cage Matches are dangerous, but Hell In a Cell Matches are potential career enders! All of the Steel Cage Match controls apply to Hell In a Cell, but there are some particularly vicious moves that can only be executed in WWE's most deadly match type.

Throw Opponent Off Top Edge of Cell	🟢 near opponent at edge of Cell

Break Cell Roof	Slam opponent onto centre of Cell roof
Drop Into Ring Through Broken Cell Roof	👉 toward the break + 🎮
Cell Destruction Finisher	🟡 button near the corners of the Cell on the same side as the commentary tables with a Finishing Move Icon

ELIMINATION CHAMBER

Six Superstars enter the Elimination Chamber, but only one will leave with the victory! Two Superstars begin the match, and additional Superstars enter, one at a time. When a Superstar is pinned, they're removed from the match, which continues until only one remains.

Use the Steel Cage Match controls in the Elimination Chamber, as well as these special actions:

Climb Onto Top of Chamber Pod	👤 + LB while on turnbuckle
Get Down From Top of Chamber Pod	LB
Slam Opponent Into Chamber Wall	Irish Whip opponent toward chamber wall
Climb Up Chamber Wall	👤 toward Chamber wall + LB

TAG TEAM MATCH CONTROLS

Double the mayhem of a regular WWE match by teaming up with a partner and taking on a pair of opponents! In regular Tag Team matches and Tornado Tag Team matches, the objective is to win by either pinfall or submission.

In a regular match, each teammate must tag in and out of the match, and the legal member of one team must beat the legal member of the other team. In Tornado matches, all Superstars are in the ring simultaneously, and any member of one team can defeat any member of the other team.

Tag	👤 toward partner + LB
Corner Double Team Grapple Moves	Irish whip an opponent toward your corner and push 🏠 ← / → / ↑ / ↓ + A; your waiting partner must be positioned near the turnbuckle where a tag would normally occur.

Switch to Controlling Legal Partner	🏠 BACK (CPU then controls illegal partner)

INFERNO MATCH CONTROLS

In an Inferno Match, the ring is surrounded with searing flames, and the only way to win is to set your opponent on fire! When your opponent is down, press **B** to roll him toward the burning ring apron.

Once the opponent is near the flames, you must press **A** when the cursor on the meter reaches the target area. Your opponent must mash **A/B/X/Y** in order to escape to safer temperatures.

Note: If you're in danger of going up in flames, spend one of your stored Finishing Move icons (👊) to instantly escape from the heat. Any Superstar who has ever lost an Inferno Match will tell you that it's a small price to pay!

ROYAL RUMBLE CONTROLS

The 30-man *Royal Rumble* over-the-top-rope elimination match is one of the most famous annual events in WWE. Anything goes, as long as you don't leave the ring once you enter!

Royal Rumble Finisher	Y when opponent is groggy against ropes or corner, under the ropes, or is down on the ring apron
Eliminate Opponent	A when the opponent is groggy against the ropes or corner, under the ropes, or is down on the ring apron, and then follow the on-screen button prompts
Change Character (after being eliminated)	Press up or down on ○ or A to scroll through Superstars, and press A to select a Superstar.
Cancel Elimination Attempt (On Offence)	LB
Instantly Escape Elimination	LB with a Finishing Move icon

XBOX LIVE

RANKED MATCHES

Compete in a ranked match against an Xbox LIVE opponent. Your performance affects your record and Xbox LIVE ranking. Make sure you're at the top of your game before you step into the squared circle for one of these ultra-competitive matches. With each amazing match you perform in, you'll earn prestige toward advancing through the ranks and titles.

PLAYER MATCHES

Similar to Ranked Matches, these put you head-to-head against an online opponent, but the result does not affect your Xbox LIVE ranking. Compete in a custom match (you select the match type) or create a session where you play matches exclusively with a single opponent.

ROYAL RUMBLE

Enter a Ranked or Player Match *Royal Rumble* to go up against up to five other players to see who the most tenacious competitor is! Each player selects their Superstar that they'll begin the match with. When the match is first loaded, each player is randomly assigned one of the first entry numbers available – depending on the number of players in the match.

In Ranked *Royal Rumble* Matches, you'll earn a number of prestige points based on how many Superstars you eliminate, how long you last without being eliminated, consecutively eliminating Superstars, escaping eliminations and more. The number of players in a Ranked Match determines the overall amount of prestige toward Xbox LIVE ranking that each player can earn for participating in the match – the more players in the match, the more points each player can earn. In Player *Royal Rumble* Matches, prestige and Xbox LIVE ranking will not be affected.

COMMUNITY CREATIONS

Community Creations allows you to access player-made content uploaded from other players from all over the world. You can also upload any of your creations made from Create Modes for the world to see. With the Community Creations browser, you'll able to browse uploads sorted by most recent contributions, the most downloaded contributions, or the highest rated uploads. You'll have access to a number of filters to sort uploaded content by type. If you find an upload you like, be sure to comment and rate it, or even add it to your list of favourite uploads.

MY INFO

You'll be able to see your Xbox LIVE stats, prestige, and ranked match records broken down by match types here.

LEADERBOARDS

SUPERSTAR ABILITIES

Dirty Pin

When your opponent is down near the ropes, stand next to the ropes and execute a pinfall with both of your legs propped up on the ropes, giving you unfair leverage to increase your chances of getting the three-count.

Move Thief

Steal your opponent's Finisher and use it against them by holding **RB** and pressing **○↑** to enter the Move Thief state. You have 20 seconds to execute the Finisher from the time you enter the Move Thief state. The defender must be in a grounded state and the attacker must be standing near them in order to perform the Move Thief ability.

Comeback

If you have this ability, you will be prompted to press **Y** when your Superstar has sustained heavy limb damage. Pressing the buttons displayed on the screen at the correct time will let you perform a dramatic comeback. This cannot be used when you have a Finisher available and can only be used once per match.

Hammer Throw

When Irish whipping an opponent, hold **B** to send an opponent smashing into and over a turnbuckle or flying over the ropes and down to the arena floor.

Resiliency

Superstars with this ability can use it once per match to dramatically improve the odds of kicking out of a pin attempt. While being pinned, press **LB** to increase the target zone on the pin meter.

Outside Dives

Press **X** while moving into the ropes, or run across the ring and press **X** near the ropes to execute a diving attack or running diving attack against an opponent outside of the ring.

Springboard Dives

While near the ropes or running toward the ropes, hold **⬆** toward the ropes and press **X** to execute a springboard attack from the ring apron. If you have a downed opponent on an announce table, get onto the ring apron closest to the announce table and hold **⬆** while pressing **X** to execute a killer springboard table attack.

Leverage Pin

Superstars with this ability can counter running attacks and groggy grapple attempts from a heavily damaged opponent into pin attempts called "leverage pins"; they can also trigger a leverage pin with **○↑/↓** near a groggy opponent. In a leverage pin, the defending Superstar can try to escape normally by reaching the blue target area of the kick-out meter. If the defending Superstar also has the Leverage Pin ability, they can reverse the leverage pin into a pin of their own by reaching the yellow area of the meter.

Ring Escape

When down near the ropes, press **LB** to slide under them to ringside and escape your opponent. You can use this ability up to three times per match.

DID YOU KNOW...?

... when your opponent attempts to grapple you, you can press **A** to lock into a collar-and-elbow tie-up. Press **A** repeatedly to win the battle and gain the advantage!

...that you can remove turnbuckle pads from the corners of the ring? Move **⬅** toward the turnbuckle and press **A**.

...that a damage multiplier is added to your strike and grapple attacks if you run off of the ropes before hitting the move?

...that you can choose which direction that you want to send an opponent running by pushing **⬅** in that direction as you're Irish whipping them?

...that you can recover from being groggy more quickly by mashing the buttons?

...that there's only one way to escape the Hell in a Cell structure? You must destroy one of the wall panels on the same side of the structure as the announce tables by using a special move.

...that strong strikes can be performed from front-facing chain grapple holds (front facelock, side headlock and wrist lock) and after blocking a punch or catching a kick?

...that the announce table must be cleared before you can put an opponent through it? Approach the announce table, push **⬅** toward it and press **Ⓜ** to remove the cover. Once the cover has been removed, Irish whip the opponent toward the table, and then grapple them to place them on top of the table. Stand near the announce table and press **A** or **Ⓜ+A** to perform the attack.

...that you can use a special announce table finisher when you have a stored Finishing Move icon and opponent down on an announce table? Press **Ⓜ** when standing next to the table or on the table with them to perform it.

...that certain moves transition straight into pin attempts if you press **B** when it appears on the screen? Keep a sharp eye out for it!

Unless expressly waived by Licensor in writing for the particular instance or contrary to local law, the sole and exclusive jurisdiction and venue for actions related to the subject matter hereof shall be the state and federal courts located in Licensor's principal corporate place of business (New York County, New York, U.S.A.).
